at #1 per cwt. WEEKLY REVIEW.

There was more business transacted at the market the past week than for some time back. Saturday's market was a particularly large one, and there was a fairly brisk demand on that day for the large amount of produce that was offered. Prices as a rule were inclined to be easier, except for butter, eggs and hay.

Grain-Oats are about the only kind of grain that has been marketed. The supply has fallen off considerably the last couple of days. Prices fluctuated during the week at \$1 05 to \$1 12 per cwt. Barley would sell close to the dollar mark if it were brought in. Wheat sells at 71c per bushel.

Hay and Straw-Hay is in good demand; the supply at present is light. Prices are firm at \$13 50 and \$14 per ton. There is a genuine shortness in the hay crop and as there is a larger number of cattle in the country than for years past which will require a lot of hay to keep them through the winter, this will help to keep prices firm. Straw is easier, most of the loads sold at \$6 per ton.

Butter and Eggs-Butter is firm and the stocks held by the dealers are light. There is not much chance of prices going lower. Sales are made at 23e for crocks and 24c to 25c for pound rolls in wholesale lots. Eggs are in good demand. Prices are firm at 23c to 24c for crates and basket lots. Potatoes-There is considerable offered at present by the farmers, and

quite a few car lots have been received by the dealers. Sales are made at 80c to 85c for the load or ten-bag lots. Apples-The market is over-supplied at present. Sales are slow at 40c to 60c per bushel, or 50c to 70c per bag, for choice hand-picked \$1 50 to \$2 per barrel. Apples are likely to be high

Old fowl sell at 51/2c per pound alive or &c dressed. Ducks sell at 75c to \$1 10 per pair dressed, or 9c to 10c when sold by the pound. Turkeys are slow at 13c

Butchers' Meat-Beef is dull at \$5 to 11c per pound by the carcass. Mutton sells at \$6 to \$8 50 per cwt.

LIVE STOCK MARKETS.

TORONTO.

Toronto, Nov. 6.—The run at the city cattle market today was 34 loads, with 1,210 lead of cattle, 2,300 sheep and lambs, 300 hogs and 109 calves.

The market generally was about steady today at last week's prices. There was a light run, but the local butcher trade has been pretty well supplied of late, and there was no great rush for cattle today. What few choice butcher cattle were on hand were soon picked out, and the top prices paid. Afterward there was not much life to the market, and common stuff was going at easy prices, though stuff was going at easy prices, though not receding quotably lower.

The export trade is very quiet, very few in this class offering, and not much stock that the control of the control o

Mr. Walter Chenoweth, the transfer clerk at the head office since 1903, told the crown attorney of the system whereby the Government returns were made up. He said that the material STICKS TO ARMS came from the branches and the head office, and the figures were first grouped in the "preliminary Governmen statement book." From here the figures were carried to the "Government statement book," which contained merely the totals and no details. From this book the statement was copied for the Government. Ottawa, Nov. 6.-That \$3 50 was fair price for the land, and that Messrs. Pope, Fowler and company did not receive any special consideration or more favorable terms than anyone else who paid his money would have received in connection with the purchase of 200,000 acres of land, was the testimony of Mr. Fred T. Counsel for the Government elicited from Mr. Griffin the further information that these gentlemen claimed the right to defer making any payment on account for over six months after the sale was made, that in the meantime they had put upon the market the lands they had agreed to buy; that they delayed making the deposit until he had canceled their reservation, and that ultimately, after being given further time to pay the \$20,000, they were allowed to get the land at \$3 50 per acre. although he had in the interval received an offer of \$4 per acre for the land.

Fruit-a-tives are the juices of apples, oranges, figs and prunes. These juices are concentrated—and by a secret process, the juices are combined in a peculiar manner. This new combination is much more active medicinally than fresh juices-yet so perfect is the union that Fruit-a-tives act on the system as if they were in truth a natural fruit, medicinally stronger than any other

known fruit. To this combination of fruit juices, tonics and internal antiseptics are added. and the whole made into tablets.

KIDNEY DISEASE COMES ON QUIETLY

Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some form of Kidney Complaint, but do not suspect it. It may have been in the system for some time. There may have been backaches, swelling of the feet and ankles, disturbances of the urinary organs, such as, brick dust deposit in the urine, highly colored scanty or cloudy urine, bladder pains, frequent or supressed urination, burning sensation when urinating, etc. Do not neglect any of these symptoms, for, if neglected they will eventually lead to Bright's Disease, Dropsy and Diabetes.

On the first sign of anything wrong Doan's Kidney Pills SHOULD BE TAKEN.

They go to the seat of trouble, strengthen the kidneys and help them to filter the blood properly and flushoff all the impurities which cause kidney trouble. Mr. Thomas Petty, Massey, Ont., writes: "After I arrived in Canada from New Zealand, a couple of years ago, I suffered very much from kidney trouble. I tried several remedies, but they did me no good. Finally my back became so lame I could scarcely work. I was advised to try Doan's Kidney Pills and after taking them I felt like a new man.
