

A1.2 Additional Guidance from Work Group 3A

Each Work Group will be responsible individually for the following:

- a. Developing data needs and analysis methods for their Work Group and identifying required inputs from other Work Groups.
- b. The technical review (including peer review as necessary) of their work products.
- c. Coordination with their counterparts from the other country in conducting full cooperative analyses in order to fulfill the Terms of Reference.
- d. Being prepared to draft language for that portion of the agreement that pertains to their tasks as directed by the Coordinating Committee.
