

Mexico.—Santa Anna has been apprized by Senor Rota, Secretary of State, that a Council of War will be formed by which he is to be judged for the loss of the actions which he directed as the Commander-in-Chief.—There was some hope that a quorum of the Mexican Congress would assemble at Toluca, and that they would be found favourable to peace, if the United States' Government would consent to modify some of its late propositions.

GOLD PENS.—The first pen of the sort ever used was in 1838. The idea of the utility of gold for the purpose was conceived by the Rev. Mr. Cleveland. He communicated this idea to Mr. Brown, who improved on it, and immediately went into the business. He was followed by some half dozen others. Bagley is now the most extensive manufacturer of the article, and he employs in it a capital of \$80,000. His expenses are \$1000 per week. Platt & Brothers, in the early stage of the manufacture, made a contract with Brown & Bagley for all the pens they made, and thus had the monopoly of the market for three years. They sold to the amount of \$75,000 per annum of this article, nearly one-half of which was profit. Bagley then went on, and has made a rapid fortune. His pens rank the first in the market, although Brown's and the "Richelieu" pen, made by Watson & Co., are equally good. In the manufacture of pens, the gold is first rolled out in ribbons, and then cut with a die to the required shape; the points put on, and then ground down to the required nib. The points are iridium, a new metal formed with platinum. The points are all imported, generally without the ceremony of an introduction to the custom house, and cost from \$7 to \$55 per ounce. The pens and cases sell from \$10 to \$50 per dozen. The manufacture of the silver cases is a distinct business, and employs a large capital. It is not easy to make an estimate of the number of pens manufactured per annum, but it is not probably less than 1,000,000, of which Brown & Bagley make about one half. A person who had not thought of the subject, would scarcely suppose that eight hundred pounds weight of gold were used up every year in the manufacture of such a trifling article as pens—a business unknown ten years ago—yet such is the fact. The demand for the article is enormous, and it is now difficult to find a person who writes at all, unprovided with this most economical of all pens.—*Charleston Courier.*

RAID COMMUNICATIONS, FROM LEXINGTON, KENTUCKY.—Probably one of the most remarkable feats of newspaper enterprise, is the result of that which appears in this morning's Herald—the speech and resolutions of Mr. Clay, delivered at Lexington the day before yesterday. The distance is nearly one thousand miles—knowing the importance of Mr. Clay's opinions and movements in the popular contest now about to take place in this country, we made extraordinary arrangements last week to run an express exclusively for the Herald. We have, however, taken into the enterprise, since our arrangements were made, two of our contemporaries, who will also publish the same this morning.

About eleven or twelve o'clock, on the day before yesterday, the meeting was held at Lexington. Our reporters were there, and when the resolutions were read, and Mr. Clay had delivered his speech, an express started on horseback, running eighty-four miles, to Cincinnati. At Cincinnati the notes of our reporters were written out, and the whole was sent on through the electric telegraph, to this city, a distance of nearly a thousand miles. The speech and resolutions were received early yesterday morning, and, but for the intervention of Sunday, we should have been able to publish the whole Lexington proceedings in less than ten hours from their delivery in Kentucky.—*New York Herald.*

The resolutions referred to in the above contain a disclaimer of all desire for the annexation of the dismemberment of the Republic of Mexico—a wish simply for a just and proper adjustment of the limits of Texas—a disavowal of every wish to acquire any foreign territory for the purpose of propagating slavery, or of introducing slavery from the United States into any such foreign territory;—and a recommendation to the people of the United States, to hold meetings for the purpose of expressing their views, feelings and opinions on the subject.

NORTH WEST COAST OF AMERICA.—Mr. John Rae, an officer of the Hudson's Bay Company, has now completed the last remaining portion of the survey of the North West coast of this continent, having returned on the 6th of September to York Factory, Hudson's Bay, from an expedition on which he set out on the 5th July, 1846. The result of all the surveys which have been made by different explorers, is thus summed up in the *Montreal Herald*:

"The results of all these explorations and surveys, would appear to prove that—with the exception of Captain Ross's peninsula of Boothia Felix, which stretches as far North as seventy-four degrees of latitude—the Northern coast of America extends, from the Atlantic to the Pacific, in a line not varying much from the parallel of the seventieth degree of latitude; and that the existence of a naval passage, in the line of Captain Parry's first voyage, is all but demonstrated."

The Ship *Aeolus*, from Sligo, having brought into the harbour of St. John, N. B., 240 Emigrants in a most destitute and wretched condition, objection was raised by the authorities to their landing; but a compromise was effected, by which, upon the Captain's paying the sum of £250, he was permitted to set these unfortunate people on shore. The Common Council of the City of St. John passed a string of resolutions, in which they express their inability to provide shelter and support for the "mass of misery thus heartlessly thrown upon their shores;"—that they will endeavour to induce these people to return to Ireland, and that the Council will afford a free passage to as many as will accept of the same;—that they "deeply regret that one of Her Majesty's Ministers, the Right Honorable Lord Palmerston, either by himself or his authorized agent, should have exposed such a numerous and distressed portion of his tenantry to the severity and privations of a New-Brunswick Winter, unprovided, as they are, with the common means of support, with broken down constitutions, and nearly all in almost a state of nudity;"—these resolutions, the Council direct to be published in the N. B. *Courier*, and also to be forwarded to His Excellency the Lieut. Governor, praying for their transmission to Her Majesty's Government.

It has been reported that a number of passengers in a similar state of wretchedness, also from Lord Palmerston's estate, have come to this Province; we have been reluctant to believe that His Lordship, either himself or by his agent, could have been a party to such a transaction as the providing them with the means of landing here, at such a season of the year, and so unprovided with means of support during the inclemency of our winter. We therefore have published nothing on the subject, until we saw the above statement from a responsible body, expressly drawn up with a view to its teaching Lord Palmerston himself through an official

channel;—which we must hope will elicit an explanation removing from that nobleman the charge of heartlessness towards his tenantry, and injurious treatment of the colonists upon whom falls either the support of these importations of paupers, or the expense of their re-shipment for the country they come from.

ESCAPE OF CONVICTS.—Fourteen convicts arrived here a few days ago from Canada, under an escort of the 33rd Highlanders. They were confined in the strong room at the north east corner of the Citadel, and were to be transported to Bermuda. On Tuesday evening they wrenched a bar of iron from the window, and six of the thinnest made their escape by means of their blankets. The others were too fat to squeeze through, the space between the bars being barely nine inches, and very reluctantly were obliged to remain behind. It is thought the thin ones will not so easily slip through the fingers of the party in quest of them.—*Standard.*

ST. ANDREWS AND QUEBEC RAILWAY.—At a late meeting of the Directors of this Company, held at St. Andrews, it was resolved to let out by contract the first 5 miles of railway, from Light House Point to Chamcook, immediately, and to proceed with six miles more, as soon as the working survey is completed. An expenditure of ten thousand pounds will take place the coming winter. The formal ceremony of breaking ground will be deferred until next Spring, it being considered too late to make a favourable display this Autumn.—*New Brunswick Courier.*

PRINCE EDWARD ISLAND.—The public news from England tells us that Sir Donald Campbell, Baronet, of Donstallage—a cousin of Lady Huntley's—is appointed to relieve Sir Henry Vere Huntley in the Government of this Island.—*Examiner.*

THE MASTER AND SERVANT ACT.—At the last Session of the Provincial Parliament, a very important act was passed, to regulate the duties of Master and Servant, and for other purposes therein mentioned. It provides as follows:

All agreements or bargains between masters and servants or labourers, whether verbal or written, shall, upon due proof, be binding. A verbal agreement, however, is not to exceed one year. Any person who shall, during the period of an engagement, and after the commencement of an employment, refuse to go to work, or leave the employ of the party whom he engaged, to serve, or refuse to obey lawful commands, or neglect the service, or injure the property of such employer, also persons who shall conspire for the purpose of inducing any servant or labourer to break the wearing apparel of a servant or labourer in pledge for any expenses above £1 10s. No law under this act to exceed £5, and no imprisonment to exceed one month, nor be less than one day. Commitment to the jail to take place, if the penalty be not paid within the given time. In case of the punning away of the offender, he is liable to prosecution, conviction, and punishment, in any District in which he shall be found. Servants to have redress in cases of any misusage, refusal of the necessary provisions, cruelty, ill-treatment, or non-payment of wages. Appeal to the Quarter Sessions allowed; bodies of persons intended as well as individuals, and female servants meant as well as males. The *Prince Edward Gazette* repeats the following conviction under this act, at Galt, Canada West: A farmer near Galt was summoned by his servant for the payment of his wages. His master appeared to oppose the claim, and gave the following explanation, which was admitted by the servant: I engaged this man (said the Farmer) to work for me from May till the conclusion of the harvest. He continued with me until the second week of my harvesting, when he went to see some friends on Sunday. On Monday morning he did not come back, and my crops being ready for the sickle I went to Galt to obtain another man in his place, which I was only able to do by paying him two York shillings a day more than I had contracted to pay this man. I, therefore, received that I ought to deduct from him the wages I promised to pay the other man I hired in his place during harvest, when men were scarce and wages high, because I employed him at a time when wages were low and labour light, and he left my service at the very time I most wanted him, and when we were demanding the highest wages. Judge O'Reilly then decided, that the plaintiff in this case having left his employment before the expiration of the time agreed for, the whole of the difference paid by his master between the wages agreed upon to be paid him, and those paid to the person who occupied his place, should be deducted from the amount due and claimed by the plaintiff, and he further ordered that the servant should pay the whole cost of the suit.

NIAGARA FALLS' SUSPENSION BRIDGE.—The Companies engaged in this undertaking have lately been in session at the Falls. The work is to be constructed so as to admit the passage of railway trains; to cost \$100,000, and to be completed 1st May 1849; to be within sight of the cataract and whirlpool; suspended 200 feet above the surface of the Niagara river. The Northern Railroad will be put in a course of construction immediately, from Ogdensburg to Lake Champlain;—distance 117 miles. It is stated that ground has been broken at Ogdensburg.

THE STEAMER MAGNET.—We regret to learn that the steamer *Magnet* met with a casualty a short distance above the Beauharnois Canal, having struck a rock with such force that it pierced the bottom of the vessel. The *Magnet* was returning from a trip to Montreal. Her passengers came up by the mail steamer last evening.—*Kingston Chronicle 20th inst.*

The *Bytown Gazette*, of the 13th inst., says that on the Wednesday evening previous, between the hours of seven and eight o'clock, a person by the name of James Darcy, while passing down Rideau Street, was attacked by three ruffians in a most wanton and brutal manner. One of them struck him a violent blow with an axe, almost severing his leg below the knee, while another plunged a knife in his abdomen. They then made their escape, and the unfortunate man was carried to an adjoining house. Surgeon Barry, who was immediately in attendance, extracted from the wound in the abdomen the blade of the knife, which must have broken from the violence of the blow, and dressed his wounds. Doctor Barry entertains favourable hopes of his recovery.—*Idem Chron.*

DISSOLUTION OF P. P.—The rumours of a speedy dissolution of the Provincial Parliament have turned out unfounded. A further prorogation appeared in the last official Gazette. Reports having been circulated that a dissolution had been decided upon, not by the Council, but by Lord Elgin for them, and that in consequence of communications from home,

Mr. G. Durgan jr. applied to the Attorney General West for information on the subject, by whom the following answer was returned, dated Montreal 17th instant:

"MY DEAR SIR,—I have just received your letter of this date, and am authorized to give a direct contradiction to both the assertions or assumptions referred to in it.

His Excellency the Governor General has received no such communication from Her Majesty's Government, and has expressed no such desire. And I am further permitted to add, that should His Excellency decide on dissolving the present Parliament, it will be at the suggestion, and on the advice, of his Council alone. Yours, faithfully,

"HENRY SHERWOOD."

MONTREAL AND LACHINE RAILWAY recently opened.—The Railway is free from deep cuttings, only one mile and a half being excavated, and that but to a very trifling depth. The culverts, though pretty numerous, the road being carried along a natural level, insufficiently drained, and through which brooks wind in every direction, are not large or costly, the largest being twelve feet span, and the smallest three. This useful undertaking has been completed under the Presidency of the Hon. J. Ferrier; the principal engineer being J. C. Ruggles, Esq., the superintendent of locomotive power Alexander Millar, Esq., and the general duties of Secretary to the company actively and efficiently discharged by our well known and respected townsman F. Macculloch, Esq.—*Montreal Gazette.*

APPOINTMENTS BY HIS EXCELLENCY THE GOVERNOR GENERAL.—To be Barristers, Advocates, Attorneys, Solicitors, and Proctors in Lower Canada: WILLIAM H. KERR, Esq., BERNARD DAVIES, Esq., ROBERT BERNARD, Esq.

MAYOR OF MONTREAL.—Joseph Bourret, Esq., has been elected Mayor of the City of Montreal, vacant by the death of J. E. Mills, Esq. 10 votes to 9; the candidate voting for himself.

The departure of the mail for England was postponed, in consequence of the heavy rain, from Tuesday to Wednesday, unpaid letters to be received as late as 9 in the morning; on the arrival of the English mail yesterday, the time was further extended till 1 o'clock, so as to enable those who received letters to answer them by that mail. It appears that a private express to reach the English mail steamer at Halifax, will be dispatched from Montreal next Saturday. Newspapers, letters, and packages may be left at Mr. Mackay's Book Store, No. 12, St. Francois Xavier Street, until 11 o'clock of the above day. The charge is stated at 6d. per letter; newspapers, one penny; packages in proportion.

The weather seemed to promise a continuance of sufficient cold to preserve the winter-winds which had been from us, until Tuesday, when a thaw came on, which, in the afternoon increased to rain, and yesterday reduced the streets to a state in which mud-boots are the only effectual protection. In the evening, a dense fog increased the difficulty of locomotion. It was scarcely possible to see the distance of one's eyes to one's feet so as to discover what was a plank and what a pond. It is mild and sultry to-day.

SUFFERERS BY THE GREAT FIRES.—The Commissioners of Loans have advertised that after the 23d inst. they will be ready to grant certificates to those sufferers whose applications for loans have been approved, to enable them to receive Debentures for a portion of the sum to which they will ultimately be entitled.

The Committee which has been formed for the purpose of assisting the sufferers, in negotiating these Debentures, are receiving applications, and they advertise by their Secretary, Mr. Richardson, that they will very soon be ready to effect sales of a certain portion of the same.

QUEBEC MECHANICS' INSTITUTE.—Office-bearers elected.—Reverend D. Marsh, President; W. Patterson, Thomas Gaver, R. C. Gezie, W. Mc-Master and James Hossack, Vice-Presidents;—Edwin Hill, Treasurer;—D. Bews and J. Bailly, Librarians;—C. R. O'Connor, Recording Secretary; James McKay, Corresponding Secretary.—The Committee of Management consists of 21 members. Typists.—We regret to learn that another medical man, Dr. Hamilton, of Toronto, has fallen a prey to the prevailing disease. He died on the 15th instant.

Dr. Painclaud sent, visiting Physician at the Quebec Marine and Emigrant Hospital, and Dr. Jackson, likewise of this city, are now ill of the same disease.

SUFFERING NEWS.—Arrived. Brig *Sampson*, Thos. J. Halifax, H. J. Noad & Co., comm. sugar, &c.

In all probability the port will be cleared of square-rigged vessels by the first favourable wind that may arise to aid their progress.

DEATHS.—On the 16th instant, the lady of LEONOR ROYER, Esquire, Deputy Assistant Commissary General, of a daughter.

On the 29th instant, the Lady of GEORGE BESWICK, Esq., of a son.

MARRIED.—On the 15th inst., at the Chapel of the Holy Trinity, by the Rev. E. W. Sewell, ARCHIBALD CAMPBELL, jr., Esquire, Advocate, to ISABELLA, eldest daughter of the late Mr. JOSEPH PRINCE, of this city.

DEPARTURE.—On Friday last, after a lingering illness, Mr. EDWARD MATHIAS, Cabinet Maker, aged 56 years, a native of Ballyshannon, Ireland.

On Thursday, the 18th instant, at Niagara, HENRY ELIZA, wife of the Rev. F. J. LEVY, and second daughter of the Hon. JONATHAN SEWELL, late Chief Justice of Lower Canada.

QUEBEC MARKETS.
