

tion to the yeomanry than that they are obnoxious to the people, it would be a strong reason with a judicious Government for hesitating to employ them; but the yeomanry of Ireland are imbued with strong political and religious prejudices, and are in temper unfit for the employment which has unhappily devolved upon them.

AFRICA.—Yesterday the Caledonia arrived from the coast of Africa. She had been absent about ten months, and during that time lost her factory, masts, and ten hands. She brings intelligence we understand, of the destruction of a great part of Bony, by Jew-Jew or high priest, having burnt the town or parish the chief for having entered intemperately. This FRAGS between the natives interrupted the trade carried on between the traders and the vessels.

The men of Brussels are in their limes—very ill-tempered madness—and Leopold struck out of the walk for the day. "Wait till a while ago, as the Milesians say, his Majesty may rank with Charles of Holyrood, Don Pedro, and Barclay and Perkins' operations—he will be XXX-kinged, and X-elled. Never mind, he has a Claremont to fly to.

THE OBSERVER.

ST. JOHN, TUESDAY, SEPT. 27, 1881.

We are this week indebted to the *Mercantile Gleaner*, for European news to the 13th August, brought to that place by the ship *Lord Stanley* from Liverpool, and furnishing extracts from London papers one day later than contained in our last. These are most important, as far as they relate to the affairs of Belgium and Holland. The hostile armies had come into collision, the result of which was the discomfiture, confusion, and retreat of the Belgians.—The *Gleaner* gives the following extract from the second edition of the London *Courier* of the 11th Aug. the authenticity of which is guaranteed by that paper:

We have just received, by an extraordinary express from the Hague, the following important intelligence, the authenticity of which we guarantee:—

"In consequence of the communication made by the conference to the King of Holland, the nature of which we were first to announce last week, his Dutch Majesty has given an assurance to the English and French Governments, of which the following is the substance:—

"His Majesty has declared to them, that in commencing hostilities against Belgium he had not the slightest wish to entrench himself with the great powers—he regarded the quarrel between him and the Belgian government as strictly confined to the two belligerents, and as not at all connected with the interests or intentions of the great powers. As he is now assured that the continuance of hostilities by him is viewed with satisfaction by the conference, he, in accordance with his anxious desire to be on a friendly footing with great powers, will discontinue hostilities, and withdraw his troops within the Dutch frontiers, as soon as he shall receive intelligence that the French troops have actually entered Belgium, as he will regard such entry of the French troops as an intimation of the adoption of the quarrel on the part of the Belgians by the conference.

"His Majesty has also intimated that he has sent orders to the commanders of his troops to retire upon the advance of the French army, and on no account to combat any act of hostility after such advance.

"According to the intelligence received through another source, we learn that the first division of the French troops was to have been at Mons on the 9th."

The *Liverpool Times* remarks as follows:—

"This, if true, and we see no reason to doubt it, supersedes the necessity of settling the latest particulars from the seat of war. Both armies still retained their position within sight of each other, and though there had been some trifling skirmishing, there had been no engagement of consequence. We are glad to find that the report of Dutch barbarity is unfounded, and it is even doubtful if there were any foreigners among the Dutch troops.

The French army in Belgium has suspended their march, in consequence of intimations from the King of Holland, or of advice from Leopold, who might have doubted of the propriety of introducing them without the previous consent of congress. They will now, no doubt, return according to Louis Philip's declaration to France.

The above (although it yet requires confirmation) appears by no means improbable, under existing circumstances. It certainly would be little short of madness—similar to that of Charles XII. of Sweden—if the King of Holland persisted in his attempts against the Belgians, backed as they now are by the Five Great Powers. But this armed interference, thus proclaiming Peace at the Bayonet's Point, forms a singular incident in history, and might almost lead us to the conclusion that the Nations of the Earth are growing tamer with the march of time—acquiring wisdom with experience—and love of repose with age. Events, which 20 or 30 years since, would have set the world in a blaze, are now calmed down to rest in a few short weeks. Battles are fought in the Cabinet instead of the Field, and warriors march, not to reap laurels, but to be the bearers of the olive branch.

There is nothing from Poland upon which we can rely. But a rumour has reached this city, brought to us by a gentleman from Pietou—that Peace had actually been proclaimed by the Belligerents, and that the Emperor of Russia had consented to recognize the Independence of Poland. We are not in possession of the particulars, nor do we know in what manner the news reached Pietou.

FRANCE.—M. PERRIER continues at the head of the Cabinet.

The English Mail for August arrived on Saturday, but brought London dates only to the 3d. We can therefore draw nothing from this source.—An Exeter paper of the 13th Aug. has been received per *brig Hope* from Triguinmouth, but it adds nothing to our stock of intelligence received on Saturday, via *Miramichi*.

The *French Keelings*, arrived this day, has, we are happy to state, brought the Machinery for Mr. WILKINSON'S new Steam Boat *Harold*.

His Excellency Sir ARCHIBALD CAMPBELL, left Fredericton on the 18th inst. on a tour through the upper parts of the Province, previous to the setting in of cold weather.

Captain KING, of the 52d Regt. who lately passed through this City, with despatches for Sir ARCHIBALD CAMPBELL, has, we understand, proceeded to Malawaska, in order to overtake his Excellency, upon his tour.

"THE BORDER."—There have been alarming stories since our last, of the subjects of *Uncle Sam* having "come over the Border," with arms in their hands, and committed sundry depredations upon the lands and tenements of our peaceable fellow subjects at Malawaska. This has naturally given rise to much conversation both in town and country, and we doubt not to much "boiling of blood" in the veins.—One of our gallant QUARTER MASTERS has been talking of "opposing force to force,"—and our friend, the Editor of the *Nova Scotian*, promises, in case of necessity, "to appeal to every man from sixteen to sixty, in Nova-Scotia," on our behalf.—Our neighbours may therefore take notice that we do not lack *plack* in this quarter, and they have but to come over the Border in earnest, to be taught a lesson they will not soon forget.—But, notwithstanding all these *wild* sounds, we are happy to be able to announce, upon good authority, that the whole turmoil has been raised by a dozen or twenty troublesome fellows on the frontier, who are not countenanced by the proper authorities of Maine, much less by the General Government of the United States. We trust that such will prove to be the case when the matter is duly investigated, as doubtless it will be.—We cannot think the United States would court a war with Great Britain, at present, merely on account of a few square miles of wild land, particularly after the formal relations of the two countries have been so recently placed on an amicable footing. The general interest of both nations may be advanced by Trade, but not by War—and instead of being called upon to whet our swords, we sincerely hope that they may still slip in their scabbards in the beds of rust they have long since acquired.

LAUNCH.—On Thursday last, was launched from the Ship Yard of Mr. JOHN HAWES, in Portland, a fine Brig of 210 tons, called the *Sherbro*, built for Messrs. W. & T. LEAVITT, Merchants, of this City, under the inspection of Capt. W. LUNNAN, an old and experienced Ship Master. The *Sherbro* is pronounced, by good judges, to be a first rate vessel, and a credit to the builder.

DRAWING & PAINTING.—It will be seen by an advertisement of Mr. & Mrs. BERKELEY, that in addition to their classes for Young Ladies at 9 in the morning and 3 past 3 in the afternoon, they propose giving lessons to Young Gentlemen, from 3 past 6 to 8 o'clock in the morning—for the accommodation of those who cannot attend at other hours.

YARMOUTH HERALD.—The prospectus of a Paper to be published at Yarmouth, (N. S.) under the title of the "Yarmouth Herald, and Commercial Advertiser," was handed us last week, but its great length prevents our publishing it at present.—Messrs. L'ESTRANGE and JACKSON, proprietors of the *Yarmouth Gazette*, are the authors of the Prospectus.—The terms of the paper are to be 15s. in Yarmouth, and 17s. 6d. when sent by mail.—A subscription paper is in Messrs. WALKER & MACARA'S, Druggists.—We hail with pleasure every accession to the literature of our Province—convinced that nothing is so conducive to general prosperity as the wide diffusion of knowledge.

The ship *Ipewwell*, from *Mendel*, with a load of Timber, has arrived at Halifax!

On Thursday last, at 2 o'clock, the Mayor and Corporation of this City, accompanied by the High Sheriff and Coroner of the City and County, and several of the County Magistrates, waited on the Hon. WILLIAM BLACK, at his City residence; and presented the following ADDRESS, on his retiring from the Government of the Province, viz:—

To the Honorable WILLIAM BLACK, late President and Commander-in-Chief of the Province of New Brunswick, &c. &c. &c.

As the arrival of His Excellency Lieutenant-Governor Sir ARTHUR CAMPBELL, has caused your Honor to retire from the situation of President and Commander-in-Chief of the Colony—We, the Mayor, Aldermen, and Commonalty of the City of St. John, for ourselves and fellow Citizens, beg leave to present this Address, to evince the high respect we entertain for your just and impartial administration.

It must afford your Honor much gratification, in retiring from office, to know that you carry with you the best wishes of all classes for your happiness, and that of Mrs. BLACK and your family.

(L. S.) L. DONALDSON, Mayor. By order of the Common Council, J. W. BOYD, D. C. C.

To which Mr. BLACK replied as follows:— To the Mayor, Aldermen, and Commonalty of the City of Saint John, &c. &c.

GENTLEMEN.—On retiring from the Government of the Province, I feel highly gratified by the honor of receiving from the Mayor, Aldermen, and Commonalty, and my fellow citizens of Saint John, this public mark of their respect for the justice and impartiality of my conduct, while vested with that important trust.

To be assured, Gentlemen, that on withdrawing from office, I carry with me the best wishes of all classes for the happiness of myself and family, cannot but afford us cause of lasting satisfaction and gratitude.

WILLIAM BLACK. St. John, 22d September, 1881.

Nelson's Gazette gives the following comparative statement of arrivals, tonnage, and settlers, at Quebec, to the 12th Sept. of the last and present year:

Table with 4 columns: Vessels, Tonnage, Settlers, 1880, 1881. Data: 180, 617, 170,833, 23,556; 183, 732, 189,726, 44,616.

A notice, by authority, is published in the Royal Gazette of Wednesday last, authorizing Justices of the Peace and other Civil Magistrates in this Province, to enlist any Soldiers or others, desirous of enlisting, or re-enlisting, into His Majesty's service, and to put questions, administer oaths, and give certificates thereunto, according to the forms specified in the *Military Act*.—*Courier*.

GALWAY CURB.—On the 13th inst. a violent hurricane took place in the province of Galway, which, from its great violence and the damage caused, is unparalleled in the recollection of the oldest inhabitants of the province. Some of the walls in the *Moro Castle* have been rent, as also the magazines, and part of the walls of the *Military Hospital*; but fortunately no lives were lost, owing no doubt, to the unfortunate accident having taken place from half past ten to one in the morning. Seven vessels were wrecked in the harbor, besides others on the coast. In the country the spectacle presented is truly heart rending. Several persons lost their lives, besides all their crops. The inhabitants are in great consternation, and expressing apprehensions of a famine.—*Courier*.

Secretary's Office, Fredericton, 14th September, 1881. Persons having communications to make to His Excellency the Lieutenant-Governor, upon Provincial business; and all persons having official applications to make on their own personal account, will please to take notice, that all papers relating thereto, are in future to be transmitted to this Office, in order to be filed in the proper department, in due course, for His Excellency's consideration.

MARRIED. At St. Andrews, on Monday evening last, by the Rev. Jerome Allen, Amy Jane, Esquire, to Dorothy, second daughter of the late David Mowat, Esq.

DIED. On Monday, this morning, Mr. GEORGE BOSSART, eldest son of the late Mr. Richard Bossart, aged 46 years, leaving three daughters, to lament the loss of an affectionate and only parent.—He died on Friday, at 4 o'clock, from his late residence on the North Street, where the illness had continued for several days. He was a native of Scotland, and was in the 61st year of his age, on the date of his decease. He was a member of the first settlement of the Province, in the 18th year of his age, and was a member of the first settlement of the Province, in the 18th year of his age.
