whatever effect it may have upon the destinies of the country. Loxbox, 26th May, 1811. We are in a very duil way here—no business is doing in any direction. The countercial people are all complaining. All Stocks uninoveable; and as for American Stocks, I can serecly induce any body to listen to me, when I speak of them. All parties are preparing for a great contest at the Poils—a dissolution of Parliament being uni-versally looked for.

the contest. Commodore Napier,---Commodore Napier is to

Commoder Napier, ---Commoder Napier is to be brought forward as a candidate to represent Mary-lebone in the House of Commons. He announces the character of his polities as follows: "My political opinions are, Heileve, well known; but to avoid mistake, I shall state them shortly-wish to avoid mistake, I shall state them shortly-ine land; I wish to see the duration of parliament shorter-ad;the erra hws repealed; liberal commercial palicy adopted; and a general system of education es-tablished throughout the kingdom. and the poets of the island had been officially declarited to be in a state of blockade. E-partero had taken the onths as Regent of Spair, but had bitherto succeeded in only forming a pro-visional administration. The trial of Dames and his two accomplices, Duelor add Considere, for au attempt to kill the king on the 1 thi of October, commenced before the Court of Peers on the 21th of May, but the proceedings of the first day were merely formal. Duranes, on being added if he had shot at the king, answered "yes" without hesitation. It would appear that the interference of the Bri-tish Government had been solicited by that of Man-teride to bring about a termination of the difficulties of that Republic with Buenos Ayres and also that the french Government had been solicited by that of Man-me purpose. The plaque is increasing in Egypt, and the mor-tality from this and other faul ducases, in Gairs is estimated at 115 a cig. At Alexandrin, the deats were but twenty a day. The Ship William Bronn.—The consults of Bart facts which took place after the lass of the William Bown; from twe learn that the fingliful act of ar-ereficing some of the passengers in order to save the rest, is passified by the stern haw of necessity. Assu-red of the truth of this by the honorable represent-tives of the two nations interested, all animotiv-sing of check at night, when the following morning by at voted in the subset on glue to ease, and we can bri-stin a subset ought to cases, and we can bri-stin a while the stern haw of necessity. Assu-red of the truth of this by the honorable represent-tives of the two nations interested, all animotiv-sing avery in a site and alternative became accessary of and voted in the subset on glue to case, and we can bri-the flows and instance was in sight.

of opinion that the question might be more convenient. Insters and the Opposition might be more convenient. The London Spectator gives this account of the conclusion of the long debate on the sugarda-ties, and of Sir Robert Peel's skilful speech at is-close:— The debate on the Sugar duties, profracted be-yond all precedent, has been brough to a close and Ministers havo been enabled to add to the ad-verse majorities of 11 and 21 in their own. House of Commons, another adverse majority of 200, The dullness of the discussion after the first night-enlyened at wide intervals by some goldsend of an able or a telling speech, continued till the close ton trasted on their arms, but few caring to com-some dozen gentlemen on the other side who has mede up their minds to speak. The prospet to a fiftiling struggle on Tuesday stimulated thor-the debate resamed more than its first interests.
