When You Eat Dinner To-day

Give thanks, please, to those valiant men who, on the fields of France and Flanders, hold back the Hordes of Destruction, and make possible the peaceful enjoyment of your meal.

Some of those men have not had a sight of a home meal for three years. Home to them is a vision—a hope—a prayer. Will you let them suffer still further for want of food?

You cannot—will not—must not. Resolve then, to sign and live up to the letter of the Food Service Pledge. Eat less Beef, Bacon and White Bread so

that we may have sufficient of these foods for export.

Instead of buying so much white flour (if you do your own baking), use one-third oatmeal, corn, barley or rye flour. If you get bread from a baker, order some brown bread each day.

Second, substitute for beef and bacon such equally nutritious foods as fish, peas, lentils, potatoes, nuts, bananas, etc.

Third,—prevent the waste of a single ounce of food in your household.

Practical Housekeeping Hints

HOW BEST TO USE CEREALS

Cereals rank first among vegetable foods. They contain in varying proportions all the elements necessary to support life. They contain a great deal of starch, which is needed to keep the body warm and to make it do its work. A bowl of oatmeal, eaten for breakfast, will furnish the average man with all the strength, heat and energy he will need. Cereals with cooked fruits are particularly appetizing.

It is best not to buy cereals in very large quantities, because if they are kept too long insects are apt to develop in them. Cereals should always be kept in glass-covered jars.

Cereals are improved by long cooking. Therefore, oatmeal, hominy and other cereals which are left over can be added next day to the fresh-cooked cereals.

All cereals should be cooked at first for ten minutes directly over the fire, and then put into a double boiler. If you haven't a double boiler, place the saucepan containing the cereal in a larger sauce-

pan that contains hot water. By using a fireless cooker you can prepare your cereal at night, cook it on the stove for about ten minutes, put it in the fireless cooker, and when you get up in the morning you will find it all cooked and ready to be eaten. In this way you save both time and fuel.

Cereals requiring more than one hour to cook should be cooked the day before they are to be eaten and reheated in the morning.

Coarse, flaky cereals should be stirred as little as possible. Fine granular cereals may be beaten.

FINED FOR ASSAULT.

Conviction Developed Out of Charge of Robbery.

Elihu Morris, counsel for Dove Stereoff, succeeded in persuading Judge Coatsworth in the criminal court yesterday to change a finding he reached last Friday and reduce a fine of \$100 to \$25. Stereoff was charged with robbing Vasil Stayanoff of \$110.

and the judge and the crown attorney agreed that no evidence had been given to convict Stereoff of the theft of the money. But Mr. Greer claimed that robbery was theft with violence, and as there was evidence to show that an assault had been committed, Stereoff could be convicted on this charge. His honor accordingly found the accused guilty of assault. On Mr. Morris appearing to ask for a stated case his honor changed his ruling and reduced the fine from \$100 to \$25.
