National Floral, a Canadian company founded in 1940, manufactures memorial and Christmas wreaths. We offer a wide variety of colourful and quality arrangements. All orders are customized with the care that you alone deserve.

Beginning in 1988, National Floral will be the only company in Canada producing an innovative line of hand-crafted straw and vine wreaths on a full time basis. Diversification has always been at the top of our list of objectives. It ensures that we will have the capacity to service your specific requirements.

A dedicated staff, reliable order filling system and our guarantee of quality at reasonable prices are but a few of the factors that keep National Floral in a position of leadership.

*Wreaths for all occasions are available in a comprehensive range of materials, designs and colours.*

For almost 40 years, the Normandy name has stood for the manufacturing of sought-after emblematic and fraternal items, as well as for a quality line of keyholders and souvenir giftware including spoons and appealing novelty items. We maintain a distribution point in the United States. The result is an ability to supply the entire North American market efficiently and reliably.

By 1976, the Normandy line had begun to achieve a significant market share in the advertising specialty business. As a leading supplier to the Canadian and American distributor trade, Normandy is committed to refining its line constantly in order to maximize the benefits to our customers in this highly competitive market.

At Normandy we specialize in, and welcome, custom work.

A progressive company, North Columbia Trading was formed in 1978 and is totally involved in manufacturing wooden giftware items from pine.

Our extremely high quality wooden giftwares are graphically and functionally integrated into a high volume line known as "Functional Decor". Products are packaged for individual markets. They include accessories for bathrooms, kitchens, bars and gamerooms, as well as men's gifts and country home furnishings.

North Columbia's 20,000 square foot production facility, serviced by rail and truck lines, is located strategically near its main raw material, Western white pine.

Export sales to the United States and Japan are proving particularly successful. Our competitive price point, Canadian craftsmanship and innovative designs have made our lines attractive to a wide range of consumers throughout the world. Constant product development to meet market trends and demands is an ongoing process at North Columbia Trading.

*Warmth and beauty are assured with wooden products for a full range of decorative home uses.*
