MINES AND MINING STOCKS.

Good Advances in War Eagle, Payne and Republic Yesterday—Golden Star Lower.

THE REPUBLIC COMPANY'S POLICY.

Hammond Reef News—Columbia, B. C., Information—General Mining News.

The general features which adorn this column this morning are those of Mr. E. Strachan Cox, a director of the executive of the Toronto Mining Exchange. Mr. Cox is one of the largest operators on the local mining market, having been instrumental in getting Toronto into some of the best propositions so far floated. At the same time he is the wit of the exchange, and when the petulant slump in stocks comes along he is the one who keeps up the spirits of the fellow-traders.

Hammond Reef Mill.
Secretary Carter of the Hammond Reef Gold Mining Company has just received a letter from the mine, stating that all the heavy machinery in connection with the stamp mill has been taken successfully into the mine over the ice, and that the dam at Clearwater Lake for the purpose of furnishing electrical power to the mine have been completed. The electrical plant in connection with the dam will be taken in June by wagon and boat.

Yesterday's Strong Stocks.
The strong mining stocks yesterday were War Eagle, Payne and Republic, these advancing 4, 5 and 6 points respectively. Republic as a dividend payer.

In a letter to E. Strachan Cox, Esq., dated April 27, Mr. Cox, Esq., says: "You can rest assured that I intend the biggest dividend of any company in Canada, no matter to what extent War Eagle or other companies may increase their dividends."

Michigan Mail Service.
Michigan mail will now have a regular mail service. The contract, providing for such has been forwarded for signature to Messrs. Alnoworth & Co., owners of the line of steamers trading between Sault Ste. Marie and Michipicott.

Mining News—Columbia, B. C.
According to the Review of Columbia, B. C., the mining industry is looking up well in that part of the Boundary country in the neighborhood of that town. Messrs. Alex. Dick and Leslie have secured an option on the Bell, Hidden and Delaware claims, in Summit Camp. Mr. Leslie is the man who floated the B. C. mine in Montreal. Messrs. Dick and Leslie will remove to Columbia and make that their headquarters.

Sentinel Mine.
The miners in the main shaft at this mine are working day and night, and have recently struck some unusually rich ore. There are rumors locally of a corner in the stock, and a sharp rise is predicted.

Deer Trail No. 2.
It is reported from the West that work on the company's new road is progressing favorably, and, although the almost impassable condition of the old road at this season of the year makes the transportation of any large amount of ore difficult, enough has already been shipped to pay the running expenses and the regular monthly dividend for May, which indicates that the property is properly managed. Upon further development, it is expected the stock of which quite a large block has been placed with investors in Toronto, will become a favorite, and in the course of a few months pay an increased price of 25c, which, for a dividend payer, is unique. There are scores of reputable stocks being eagerly taken up at the above price, which will not be in a position to declare a dividend for months to come.

Kettle River Development.
Grand Forks, B. C., April 20.—(Special Correspondence.) Dr. J. A. Smith, secretary of the Boundary Brokerage Company, Grand Forks, B. C., has just purchased the B. C. fraction and the Copper Wedge claim, located on the north fork of the Kettle River. The latter property comprises 52 acres. Development work is being carried on. They are gold properties, and the Copper Wedge claim, recently bonded for \$50,000 by B. C. Porter of Spokane, Assays give an average of \$35 in gold per ton and 5 per cent. copper.

J. A. Smith of Grand Forks has purchased the Hummingbird fraction, on the north fork of the Kettle River, from this city. It adds the Hummingbird claim and O. K. properties, recently bonded in Montreal. The Hummingbird fraction is about 52 acres in extent. The gold values exceed \$30 per ton.

Crosscutting the ledge at the bottom of a 50-foot shaft has been commenced on the Lily K. One-half of the ledge, has recently been bonded. Superintendent J. W. Hamilton has awarded the contract for the water and sinking the shaft to a depth of eight feet to Marshall & Co., Grand Forks, B. C., April 20.—(Special Correspondence.)—F. A. Mulholland of Rossland passed through here today on his way home, after visiting Camp McKinley, where he bonded nine free-milling gold propositions for Montreal and Ontario capitalists. He says great activity prevails in the camp. Work on the Granite and Banner claims is showing fine results. The Little Cariboo has struck the ledge and got three feet of ore in sight. An No. 2 has got two feet of ore in sight. An 80-horse-power boiler and compressor for the Minneha has reached Fairview. The Cariboo, a dividend earner, is putting in a 7-drill compressor. Machinery for working the placer deposits at Rock Creek will shortly be installed.

JUST AS REPRESENTED.

Not a claim made for Laxa-Liver Pills but what can be amply verified.

No spreadeagleism.
No statements made about Laxa-Liver Pills but what are supported by unimpeachable testimony.
We tell you they cure Constipation and Sick Headache, banish Biliousness and Dyspepsia.
Stir up the torpid liver.
And they do all this without a gripe or pain, and never sicken or weaken.
Mr. MARYVILLE AMERSON, Blytheswood, Ont., bears this out in the following statement he made:
"I have used Laxa-Liver Pills for biliousness and found them to be just as they were represented. They act nicely, without any griping, and I gladly recommend them."
After you've gone the rounds of all the remedies, just try Laxa-Liver Pills. You'll find nothing work easier, cure quicker. 25c., or 5 for \$1, all dealers.

VAN ANDA.

We are advised that a smelter is being erected and will be in operation about July 1st. This company owns 786 acres of mineral lands. The "Cornell," one of the company's properties, is showing well with development. The management claim \$525,000 worth of ore in sight on the Cornell and Copper Queen claims.
If you wish to purchase these shares communicate with us at once.

Mining Stocks

We strongly recommend at present prices the following stocks:

Athabasca.
Last mill run gave upwards of \$30 per ton. The tunnel is 300 feet on the ledge without a break. At the face a depth of 500 feet has been obtained. Last average assay of ledge in face of main tunnel went \$400.59 per ton. By conservative estimate \$1,000,000 worth of high-grade ore actually blocked out.

Golden Star.
A regular dividend payer. It steadily advancing and may go much higher.

Rathmullen.
The property is looking well and development is being vigorously pushed. Full particulars on application.

Olive.
A regular dividend payer.

REPORT

Republic Camp, Stevens County, Washington.

The Delphos vein is in the same formation, and has the same general trend as the Republic vein.
The formation is porphyry, and is cut through by a large ledge from 5 to 20 feet wide on the surface cropping out boldly for at least 2000 feet, and in some places several feet above the surface on the two claims. The vein filling is quartz, and in considerable silver with bunches of galena scattered throughout the vein.
The property was located last summer, and no work done, but the lowest assay taken prospectively from the ledge, gave \$34.00 gold and 6 oz. silver, while picked pieces run as high as \$125 in gold, silver and lead, several samples running from \$10 to \$20 per ton.
These two claims lie directly in line with the same formation and are apparently on the same ledge as the Moody Brook property, which was recently sold for \$50,000, 5 per cent. having been paid for \$50,000. In conclusion I will add, the Delphos outcrop is the very best I have seen, and indications count for anything, they will develop into one of the greatest mines of this camp.

I have aided in the survey of nearly every patented property on the north and south side, and have not seen anything and would rather buy than the Delphos. There are now opening up several properties around this, and they are looking splendid. There is abundance of water and timber at hand for all purposes. Yours truly,
D. W. YEAZGIR, Asst. Surveyor for HENRY CARE, Deputy U. S. Mineral Surveyor for Washington.
Note.—We have seen the Delphos property made no general examination, but the surface showing is immense.

MOODY BROS., Republic.
\$10.00 for 1000 Shares.
The above claims are being incorporated by the Portland Mining Co. of Republic, capital stock 1,000,000 shares; 2500 shares to be sold OWNERS' SHARES at one dollar per share. The plan is to sell OWNERS' SHARES at one dollar per share, and upon completion of payment the Treasury shares will be sold for 25c per share. 200,000 shares sold in Portland, Oregon, in three days. For shares and further particulars address—
