## A City of 40,000 People!

If all our telephone buildings were brought together in one place, and to them were added the homes of all our employees, the result would be a city of 40,000 or 50,000 people.

As a matter of fact, the employees of the Company, with their families and dependents, number considerably over 40,000.

This large body of workers can reasonably claim to be among the more active, progressive and necessary elements in the life of the community. If, every time you used the telephone, you could see all those who make it possible for you to talk over the wire, you would realize how earnest and painstaking telephone workers are.

They have keen personal interest in keeping the quality of the telephone service up to the highest possible standard.

You, as a telephone subscriber, rarely come directly into contact with the telephone employees. They serve you in an intimate though unseen way, and the product of their labor is very necessary to your welfare.

Through the medium of this advertisement, they ask you to co-operate with them in their efforts to keep the service up to the standard they are always striving to maintain.

The Bell Telephone Company  
of Canada

## The Colonial Phonograph

An Opportunity To Obtain a High-Class Phonograph At  
An Exceptionally Reasonable Price

At the present time when "Economy" is a household word, and we are all striving to obtain "Greatest Value at the Lowest Cost," any real saving is appreciated. The Colonial Phonograph, built, priced and guaranteed, as it is, makes it one of the outstanding genuine values in the Canadian market.

Our present stock of these instruments is entirely free from any "luxury" tax. The number, however, is limited. It is therefore advisable that you act quickly.

Come in! It will be a pleasure to show you and demonstrate these instruments.

Largest size, 46 inches high, 20 inches wide and 21 inches deep; finished in walnut, mahogany or fumed oak; equipped with spacious record accommodation, universal tone-arm for playing all makes of records, ball-bearing casters, and one-hand top. The motor is of the powerful two-spring type, and has proven satisfactory in every way. You will like the tone and appearance of this instrument. Complete with ten double-sided Columbia records, 400 needles, and one record cleaning brush..... **\$160.00**

Size 43 inches high, 17 inches wide, 21 inches deep, finished in mahogany or fumed oak; same equipment as Type 3. Rich, full tone. We guarantee perfect satisfaction. Price, complete, with ten double-sided Columbia records, 400 needles, and one record cleaning brush..... **\$135.00**

These instruments (although priced for the cash buyer) may be purchased on the easy-payment plan. This plan does not involve any increase in the price of the instrument. One price to everybody is our motto.

See Them in Our Windows.

Mail Orders Will Receive Our Prompt and Best Attention.

## BECK MAY SEEK NEW MANDATE ON RADIAL PROPOSAL

A Toronto Dispatch Says  
Estimates Vary So Greatly  
From Former Ones That  
Commission Head May Re-  
submit Whole Scheme To  
Voters.

MONTREAL, Oct. 21.—A special dispatch to the Montreal Star from Toronto today says:  
"An extraordinary situation is developing here in connection with the Sutherland radial railway scheme of the Provincial Hydro-Electric Power Commission. The nature of the evidence, already extending over eight sittings of the commission, given by Chief Engineer Gaby of the hydro, lends credence to a story that Sir Adam Beck is considering the advisability of seeking new authority from the municipalities now being submitted to the Sutherland Commission.  
These estimates contain remarkable variations, not only from the figures on which municipalities voted, but also from the data given the Government as recently as last June, when request was made for a provincial guarantee of radial securities for \$51,570,221.  
"Controller J. J. Hamilton has written Sir Adam Beck, suggesting an early resubmission of the Toronto-to-St. Catharines scheme to popular vote, and this position is endorsed by the Mail and Empire. Mr. Gaby has told the commission that the Toronto-to-London line, voted on four years ago, is not being considered, and will have to go back to the municipalities, largely because some municipalities rejected the bylaws for their share of the cost."

Toronto, Oct. 21.—Testifying before the Sutherland radial commission today, Chief Engineer Gaby dealt with figures in the reports on the Toronto suburban now running to Woodbridge and Guelph.

Under hydro control he expected passenger revenue to jump from \$445,000 in 1920 to \$553,751 in 1921, and freight revenue from \$37,206 in 1919 to \$40,000 in 1921. This would result from better service and the fact that the line would be brought into a central Toronto terminal, and \$257,900 would be spent on betterment. The line is 64 miles long, and is at present operated by the Canadian National Railway, and is to be purchased for \$2,628,000, the amount of the road's bonded indebtedness.

Although a report of expenses and revenues of the road for the year 1918 showed net earnings of \$53,200, Mr. Gaby said there really was a deficit in that year of \$65,100, no account having been taken of fixed charges, amounting at 4 1/2 per cent on the bonded indebtedness to \$118,300 per annum. The Niagara Line was to be taken over on assuming \$1,098,000 of bonds, payment of \$2,416,374, and the hydro commission proposed to spend in betterment \$219,450, bringing the total cost to \$4,363,820. The interest on this sum would be \$214,154.

## ARE SINKING SHAFT IN SEARCH FOR COAL

OWEN SOUND, Oct. 21.—Despite unfavorable reports as to the quantity and quality of the coal to be found, workmen are still busy sinking the eight-foot shaft on the Lyon's farm at Shelburne, in search of the black diamonds. They are now down 25 feet and expect to reach the rock at an early date.

Two shifts of men are working day and night at the excavation work, and fast progress is being made. A large gang of workmen compose each shift, and at the present rate of progress the rock, which is 25 feet below where the present level of excavation, will be reached within a week or two. Digging began on Monday. The diamond core drill is expected any time, and as soon as this arrives the work will be facilitated and hastened on a great deal. A windlass and bucket serve at present as a means of bringing up the excavated material from the bottom of the shaft.

## LARGE STOCKS OF AMERICAN SUGAR IN DETROIT FOR CANADA

Windsor Retailers Expect To  
Sell Sugar At 17c a  
Pound.

WINDSOR, Oct. 21.—Coinciding with the removal of the ban on the importation of sugar and the lifting of the price-fixing order of the Dominion Board of Commerce, sugar prices on the border today took a steep drop. The effect in retail circles is not expected until Friday. Border dealers say the price will drop to at least 17 cents. The effect will be felt here immediately, owing to the immense quantities of sugar stored in Detroit that will be rushed across the border into Windsor and Western Ontario.

## MONASTERY SELLS FAMOUS PAINTING

St. Veronica, Work of Theotocopi, in Hands of Dealer.

TOLEDO, Spain, Oct. 21.—An investigation conducted by the civil governor regarding the reported sale of the painting of St. Veronica, the work of Theotocopi, by the clerical authorities of Santo Domingo Monastery, confirms that the picture was disposed of with the consent of the Government and the religious authorities August 19.

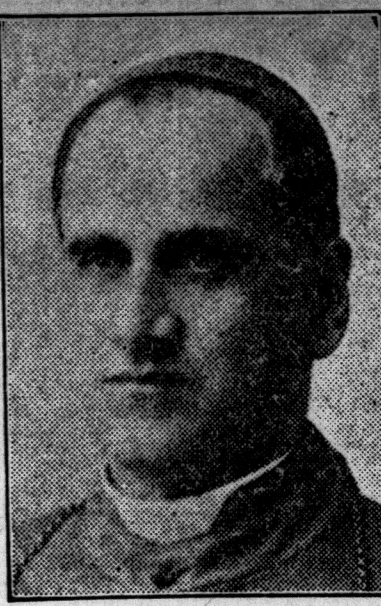

## DETROIT MAN MUST STAND TRIAL ON A MANSLAUGHTER CHARGE

WINDSOR, Oct. 21.—Cecil Welch, Detroit automobile, arrested Sunday night when the police ordered all automobiles stopped from leaving Canada for Detroit on the ferries in an effort to capture the man responsible for the accident that caused the death of Mrs. Elizabeth Parker, was today committed for trial on a charge of manslaughter at the fall assizes, convening at Sandwich Nov. 10.

Welch was caught in an attempt to slip across the border shortly after the accident which occurred on Riverside Drive. He was arrested when he failed to give a satisfactory explanation as to the damaged condition of his car, plainly evident, and obviously the outcome of an automobile crash. Five other persons sustained serious injuries when Welch ran amuck.

DEATH OF FRANCIS G. BROWN.  
SARNIA, Oct. 21.—Word was received tonight of the death of Sarnia's oldest resident, Francis G. Brown, the father of eight children, three of whom are clergymen, who died at the home of his daughter, Mrs. George Sheppard, 2611 South boulevard, Port Huron, at the age of 88 years. Mr. Brown had resided with his daughter several months, and his death followed a lingering illness.

## ASKS BRITISH GOVT. TO SECURE RELEASE OF JAMES LARKIN

LONDON, Oct. 21.—Col. Maloney demanded in the House of Commons today whether the Government was aware that James Larkin, former head of the British Transport Workers' Union, serving a three-year term for anarchy, had developed tuberculosis in Dannemora Prison, owing to the nature of the work on which he was employed, and is in a critical condition. He asked whether the Government had

made representations to the United States with a view of releasing Larkin for treatment.  
Cecil Harroworth, under-secretary for foreign affairs, replied he was aware that Larkin had been sentenced on the charge of advocating the overthrow of the Government of the United States, but had no information regarding his condition. The matter was not one he added, on which Great Britain could make representations.

SAYS LARKIN NOT ILL.  
DANNEMORA, N.Y., Oct. 21.—James Larkin, former head of the British Transport Workers' Union, and who is now serving a term in Clinton Prison here for criminal anarchy, is not ill with tuberculosis and is not even con-

signed to the hospital, it was stated by a prison official here tonight, in the absence of the warden and prison physician.

"Larkin is the picture of health. He is a more rugged specimen of manhood than the man you are talking with," said the prison official.

Do not suffer another day with itching, bleeding, protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c a box; all dealers, or Edmundson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp for postage.

## Do you know there are only two methods of Knitting Underwear?

1. One is the method used in the manufacturing of "CEETEE"—knitted on full fashioning machines, which "knit-to-fit"—used only by Turnbull's, and by no other underwear manufacturer in Canada.

THIS IS THE NAME  
**"CEETEE"**  
THE PURE WOOL UNDERCLOTHING THAT WILL NOT SHRINK  
"The Woollen Underwear without the itch"

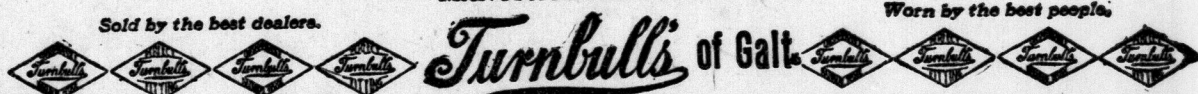

2. The other method is that of knitting on circular knitting machines, such as are used by every other manufacturer of knitted underwear in Canada—also by Turnbull's, for their other lines.

Good appearance, wonderful softness, ease and comfort in fit, with quality always first, the best yarns, the most modern process of manufacture—are embodied in all Turnbull's Underwear.

For over sixty years Turnbull's have specialized in the making of high grade knitted underwear in Canada.

MANUFACTURED ONLY BY

There are two things to remember, when buying underwear—

- 1.—Buy "CEETEE" if you possibly can.
- 2.—If you cannot buy "CEETEE" buy, TURNBULL'S.

Worn by the best people.

## How the League Issue Is Splitting the Parties

The desertion of the Harding camp by a former Republican National committeeman and a number of other prominent pro-league Republicans after Senator Harding's uncompromising rejection of the league of nations in its present form in his Des Moines speech, convinces many observers that the league has taken its place at the eleventh hour as a clear-cut issue of the presidential campaign. But if the league issue is now rending the Republican ranks, it is also a matter of common newspaper remark that earlier in the campaign it won over to the Harding banner many Irish-American and German-American voters who supported Wilson in 1916. And it will be remembered that it was on this issue that the Hearst papers abandoned their traditional Democratic allegiance.

In the Democratic camp, Senator Harding's Des Moines speech was greeted with every appearance of rejoicing. The New York Times (Dem.) declares that "the election of Cox means a league of nations acceptable to President Wilson, and Republican success apparently precludes American participation in the league," but, affirms the Baltimore American (Rep.), all that Senator Harding has done in this matter has been to "turn his back upon the Wilson league and turn his face toward the Constitution and toward the Senate," and the New York Globe (Rep.) is "convinced that Senator Harding will be compelled to move for the ratification of the Treaty of Versailles."

A most interesting and instructive analysis and digest of public opinion on the league of nations issue will be found in the leading article of THE LITERARY DIGEST for October 23. Other striking news-features in this number are:
