If several members or friends of the society would make an offering of one thousand each, and if one hundred would send a hundred dollars each, and if a thousand would send ten dollars each, the managers of the work would feel greatly relieved and the missionaries would sing for joy. At present they are paid in part only; as their stipend is only sufficient to enable them to live in comfort, the failure to receive the whole amount works them 2 real hardship. Besides the funds needed to carry on the work efficiently are lacking. The native helpers ought to be paid in full and paid promptly. Rents ought to be paid according to promise; else the good name of the mission will suffer. Now is the time to demonstrate that we are in carnest in our desire to evangelize the world.

Finances.-The receipts for the month amount to \$1,914.63; the disbursements to \$4,010.15. The disbursenients are less than usual because the committee was able to pay only seventy-five per cent. of the amount due. It could not pay so much as it did without borrowing. It will be seen that a society with no real estate in the United States, and with no securities, cannot borrow very much.

During the hard times the society has suffered from a diminished and in adequate income. The members and friends ought to bear the needs of the work in mind. The executive committee is the agent of such churches and individuals as may choose to co-operate, and such men and women as may choose to go out trusting in God and godlike people for their support. The current idea that the committee has unlimited funds at command, or has some magical process of securing the money needed, is a great and harmful delusion. The committee has only what it receives. Sometimes it has borrowed a little from the banks that the workers might not suffer. In such cases the treasurer pledged his own name for the payment. The brethren must know that this work can not be carried on unless they supply the requisite funds. In an emergency like the present, greater efforts ought to be made that the work may not suffer any arrest.

There are two great needs respecting foreign missions. 1. Information, 2. generate the second. Information on this soul-stirring theme is abundant, and, when faithfully presented, touches the heart with conviction, and makes it glow with a holy enthusiasm. And now comes a statement, from the county of Chateauguay, over the signature of a well-known resident of St. Urbain, who speaks in positive and unmistakable language as to the value of this wonder-working medicine.

MR. BAUDIN'S STATEMENT.

"I feel that I owe my life to your Dr Williams' Pink Pills, and I desire to make grateful acknowledgement and to give you a complete statement of my illness and cure in the hope that my experience may be of benefit to some other sufferer. I had been afflicted with a species of paralysis caused by the rupture of a blood vessel over the right eye, and which stopped the circulation of the blood on the left side. I was at that time employed as n book-keeper by Messrs. Lacaillade Bros., Lawrence, Mass. The doctor had advised a change of work so as to have less mental and more physical exercise. This I resolved upon, but delayed too long-as I, did not leave arising from mental worry, overwork or until the following October. Arrived at my destination I perceived symptoms of my previous illness making themselves felt once more. I went a once to a local physician who declared himself unable to understand my case. headed " Miraculous Cure." I read it,

the article I saw that the cure had been seemed as though there was a struggle within me between the facts I had read and my own incredulity, so small was the faith I had in medicines advertised in the papers. I read the article and re-read it several times. I seemed to hear the doctor's words, "he cannot live a year," and then I saw the effects of Dr. Williams' Pink Pills in the case I had just read about. The result of the reflections was that I decided to give Pink Pills a trial, and I immediately wrote the Dr. Williams' Medicine Co. for a supply. On their arrival I commenced using them according to directions, and before the first box was done I found they were helping me, and it was not long before I was able to walk to the village, a distance of strength. At the time I was taken sick I weighed 212 pounds, and at the I was reduced to 162 pounds, a loss of 50 pounds in little more than a month. I took the pills for about three months. and in that time I gained 40 pounds. To-day I am as well as I ever was in my life, and my recovery is due entirely to the use of Dr. Williams' Pink Pills, and I cannot recommend them too highly to those who do not enjoy the blessing of perfect health. Yours gratefully,

L. Jos.
