

SOUVENIR

WITH AERATED OVEN

MOST all the science of good living is in the science of good cooking. Then what's more natural than to look to one's cooking apparatus to be a scientifically constructed as to insure the boon of good living by good Cooking.

Tests by
exp. 1. 1. 1.

proved unmistakably that food cooked in an aerated oven is better cooked than in an oven which is without ventilation—more palatable and more healthful to a degree that is best appreciated by people who have tried, compared and studied the difference between the new and the old ways; and while the "Souvenir" range is a model stove in every appointment, the handsomest piece of kitchen furniture extant to-day, without its strong point—its aerated oven—it would be as the rose without its aroma.

Write for a "Souvenir" Booklet, treating specially on the Aerated Oven. SOUVENIRS are sold everywhere.
