 —is the motto of the Firm.—**

The firm a month or two ago secured an order from the Maritime Coal, Railway & Power Co., Ltd., 200 pit tubs. So highly satisfactory was the work that the first order was, after receipt of the tubs, duplicated.

JEFFREY PROPELLER FAN for MINE VENTILATION.

This Fan is highly recommended wherever the development does not justify the installation of our centrifugal fan.

It has no equal for boosting along feeble currents in large operations.

A DISTINCT IMPROVEMENT over The Ordinary Disc Fan.

It is self contained, simple in operation and embodies many new features which are described in our Bulletin 1b 2nd, mailed on request.
