RUSSIA.

During the last three months much has been done not only in strengthening Cronstadt, but also in fortifying the entrances to the Neva, in building gunboats, batteries, &c.

Cronstadt is being strengthened under the superintendence of General Todleben and General Zarera, by placing the old forts in a better state of defence, and at many points covering up the masonry by earthworks. On the main island of Cronstadt, seaward, large earthworks are being thrown up, some of which are nearly finished. From the sea they not only enfilade the channel, but some of them, being connected by parallels one with another, will be able to hold guns to take in reverse any ships which may run the ganutlet of their fire and that of the forts. The authorities have supposed a possibility of some hostile fleet passing the outer forts and earthworks They are therefore preparing to lay 300 infernal machines in the channel, each of which will contain 701b. of powder, and explode by a slight touch from a vessel passing over.

#### TURKEY.

CONSTANTINOPLE, Nov. 13.—The Porte has addressed a note to the Cabinet of St. Petersburg, protesting against the armaments on the frontier and the building of gunboats on the Black Sea, in violation of the treaty of Paris. The Turkish arsenals and navy yards are working day and night in order to picet eventualities.

JAPAN.

The past fortnight has showed a singustion in political events. In Japan, no active hostilities have taken place since the attack upon the town and fort of Kagosima by Admiral Ruper, on the 15th ultimo, when the number reported as killed and wounded on our side was sixty three. Notwithstanding the dif-ferent demonstrations made at Shimonosaki, which is the Gibraltar of the Inland Sea, that purrage is now virtually closed to merchant vessels, after having been open and in use for three or four years. The prince who made a mischierous use of his batteries on the north side has, it seems, also seized the southern shore with its forts, and the passage, in such hands, is considered so unsafe for foreign commerce that insurance offices will not any longer accept risks on ships going that way. The Inland Sea has therefore been most effectually closed to us by the action of another native prince. All this goes to show that the empire is not likely to be reduced to the adoption of amicable relations by means of any such expeditions as we have been in the habit of sending to numerous other parts of Asia. The suspicion which arose about the time of the marder on the Tokaido that the Japanese were cowards has lately begun to be dispelled. in another column will be found a notice of a case where one Japanese attacked three mounted foreigners, he bimself being on foot. Two of them swore to having been very closely pressed by the assailant, so much so indeed that they drew pistols and fired. Luckily enough the courageous native escaped with a ball through his right arm. Consul Winchester exonerated the three mounted foreigners, however. The case is just another example of swaggering Englishmen getting reflections cast upon the whole foreign community. - Hong Kong Mail.

How to TREAT CHILDREN. - Pity and love the little children. Tolerate their pets. Comfort Nellie over her dead bird, and don't call Molly's little white kitty a cat. It is enough to break a juvenile heart to have one's durlings snubbed. How would you like to hear your own Frederick Augustus called a dirt 3 young one? The little ones have ther tragedies and comedies, and laugh and weep more cincerely than you do at Falstaff or Lear. They love, marry; keep bouse, have children, have weddings and funerals, and dig little graves for dead mice in the garden, and mourn into small white handkerchiefs, and get erother Jim to write an appropriate inscription for is they head board. Is not this human nature in little, and in its small way, as deserving a certain respect? You do not despise your own reflection in a concave mirror, you know. Cherish the children; mend the frocks; don't scold them for broken toys - for man is no more inevitably mortal than playthings. Don't strip their fat shoulders in winter, nor roast them in flannels in dog days, because somebody told you to do so. Don't drug them ; don't varo them; don't stuff them with pastry, or starve them on chippy bread; don't send them to iniant schools at three, or to fancy balls at ten, nor teach them the commandments earlier than they can remember Mother Goose.

TER SOLDINE'S SAFEGUARD.—This is the title bestowed upon HOSTETTER'S STOMACH BITTERS by an officer of the United States Army, writing from the Valley of Virginia. He says in a letter to the proprietors, Messrs. Hostetter & Smith: 'In every instance where your Bitters have been taken regularly and systematically, as a protective against the bilious epidemics so common and so destructive here, they have answered the desired end, and you may claim for your celebrated Tonic and Preventive | MOST DANGEROUS AND CONFIRMED CASES the designation of the Soldier's Safeguard! Whereever it has been tried in the army the result has been the same. The soldiers themselves are clamorous to have it substituted for the pernicious liquors now used as stimulants in the military hospitals. Its well known basis, Spirits of Rye, the purest stimu-lant, in the opinion of chemists, that can be produced from any substance by any process, and this matchiess invigorant is medicated with a combination of the finest tonic, anti-bilious and corrective herbs, barks, gums, roots, &c., known to modern pharmacy. Hence HOSTETTER'S STOYACH BIT-TERS—the best and only preventive in mainrious diseases and the most powerful of all recuperants in cases of debility and utter physical prostrationshould be in every army hospital and convalescent camp, and should form a portion of the medicine stores of every regiment in the field. Given promptly to the wounded, it would save the lives of thousands who must otherwise die of exhaustion

THE QUESTION ANSWERED. - Somebody - a woman, of course-inquires why, when Eve was manufactured from a spare-rib, a servant wasn't made to wait on her? Somebody else-s woman, we imagine-re-Plies in the following strain: Because Adam never came whining to Eve with a ragged stocking to be darned, a collar string to be sewed on, or a glove to mend "right away, quick now!" SCROFULA AND SCROFULOUS DISEASES.

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your Sarsaparalla, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community." Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Roll. Stratton, Bristol, England.
"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSATARILLA. My daughter, aged ten, had an afflicting humor in her care, eyes, and hair for years, which we were unable to cure until we tried your SARSATARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and muchesteemed lady of Denniseille, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous emption, which was very troublesome. Nothing afforded any relief until we tried your Sansaparallla, which soon completely cured her."

From Charles P. Gage, Esg., of the widely-known firm of Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost everything a man could of both advice and medicine, but without any relief whatever, until I took your Sarsaparallla. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anybody's, and I am without any symptoms of the disease that I know of. I cujoy perfect health, and without a doubt owe it to your Sarsaparallla."

From J. E. Johnston, Esq., Wakeman, Ohio.

For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars' worth of medicines. The alcers were so had that the cords became visible, and the doctors decided that my arm must be amputed. I began taking your Sarsaranilla. Took two bottles, and some of your Pills. Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tanckhannoch Democrat, Fennsylvenia.

Our only child, about three years of use, was attacked by simples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. Askilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hunds, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we hegan giving your SARSAPARLLA, and applying the foldide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die." Scald Head, Sore Eyes.

Reading. Pa., 6th May, 1861. J. C. Aver. M. D. Dear Sir I have a long time been afflicted with an eruption which covered my whole body, and suffered dreadfully with it. I tried the best medical advice in our city without any relief, indeed, my disease grew worse in spite of all they could do for me. I was finally advised by one of our leading citizens to try your Sausa-PARILLA, and after taking half a bottle only, I found that it had reached my complaint, and my health improved surprisingly. One single bottle completely cured me, and I am now as free from the complaint as any man in the world. Publish this, and let the af flicted know what you have done for me, and what may be done for their relief. Yours, with great respect and gratitude.

It has not failed to come upon her in cold weather, nor has any remedial aid been able to hasten its departure before spring, or at all alleviate her sufferings from it. This season it began in October with its usual violence, and by the advice of my physician I gave her your Sarsaparith. In a week it had brought the humor out upon her skin worse than I had ever seen it before; but it soon began to disappear.
