## Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of Scrofula, where the system seemed utterly given up to corruption, have been radically cured in sech numerons instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfolt tonaut of the organism undermines the constitution, and invites the attack of embedding or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly developinto one or other, of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the Sarsaparilla as a preventive, advisable.

It is a mistake to suppose that so long as no eruptions or humors appear, there must be no scrofulous taint. These forms of derangement may never occur, and yet the vital forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly hereditary. It does, indeed, descend from parent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul air, licentious habits, uncleanliness, and the depressing vices generally, produce it. Weakly constitutions, where not fortified by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose turbid blood swells the velus with an apparently capture of the contaminated, and on the road to its consequences. Indeed, no class or condition can depend on immunity from it, nor feel insensible to the importance of an effectual remedy.

In St. Anthony's Fire, Rose or Erysipelas, f

it, nor feel insonsible to the importance of an effectual remedy.

In St. Anthony's Fire, Rose or Erysipelas, for Tetter, Salt Rheum. Scalt Head, Ringworm, Sore Ears and Eyes, and other eruptive or visible forms of the disenses caused primarily by the scrofulous infection, the Sarsaparilla is so efficient as to be indispensable. And in the more concealed forms, as in Dyspepsia, Dropsy. Heart Disease, Fits, Epilepsy, Neuralgia, and other affections of the miscular and nervous systems, the Sarsaparilla, through its purifying power, removes the cause of the disorder and produces astonishing curres.

Sarsaparilla. through its purifying power, removes the cause of the disorder and produces astonishing cures.

The sarsaparilla root of the tropics does not by itself achieve these results. It is sided by the extracts combined with it, of still greater power. So potent is this union of healing virtues, Syphtlis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. Leucorrhea or Whites, Uterlie Utecrations, and Fomale Diseases in general, are comnonly soon relieved and ultimately oured by the invigorating and purifying effect of our Sarsaparilla. Rhoumatism and Gout, often dependent on the accumulations of extranous matters in the blood, have their remedy also in this medicine. For Liver Complaints, torpidity, inflammation, abcess, etc., caused by ranking poisons in the blood, we unhesitatingly recommend the Sarsaparilla.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative power is soon felt by those who are Lanquid, Lisitess, Despondent, Sleepless, and filled with Nervous Apprehensions or Fears, or who are troubled with any other of those affections symptomatic of weakness. Many, after taking it for General Debility, have written us of the youthful vigor imparted to their nervous system, which seemed buoyant with that prolife life they thought had departed on the advance of age. Others, whose fountains of life were always sterile, acknowledge their obligations to it for an obvious change.

# Ayer's Ague Cure,

For Fover and Artic, Intermittent Fover, Chill For Committent Fever, Dumb Ague, Alical or Diliout Fever, &c., and all the affections which arise from malarious, marsh, or minimate poisons.

Marsh, or minsmatic poisons.

As its name implies, it does Curc, and does not fall. Containing neither Arsenio, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling through minsmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

Propared by De. J. C. Ayer & Co., Practices and Analytical Chemists, Lowel, Mass., and sold all round the world.

Gentlemen- . I want to say a little more bout the Pain Killer. I consider it a very valuable Medicine, and always keep it on hand. I have travelled a good deal since I have been in Kansas, and never without taking it with me. · · I regret to say to say that the Cholera

has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fata cases each day have been reported. I should add the the Pain Killer sent recently from the Mission House has been used with considerable success during this epidemic.
