ME TABLE

Has Entirely Severed His Connection With Montreal Shoe Factory and May Live in Boston.

MONTREAL, Jan. 14.-Mr. Charles MONTREAL, Jad. 14. Mr. Charles
E. Slater, for many years president and general manager
of the Slater Shoe Co., Limited, has
entirely severed his connection with
the factory on Latour street, with
which he has been identified for over

thirty-five years.

During that period the business has The Slater Shoe Co. is one of the ploneer industries of Canada. The business was started in 1869 by his fathers, the late George T. Slater, who will be remembered by many Canadidate, although it is about twenty-five years since he safely working up to the road, and gradually working up to the road, and gradually working up to the

NK RAILWAY SYSTEM d Return prontoa1. 18, 1913

TAKE NOTICE that the Council of the Municipal Corporation of the City of Toronto intends to extend Teraulay street; from College street to Greenville street; the widening in part of St. Vincent street; the widening in part of the cost upon the land aburity on the work, and upon certain other lands hereinafter mentioned, which will be immediately benefited by such extensions. The estimated cost of the will be immediately benefited by such extensions. The estimated cost of the will be immediately benefited by such extensions. The estimated cost of the will be immediately benefited by such extensions. The estimated cost of the will be immediately benefited by such extensions. The estimated cost of the will be immediately benefited by such extensions. The estimated cost of the will be immediately benefited by such extensions. The estimated cost of the will be immediately benefited by such extensions. The estimated cost of the will be immediately benefited by such extensions. The

I am now, as always, a firm believer I am now, as always, a firm believer in intelligent advertising, and have seen some remarkable results from properly planned campaigns. There is scarcely a day that we do not have one or more applications for Slater agencies in remote villages, where the consumer demand for the Slater shoe has made itself felt.

"So strong is this demand, even in remote districts, that Slater agencies for good-size towns are frequently completed by correspondence and

for good-size towns are frequently completed by correspondence and rigid agency contracts signed by dealers involving opening stocks of a thousand dollars or more, without even submitting samples."

This Slater ready made order sys-This Stater ready-made order sys-

This Slater ready-made order system is unique in the trade and it is one of the many strong selling methods introduced in the business by Mr. Slater. It is doubtful if any shoe factory in America has had the experience of selling substantial orders to dealers without personal solicitation or submitting of samples.

Mr. Slater confesses to no special plans for the future, but it is not likely that he will long remain inactive. ly that he will long remain inactive, as notwithstanding his many years of commercial life, he is still a young man, having just passed his 50th year. From intimate sources it is understood that while he has had flattering offers nain in Canada, he may make his to remain in Canada, in Boston, where, with the opportunities of the much larger field, he will have greater scope te carry out certain projects which he has had in mind for some time, possibly either the distribution of Slater shoes in the United States and for-eign countries, or the introducing of American and foreign shoes in the

Canadian market. LONDON DERELICTS

London has undertaken to clear the metropolitan area of the walfs and derelicts, tramps, wanderers, broken and unemployed men and beggars, who have made some of its streets pictures of destitution at night. The embankment is the first section to be cleaned up. There is to be no more sleeping on the benches there. When a constable finds a tramp or homeless man, the man will be shunted into an office to be opened by the Metropolitan Asylums Board. He will be given a ticket to a lodging house or shelter, and he will spend the next day "is some healthy occupation to pay for his board and lodging." Gradually the scope of the order will be widened, until all the metropolitan district is included. What London is about to undertake, it seems, is the care of its unemployed after a fashion. All a man has to do is to go to sleep on a bench on the embankment and he gets employment for one day at least.—Chicago Tribune.

The question as to whether naphthalena is to be recommended as an insecticide, is discussed by the French scientists, Lecaillon and Audige. This substance is commonly sold in the shape of small balls and is used in households, are shally for preserving households, especially for preserving funs or various fabrics, but it appears that after being a favorite its use is faling off. They find that the toxic effect only takes place in a confined atmosphere and its action is slow.

Furs or garments should be thus preserved in as tight receptacles as possible. It can also be used in horticulture in greenhouses for protecting appears to have no effect upon earthAll Western lands will sooner or later increase enorme value, but, the investor wants something that will show a profit

in a reasonable time.

OFFICIAL G. T. P. RAILWAY TOWN is one of the really brilliant examples of land investments with a sure turnover at an excellent profit in a short time. It is in the center of the world's most prolific wheat lands, thickly settled, and requiring only the completion of the railroad to Calgary so that the produce can reach the nearest market. The railroad will be completed in a short time, and that will cause an influx of settlers. The town that is for sale is so small that even a small increase in population will cause a

raise in value for the property. Lots are very low in price, and even their value today is higher than what we are asking.

Miss Neufeldt Thinks Many Public Attractions Tend to Evil-Work in Earlscourt Church.

Meeting of the Fred Victor Mission Social Club, held last night at the mission, Miss Neufeldt, of the Central Neighborhood House, gave an address upon "Public Recreation," and Rev. Mr. Bryce of Earlscourt spoke upon "The Institutional Church."

Miss Neufeldt spoke under the heads of commercial recreation and spontaneous recreation. Commercial recreation is that found in theatree, moving picture shows, dance halls, etc. She acknowledged that much of these were good in themselves, but deplored the fact, that in many cases they tended to evil. Spontaneous recreation such as is to be obtained in the home, at social dances and parties, in public parise, etc., Spealed to the speaker as the ideal. She expressed herself as being in favor of the formation of a municipal recreation commission.

Mr. Bryce spoke about his work at the Institutional Church in Earlse court. They have 600 cultaren enrolled in their cradle roll, and have a consider a report from the formation of a municipal recreation commission.
