OF THE WESTERN HEMISPHERE

FRESH FROM LIVING ELOWERS.

MURRAY & LANMAN'S FLORIDA WATER.

TEIS rare Perfume is prepared from tropical flowers of surpassing fragrance, without any admixture of or-surpassing translation which form the staple of many "Essences" and Extracts for the Toilet. Its aroma is almost inexhaustible, and as fresh and delicate as the breath of Living Flowers.

WHAT ARE ITS ANTECEDENTS?

For twenty years it has maintained its ascendancy over all other perfumes, throughout the West Indies, Ouba and South America, and we earnestly recommend it to the inhabitants of this country as an article which for softness and delicacy of flavor has no equal. During the warm summer months it is no squar. During the warm summer months it is peculiarly appreciated for its refreshing influence on the skin and used in the bath it gives buoyancy and strength to the exhausted body, which at those periods is particularly desirable.

HEADACHE AND FAINTNESS

Are certain to be removed by freely bathing the temples with it. As an odor for the handkerchief, it is as delicious as the Otto of Roses It lends freshness and transparency to the complexion, and removes RASHEE, TAN AND BLOTCHES

from the skin. COUNTERFEITS.

Beware of imitations Look for the name of MUR-RAY & LANMAN on the bottle, wrapper and ornamented label. Prepared only by

HOSTETTER'S

CELEBRATED

STOMACH BITTERS.

A pure and powerful Tonic, corrective and alterative, of wonderful efficacy to Disease of the STOMACH, LIVER AND BOWELS. PROTECTIVE PROPERTIES:

Prevents Fever and Ague, and Bilious Remittent Fever; fortifies the system against Missma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels; stendies the nerves, and tends to PROLONG LIFE.

REMEDIAL PROPERTIES: Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipution, Colic, Intermittent Fevers, Sea-Sickness, Cramps and Spasms, and all Complaints of either Sex, arising from Bodily Weakness, whether inherent in the system or produced by spe-

cial causes.

Nothing that is not wholesome, genial, and restozative in its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botabical element; no fiery excitant; but it is a combination of the extracts of rare balsamic berbs and plants with the purest and mildest of all diffusive stimulants.

Itels well to be forcarmed against disease, and, so far as the human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water, and other external causes, HOSTETTER'S BITTERS may be relied on

as a integuard In districts infested with Fever and Ague, it has been found infallible as a preventative and irresistable as a remedy. Thousands who resort to it under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, as cured by a very brief course of this marvellous medicine. Fever and Ague patients, after being plied with quinine for months in wain, until fairly saturated with that dangerous alkaloid, are not unfrequently restored to bealth within a few days by the use of HOSTET-TER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dyspersia and in less confirmed forms of Indicestion. Acting as a gentle and painless agerient, as well as upon the liver, it also invariably relieves the Constitution superinduced by irregular action of the digestive and secrelive organs.

Persons of feeble habit, liable to Nervous Atlacks, Lownest of Spirit, and Fits of Languer, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both

The agony of Billious Colic is immediately as suaged by a single dose of the stimulant, and by occasionally reserting to it, the return of the complaint may be prevented.

For Sea-Sickness it is a positive specific - either removing the contents of the stomach, and with them the terrible nausen, or relieving the internal irritation by which the disposition to vomit is occasioned. As a General Tonic, MOSTETTER'S BITTERS

produce effects which much be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakings, Premature Decay, and Debility and Decrepitude arising from One Ace, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re enforce and re-establish them.

Last, but not least, it is The Only Sufe Stimulant being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and sto-

machies of the day.

The fact is well known to physicians that the basis of all the medicinal stimulants of the pharmacopoia is fiery and unpurified alcohol, an article which un medication can deprive of its pernicious properties. The liquors of commerce are still worse. They are all adulterated. Hence the faculty, while universally admitting the necessity for diffusive tonics, besitate to employ those in common use lest the remedy should prove deadlier than the disease.

Prepared by HOSTETTER & SMITH, Pittsburgh, Pa., U.S., and Sold by all Druggists. Agents for Montreal—Devius & Bolton, Lamplough & Campbell, K. Oampbell & Co., J. Gardner, J. A. Harte, A. G. Davidson, and H. R. Grav.

THE peculiar taim or infection which we eall Scrofula lurks in the constitutions of multitudes of men. A: either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes in-AVERS competent to sustain leaves the system to fall into disorder and decay. The scrofulous

recontamination is variously caused by mercurial disease, low living, disordered digestion from enhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, is is hereditary in the constitution, descending Grom parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniqui-ties of the futhers upon their children." The diseases which it originates take various names, necording to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints; on the skin, eruptive and entancous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you can-not have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the That it is far superior to disorders it entails. any other remedy yet devised, is known by all who have given it a trial. That it does comhine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, S Syphilitic Infections, Mercurial Diseases. Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minuto reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all seccions of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its futal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of ATER'S SARSAPARILLA, although it is com-posed of ingredients, some of which exceed the hest of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital func-tions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
