the track, making a circuit and creating a great pyrotechnic display. The end of the wire was thrown up on the front of the car and encircled Motorman Corrigan, who was powerless to get at his brake. What he did is a mystery. The wire snapped again 50 yards or so farther down the line, bringing down three whole spans, and carrying a couple of brackets with it. This cut off the power and prevented any one being burned.

The passengers on the Belt Line car saw the runaway Bloor coming as if something was wrong, and they got out in time to avoid being hurt and witnessed the smash. One young man with a couple of lady friends at the back of the car waited till the last moment before they got off and were almost too late.

Car Beyond Control.

Car Beyond Control. When the Bloor car got beyond con-ol of the motorman, it rapidly gaintrol of the motorman, it rapidly gained momentum as it neared the curve of the crescent, where the Belt Line car was standing, and Motorman Birch couldn't go ahead because there was no power. The three ladies and Mr. Phillips on the Bloor car were panic-stricken, and Miss LeDrew jumped and rolled over the pavement. Mr. Phillips told his wife to stay where she was, and he stood with his foot on the rail. Mrs. Phillips saw the crash with the other car was bound to happen, and she would not listen to her husband, but tried to jump past and carried him with her. Miss Phillips was spellbound and could not leave her seat, and in her fright she sat there till the crash came.

When Miss LeDrew was picked up she was almost unconscious, and was taken into a house on Spadina-avenue.
Dr. Parry attended her. He had her taken at once to the Western Hospital. Her skull is badly torn and she has concussion of the brain.

has concussion of the brain.

Miss Phillips and her sister-in-law were taken into the City Dairy Co. office and attended by Dr. Shell, who had Miss Phillips removed to the home of a relative on Spadina-avenue below Queen-street. Her injuries are entirely to the nerves, and she was in an hysterical condition all night. Mrs. Phillips is hadly cut and bruised about lips is badly cut and bruised about both arms and has a nasty lump on her head where she fell from the car. Her husband is only bruised as the result of the fall.

Roadmasters Nix, Wallace and Green were summoned to the scene of the accident, and did what they could for the comfort of the injured and getting the line into shape. The broken cars were removed to the barns, and traffic was resumed after an hour's delay.
