# DRIFT OF DOMESTIC TRADE.

Weekly Review of Montreal Markets.

Business has continued in a lifeless condi-tion. What with the holidays and the unseasonably wet weather nobody has been in the mood for business. There is a tendency to restrict production and curtail imports.

Everything looks stale and flat:

IRON AND HARDWARE.—The movement of

all descriptions of iron and hardware has been light, the trade very quiet, the demand slow, and prices nominally unchanged. Pig iron has presented an unchanged front, with transactions small and limited to car lots. Warrants are cabled at 42s 2d. London, Jan 7.—The Cabinet Council to-day decided to extend the Bechuanaland frontier to the Northeast and West to include \$20; Calder, Gartsherrie, and Summerlee, \$18.50 to 19.00; Dalmellington, \$17.50; and both lanks of the Fish river. Canada plates are in-active and nominal at \$2.90 to \$3.00 for Penn and equal.

LEATHER .- BOOTS AND SHOES .- The leather trade has not entered upon any new phase, the outlet afforded for stock of all kinds being varrow, but as the holidays are over it is expected that manufacturers will become freer buyers; accordingly the volume of business has been light. The assortment of stocks, while not great, is varied enough to suit all ate, the additions made are of no signifi cauce. Quebec dealers, who ceased exporting after the close of navigation, have resumed the movement in that direction, and during the past week a fair amount of black leather has gone forward. The small business heard of has been done on the basis of former prices. On the whole the feeling on the market is about steady. We quote:—Spanish sole B. A.
