SCHUMACHER FEED
BANNER FEED
MOLAC DAIRY FEED
VICTOR FEED

FOUR FEEDS highly endorsed by many scientific feeders. No hap-hazard mixtures carelessly put together by inexperienced hands, but rather feeds prepared as the result of careful, scientific research and years of experience and experimenting.

READ WHAT MR. NESS OF HOWICK, QUE., SAYS:—

"Some time ago I got some of the SCHUMACHER STOCK FEED which I used altogether for cows and found it the best milk producer I ever used. I kept perfect track of my cows before using and after, and found they gave me at least 10 per cent. more milk with an equal amount of butter fat.

SCHUMACHER STOCK FEED, in my estimation, is the cheapest food that can be used for cows."

Yours truly, (Signed) DAVID L. NESS.

You will receive the MAXIMUM RESULTS at the minimum of cost by feeding any of the above mentioned ground feeds. The grinding alone adds from 15% to 25% to the digestibility.

If your feed dealer cannot supply you our feeds, accept no substitute, but write to us.
