"Since it has pleased the Great Head of the Church, in His mysterious providence, to visit our Presbytery and take from our midst our faithful and well-beloved brother and co-worker, the Rev. D. McLeod, B.A., of Præville, we, his co-Presbyters, desire to place on record our appreciation of his many excellencies not only as a man but more especially as a faithful minister of the Gospel of Christ. And while we as a Presbytery feel very keenly the loss we have sustained in his removal, yet would express our gratitude to God for the many years he was spared to labor in His vineyard, and the much good we believe he was instrumental in accomplishing in the church, and especially in the congregation of Præville. We would also express our sincere sympathy with his bereaved partner and family and commend them to the care of Him who has promised to be a husband to the widow and a father to the fatherless."

A HAPPY GIRL.

Miss Amina Kelly Tells of Her Illness and Subsequent Cure—A Statement That Should be Read by Every Girl in Canada.

Miss Amina Kelly, a well-known and much esteemed young lady living at Maplewood, N.B., writes:—"I consider it my duty to let you know what your wonderful medicine has done for me. In April, 1896, I began to lose flesh and color; my appetite failed and on going upstairs I would be so tired I would have to rest. I continued in this condition for three months when I was taken suddenly ill and not able to go about. Our family doctor was called in and pronounced my illness chlorosis, poverty of the blood. At first his treatment appeared to do me good, but only for a time, and I then began to grow worse. I continued taking his medicine for three months, when I was so discouraged at not regaining my health that I declined taking it any longer. I then tried a liquid medicine advertised to cure cases like mine, but did not obtain the slightest benefit. I had become terribly emaciated and weak. There was a constant terrible roaring noise in my head; my feet and ankles were swollen and I was as pale as a corpse. One day while in this condition my father brought home a box of Dr. Williams' Pink Pills and asked me to try them. In less than a week I could sit up, and in a couple of weeks I could walk quite a distance without being tired. My appetite returned, the roaring ceased, I began to gain flesh and color, and before I had used half a dozen boxes I was as healthy as I had ever been in my life. My friends did not expect me to recover and are now rejoicing at the wonderful change Dr. Williams' Pink Pills have wrought in me. If my statement will be the means of helping some other discouraged sufferer you are at perfect liberty to publish it."

The above statement was sworn before me at Maplewood, York Co., N.B., this 14th day of May, 1897.

Timothy W. Smith, J. P.

CENTRAL BUSINESS COLLEGE

We are advised that this excellent school has just closed its most successful year, many young men and women having found their way through its hands into good positions in the business world.

The next session will begin on Sept. 1st, and anyone interested in Commercial Education, Shorthand, Typewriting or Telegraphy will receive full particulars by sending a postal request to the principal, Mr. W. H. Shaw, Yonge and Gerrard streets, and mentioning this paper.

PRACTICAL EDUCATION.

In this age of practical ideas a practical education is necessary to insure a successful social or business life for your daughter. In selecting a home for her great care should be

exercised, for in many cases it is the formative period, and the impressions gained at this time influence her future life. "Rolleston House," Toronto, is a school well worthy the patronage of parents with daughters to educate. As it combines the advantages of a Christian home with superior advantages of a sound education with careful training and discipline. This school is beautifully situated on Bloor St. West, one of the healthiest parts of the city.

SECURITY

Is a word with a fathomless depth of meaning; under its sheltering wing, capitalists of both mean and great proportions foster, extend and develop enterprises, and by its aid are enabled to influence and move to their own advantage the monetary markets of the world—thus very often by their abundant knowledge of financing and personal care and observation rising to the highest pinnacle of fame in the financial world.

Security is closely related to just law, so that the individual as well as the community at large is deeply indebted to it (comparatively speaking), by reason of the protection afforded from evils of many kinds.

Security is certainly something that makes safe and protects, and grants freedom from danger or risk. In every business department of life, shrewd men aim at security to the utmost, and in order to have their business on a secure basis will strive perseveringly and unceasingly until such end is attained.

Security in the matter of life insurance is essential, if you desire your dependents to reap the benefits of a policy of life insurance after you have crossed to the "great beyond." See to it, friend, if you have a policy of insurance on your life, that the company in which you are insured is secure in every particular. If you have not yet insured, or if you are contemplating insuring, it will be decidedly in your interests to investigate the unexcelled financial standing of the North American Life Assurance Company. Thus when you take out a policy, if it is taken in the North American, you will rest assured in the arms of security.

The North American has a larger ratio of assets to liabilities, and a larger net surplus to liabilities, than any other Canadian company.

For pamphlets explanatory of its attractive plans of insurance and copies of its last annual report, showing the excellent position to which the Company has attained, address Wm. McCaule, Managing Director, Toronto.

"Plain but athletic" (After sketch in New York Truth.) Evidently the picture of a woman cleaning house for the first time

with Pearline. She finds that what has always been the hardest kind of hard work is now comparatively easy, and in her enthusiasm and high spirits, she kicks up her heels. Probably an extreme case. Still, it may be there are numbers of women who, when they clean house first with Pearline, manifest their pleasure in the same way.

Millions use Pearline
