

F. P. Keppel, Esq.

The time is now ripe for the development of these projects, and the need never was greater than it is today. May I add my own personal strong recommendation that this application be given your sympathetic consideration and my assurance that the allocation of available funds for this purpose would have a timely and enduring effect upon the development of libraries throughout the Dominion of Canada.

With kindest personal regards,

I am,

Faithfully yours,

L/P

Director.
