Of the total number of women university
students in Paris, 155 are on the list of the
medical faculty, 164 on the list of the faculty
of letters, 7 in the department of science
and 3 in that of law. Of the 155 medical
students, however, only 16 are French-
women, while of the 164 students under
the faculty of letters, 141 are of French
birth.

A German has invented a means of
making artificial whalebone. The material
is leather soaked for two or three days in
sulphate of potassium, and then stretched
on a frame, slowly dried, and exposed to a
high temperature. It is afterwards put
under heavy pressure, when it becomes hard
and elastic.—*New York Post.*

Toronto, 28th November, 1893

Dear Sirs,—

It is with much satisfaction that I
learn that you have decided to establish a
branch office in Toronto, believing as I do,
that the more widely your Acid Cure is
made known, the greater will be the grati-
tude accorded to you for the relief experi-
enced by many sufferers in Canada. We have
used your acid for over eighteen years, and
are now prepared to state that it is worthy
of a place in every family. We have found
it thoroughly safe and effective and have
commended it to many—for which we have
been thanked. We wish you success in
your new quarters, as we feel sure your
success will bring relief here as it has al-
ready done to large numbers in the old land
and other countries. Much will depend on
the patient and persevering use of the Acid
as set forth in your little book.

ALEX. GILRAY, 91 Bellevue Avenue.
COUTTS & SONS.

In course of transit between New York
and New Orleans a packet of paper money
had been opened and its contents consider-
ably reduced. Two of the seals had been
broken and one had been resealed by thumb
pressure. Mr. Carvalho, an expert in mat-
ters of identification, endeavored to find out
the thief, and with this view obtained wax
impressions of the thumbs of all the officials
of the express company through whose
hands, the packet was known to have pass-
ed. The impressions were photographed
and enlarged, and one of them clearly
agreed with an enlarged photograph of the
thumb-impressed seal. The thief was thus
detected.—*Scientific American.*

Minard's Liniment Cures LaGrippe.

A Tonic

For Brain-Workers, the Weak and De-
bilitated.

Horsford's Acid Phosphate

is without exception, the Best
Remedy for relieving Mental and
Nervous Exhaustion; and where
the system has become debilitated
by disease, it acts as a general
tonic and vitalizer, affording sus-
tenance to both brain and body.

Dr. E. Cornell Esten, Philadelphia,
Pa., says: "I have met with the greatest
and most satisfactory results in dyspepsia
and general derangement of the cerebral
and nervous systems, causing debility and
exhaustion."

Descriptive pamphlet free.

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

sell your goods in the West, advertise in the
Vancouver "NEWS-ADVERTISER."

The Bell Telephone Company,

Walkerton Agency, May 15th, '94.

Dear Sirs,—I sold your Acid Cure for
20 years, and during that time I never
heard of a case that was not relieved and
cured by its use. I have recommended it in
bad cases of Eczema, Ring-worm, and never
knew it to fail (when properly used) to
effect a cure.

Yours truly, W. A. GREEN.

COUTTS & SONS.
