CITY HALL SQUARE FOULD'S BLOCK, WINNIPEG.

but this is the general outcome, nor do the exceptions count for much, for no success in this world can compensate for the loss of one's self-respect.

No young man should aim of that word. His ambition should be to gain knowledge success, he will be a king among men in his own dominion, whether it be large or small.-CATHOLIC COLUMBIAN.

CITY AND ELSEWHERE

(Continued)

The shameless lies with which La Patrie in Montreal and The Tribune, its servile echo here, attempt to minimize our valiant Archbishop's organization of Manitoba's Catholic Shools, will be scathingly exposed by our Editor-in-chief in "Le Manitoba" to-morrow.

Agents have been appointed to superintend the working of the alien labor law at various points throughout Manitoba and the north west. It will be interesting to observe with what taste our American cousins will swallow the medicine they have so long been meting out to Canadians.

Harvest is now in full swing and an immense crop will soon be ready for shipment. Most of the wheat this year will surely grade No.1 hard and with the good prices which will in all probability prevail good times are in store for and E. La Fleche, of St. Anne de la Perthe farmers and consequently for the general business interests of the country.

We have received the first two numbers of "The Assiniboian" (New Series), edited and published at Saltcoats by Edwards and Dermody. We congratulate our friend, Mr. E. J. Dermody, who at one time was manager of the Northwest REVIEW, upon the fine appearance of his new paper. Both the editorial and news departments are very creditable. There is real humor in the first local item : "The eclipse took place here on Monday last when The Assiniboian came out."

The Red River claimed another victim on Wednesday in the person of out with them have found locations and the young Laurie Turner, the eighteen Year old son of Mr. J. Turner, of the Manitoba Plumbing Co. The unfortunate lad, who was lately attending St. Mary's school, was bathing a few hundred yards south of Norwood Bridge. He could not swim and it is supposed the current carried him off his feet and as there was no one around at the time to render him any assistance he was drowned. The Review extends to the bereaved parents its heartfelt sympathy in their affliction.

The Farm laborers' excursion leaves Toronto for Winnipeg to-day and it is expected that fully three thousand men will take advantage of the low rates to visit the Prairie Province and assist in garnering the crop. They are rather late in coming as in some parts of the Province a great deal of wheat has already been cut and farmers have been greatly hampered by their unability to get the required assistance. On the 30th there since then in the entire district. The

pleased with what they see here that they purchase land before they return.

Rev. Father DeCorby, O. M. I., the venerable missionary stationed at Fort Pelley, while here last week selected a OUR STOCK IS NOW location for an Industrial school across to be cunning—in the bad sense the lake. The R. C. Diocese erect and furnish the building, which will accommodate from 20 to 25 pupils. The Doand skill while retaining his minion Government give a grant of \$72 honor and manliness. Then, per capita yearly, for the education of Whatever may be his measure of each pupil. The last school erected by the diocese was at Touchwood Hills. which cost \$8,000. Before returning to the mission Father DeCorby paid a visit to the Galician colony .- Assinibolan.

A New Honor for Sir Wilfrid.

The Premier of Canada certainly "bears his honors thick upon him" whether "blushing" or not,-Knighthood, Privy Councillorship, doctorate of law from Oxford, Cobden Club gold medal. One might imagine this was quite sufficient, but Brother John Nicoll of Grenfell, Manitoba, is not of this opinion. Speaking at the annual apotheosis of the "pious, glorious and immortal" King William, Brother Nicoll gave energetic expression to the sentiment that Sir Wilred Laurier's policy in dealing with the Manitoba school question had rendered him worthy to sit in the Orange Grand Lodge wearing a Grand officer's sash. -DAVIDCREEDON IN THE CASKET.

FRENCH CANADIAN COLONIES. Father Brosseau Returns From the Saskatchewan Where He Will Locate Colonies,

Among the passengers from the west last Wednesday were Revs. Fr. Brosseau ade, Champlain Co., Quebec, who are just returning from a visit to Edmonton, Prince Albert, Langevin, Batoche Duck Lake, Qu'Appelle, and points in the west. At Q'Appelle they visited the Indian Industrial school.

Fr. Brossea i is sent by the government to look over the Saskatchewan country with a view of French Canadian colonization. Fr.LaFleche is accompanying his friend as tourist for pleasure. They spent a day or so here before continuing their journey east. On Wednesday they visited St. Charles.

They expressed themselves as highly pleased with the country they had traversed and a small party they brought are well satisfied. Fr. Brosseau intends arranging for a large movement westward from Quebec, as he expects many French Canadians to join the proposed colonies. Nor'WESTER.

THE NORTHERN DISTRICTS.

The Free Press advises Canadians to make themselves acquainted with the names and boundaries—which it opines are unknown to 99 out of every 100 pupils and 9 out of every 10 teachers of the Winnipeg schools-of the six Northern territories of the West of Canada. The names are: Ungava, Franklin, Keewatin' Arthabasca, Mackenzie, Yukon. Get a good map and look them up.

Yukon Mortality.

Frank Moss's report that two thousand miners had died in the Yukon gold fields is denied. F. G. Bower says that in the Klondyke, from 1893 to 1896 not one single miner died, and only three have died will be a harvest excursion which is generally patronized by some hundreds of Ontario formance assistance. On the South there burying ground of Forty Mile post, to which the dead miners of the whole country have been brought for many of Ontario farmers who are usually so years, contains only thirty or forty graves.

DRUGS

Is entirely a matter of confidence, as in no other business is sophistication easier; nor does any other avenue afford so ready a means of disposing of worthless articles. You can buy a pair of snoes for \$1 or \$10-it's entirely a matter of quality. There is as much difference in the quality of drugs as there is in shoes, except in purchasing one you can use your own judgment, in buying the other you are entirely dependent upon the honesty and judgment of the Druggist.

In one case it is only a matter of comfort and appearance, and in the other frequently of LIFE or DEATH.

You can always rely with the utmost confidence on the DRUGS and Medicines which you get at
