stocks to-day, but it is not believed that it was effective in dislodigin many holdings. Foster was the centre of attack during the morning trading, the price of sing opened up at the lowest point of the day 132. The brying was satisfyedly good however, to take the offernors and from that on till the close, stock was picked up as it presented itself. The prices of List issue and several others are in the hands of the traders for the present, and these hild it easier to depress quotations after rallies than to advance prices on reactions. Silver Queen was also forced down in the late trading to-day, and the rumor in consection with this was that the laside shad loft control of the property and were foreing prices down to accumulate stock. Nipssing was in good demand, both at the keal maikets and at New York and the quofaticies for this stock were declicity fin. Nova Scotia came in for a good deal more of attention, the buying being due to the vicepment. Trethewey and Green Mehan were weak, with the general market. Af the close of the market offerings dried in adjustations assumed a much firmer tone.

### Of Interest to Miners and Investors

The North Ontario Reduction & Refining Company, Limited, who are installing a plant for the refining of Cobalt and other ores at Sturgeon Falls, have their buildings, including a laboratory and sampling plant, just about completed, and have centracted for all their machinery, which will be installed as rapidly as possible. They expect to be ready to receive ere some time in June.

This is the first refining plant to be erected in the Province of Ontario, which should enable the Company to secure the beauty offered by the Ontario Government, which amousts to \$165,000 a year, this will pay thirty per cent, on the entire capital. In addition to the bounty, enormous profits made by refiners will enable the Company with its low capitalization to pay very large dividends.

We advise you to investigate this proposition. As a bena fide investment it has no equal. Prospectus and full information will be mailed on application to
