Solicitor, JOHN C. HALLIBURTON, Esq.

Physician, W. J. ALMON, Esq, M. D.

Bankers, The BANK of B. N. AMERICA.

Manager, P. C. HILL, Esq.

This Society offers the following advantages to parties insuring:—

The Premiums are as low as in any office of equal respectability.

Premiums may be paid yearly, half yearly, or quarterly.

But half the premium for the first five years need be paid in cash, the party's own note being taken for the other half.

The Local Board accept proposals for Assurance and grant Policies at once, without referring to London.

No Charge is made for Medical Certificate, or if wished, for stamp duty. The bonus or share of Profits appropriated to the policy holder in this office, is declared *annually*, so that the assured does not lose the benefit of any portion of the time he has been paying his Premiums, as he would do if he were insured in an office declaring a bonus every 5 or 7 years, and he should die at any time before the period of 5 or 7 years expired. In this office no such risk is run, the policy every year receiving its share of the profits.

The distinctive feature of this Society is the "*Loan Department*," by which a policy holder is entitled to borrow a sum in cash equal in amount to two thirds of his payments. The loan is not for a temporary period, but may remain until his policy becomes a claim, if the interest is regularly paid.

Blank forms of proposal and every information may be had on application at the Society's office, 12, Prince St., Halifax.

P. C. HILL, *Manager.*
