TOMORROW'S BALL GAME
Marathons and St. Joseph's Are Getting in Fine Fettle for Tomorrow's Struggle.

The Marathons have been putting in some sharp practice on the Victoria grounds during the evenings in preparation for tomorrow's game, and are reported to be doing some pretty snappy work. The St. Joseph's are also getting in training for the struggle on the Weston lot, and are said to be in the best shape they have been this season. Tomorrow's game between these two teams on the Victoria grounds will surely be a rattler.

N. H. S. FIELD MEETING
Tomorrow afternoon, if the weather is fine the Natural History Society will meet at the residence of W. F. Burdett, Courtenay Hill. A ramble along the seashore will suggest topics for interesting discussion by the geologists and botanists of the society, after which a basket picnic, provided for in the usual way by members attending, will be enjoyed upon the lawn, followed possibly by a little talk, if the evening is clear. Buckle boards will leave north side of King Square at 2 p. m., returning about 9. Should the weather prove unfavorable to-morrow the meeting will be postponed until Monday afternoon at the same hour.

COUNTRY MARKET
Meat, poultry and vegetables will be in abundance in the country market to-morrow, and there will be a good variety to select from. WHY THE YOUNG MEN SHOULD STAY EAST
Testimony from P. E. Island and Ontario That is Worthy of Attention.

(Charlottetown Guardian.)
Our Summerside correspondent writes: When a gold mine yielding a few thousand dollars a year is discovered in the Klondyke or New Ontario the world rings with accounts of the wonderful wealth of Western Canada. Since the first of May last there were fished in Grand River \$75,000 worth of quabags and in Richmond Bay \$150,000 of tobasers, a quarter of a million in all from an area of a few square miles.

"And few have ever heard of it beyond the immediate neighborhood. Within the next few months the same ground will be gone over by the oyster fishermen and it will yield another \$50,000 at least. This yield without the outlay of much capital and capable of being repeated annually for indefinite years to some place Richmond Bay and the surrounding country among the richest spots in the Dominion or in the world."

While the above was lying on the editorial desk D. W. Henderson, of North Wiltshire walked in, bringing with him stalks of wheat which measured five feet eleven inches in length, splendidly headed specimens of the White Eye variety of which he has six acres growing on his farm. This is only a little taller than many other specimens of wheat sent to this office as already noted and which should yield twenty-five to thirty bushels to the acre.

These crops of the land and the sea are grown here on the Atlantic seaboard, two thousand miles from the great British market than those of the western prairie country and proportionately more valuable. Those who stay at home in Prince Edward Island and gather the wealth which lies at their doors are wiser than the rainbow chasers who are running away to the westward in quest of fortune. But it is true now as it was in Shakespeare's time, "That which we have we prize not to its worth."

(Toronto World.)
The harvest is yielding better returns in Ontario than the earlier estimates gave promise of. Berley is quite commonly turning 40 bushels to the acre, while goose wheat has had the best year for the last five or six years. Peas are exceptionally good all over the province, while oats, the one crop that has been vigorously assailed by rust, the green bug and pests, are yielding bumper crops in some parts. As high as 80 bushels to the acre are being threshed in certain parts of Ontario. Yet this year the crop has many fields that will not go 25 bushels to the acre, which brings the average yield away down.

On the whole Ontario farmers have reason to feel highly jubilant at the returns this year's Providence has sent them. There is no farm that has a complete failure of crops. Hay has been lighter than usual and pasture has been scarce. Against this the acreage of corn is larger and many who forego the shortage in fodder prepared for it by way of supplementary green crop.

Prices for all agricultural products are high. Dairy and h.c. products have remained steady. Prospects for the future are not discouraging. If there is to be a money famine, or financial affairs themselves into snots over the situation, the farmer in Ontario, we contend, is the most secure man of them all. He has his living and his wants can be fashioned by his means. It is this security and contentment from worries that makes our Ontario farm life worth the getting. Many a young man has left the province in search of these very things which flourish nowhere so well as under our own Ontario trees.

THE TOWER SCHOOL MATTER
Editor Times:
Sir,—I think the public can better imagine my feelings than I can describe at the article of one of my old pupils in yesterday's Times in reference to proceedings attending the opening of Tower school last Monday.

How glad I am that, instead of believing the one-sided account of those proceedings—written by a Star reporter—and allowing the habits in my integrity produced by that account to become conviction, he instituted such enquiry that I was restored to his former estimation of my character.

This reporter could have said that the police were there at the bidding of Fred Henderson, and were subject to his direction, and that Mr. Damery, chairman of the trustee board, at whose back stand most of the parents having children at this school, condemned the attendance of the police at a public school, where small children coming for the first time were to receive their first lesson. He might have said something about Rawlings and his conduct, but since he omitted this I will give you something and say this gentleman has not heard the last of it. As I only intend this in the way of thanks to my former pupil, I will close by saying that I hereby challenge Smith and Henderson to a public investigation of the whole matter, and then, I am sure, many of my former pupils will rejoice.

Further, let me contradict Mr. Colby Smith's statement that the trustees delayed my dismissal. I told Mr. Smith that I would only accept a renewal of the contract on condition that the school was considered by them in good condition, and that I should not be considered in any other light. I also say, give me the chance to show Secretary Hayes' blundering to the public and I will take the condemnation of the public in case of failure.

W. H. ALLINGHAM.

To Editor of Times:
Sir,—Seeing an article of a former pupil of Wm. H. Allingham in yesterday's Times in reference to school trouble at the Tower school, I have to say in this connection that I fully endorse everything said by that former pupil, and further say that I know Mr. Allingham to be of such strength of character that once he believes his course is right no fear of consequences will intimidate him.

Another old pupil,
EDWIN THOMAS.

NOT A PROMOTER OF BOXERS
The sporting editor of this paper was glad yesterday to be able to contradict the horrible impression that had probably gone abroad that Sporting Man Black of the Fredericton Gleamer was promoter of "bruisers." It was necessary, however, might think he was in the business.

THE LAST CHANCE
OF THE SEASON TO BUY THESE BARGAINS

IT IS MORE ADVANTAGEOUS for us to let these seasonable goods go from our store at extremely low prices than to keep them as a fragmentary stock until they are actually in the way of fall and winter supplies. There is no secret about it, they are the remnants of our immense summer stock, and though cut in two, as far as price goes, are as pretty, as serviceable and as good in every way as if you were to pay the regular price.

MEN'S FANCY COTTON AND LISLE HOSE AT 3 PAIRS FOR 50c. AND 3 PAIRS FOR \$1.00

There's genuine economy in buying up socks at such figures as these. While there are weeks and weeks yet to wear them in 1907 many a man likes to have something tasty in the half hose line for winter evenings, and furthermore they will come in excellent use next spring and summer. This season's designs, colorings and embroiderings.

WASHABLE NECKTIES FOR MEN AND BOYS AT 3 FOR 25c. AND 2 FOR 25c. VERY ATTRACTIVE KINDS.

And here again is a chance to stock up afresh with natty furnishings at a money outlay that makes it well worth the while. For a dollar bill enough good stylish neckwear can be had to last a couple of summers, and wind up a bright fashionable autumn. Nearly all the branches of our original stock is represented in this round-up of odds and ends.

BUY TODAY OR TONIGHT, FOR OUR STORES WILL BE OPEN UNTIL 10.00 P. M.
