Six Women Shot and Stabbed at the Annual Outing of a Colored Band in New York--One Man May Die.

NEW YORK, June 22--Shooting and stabbing affrays and fights of other descriptions followed the annual excursion of the Lewis and Clark Band, a colored organization in West Thirty-seventh street, between Eighth and Ninth avenues, which was held Thursday at Palisade Grove, New Jersey, opposite Yonkers. One man was taken to Bellevue Hospital suffering from stab wounds, and it was said he will die. Half a dozen women were either shot or stabbed. One had her hand crushed in the French Hospital and managed to jump out of a window and escape before the police arrived. Revolvers and razors were flashed in the face of the captain and crew of the barge when they tried to prevent the fights, and shots were fired over their heads when they tried to prevent four men, leaders in the fight, from escaping.

At nine o'clock in the morning, the Charles Spear, a large barge under the command of Captain John Scott, and a crew of five men, towed by the tug Neptune, left the pier at West Thirty-fifth street with about 600 men and women. Among the passengers was a large representation of the San Juan Hill and Hell's Kitchen gangs. Considerable liquor had been taken aboard, but when the barge reached the grove there was only a little left. Immediately after the party landed there were numerous fights and the men divided themselves into parties, and by noon there was fighting all about the grove, and men and women were stabbed and shot.

Captain Scott and the captain of the tug blew their whistles, calling a halt to the fighting of the men and women to the barge. When Captain Scott gave orders to leave there were about half a dozen men unconscious in the grove. As the barge left the pier revolvers and

MARK TWAIN IS CUTTING A WIDE SWATH IN BRITAIN

American Humorist Was King Edward's Guest at Garden Party Today.

LONDON, June 22--King Edward, on hearing that Mark Twain had arrived in England, sent him an invitation to attend the royal garden party at Windsor Castle today.

Mr. Clemens was completely surprised at this mark of the monarch's hospitality but said "he guessed he would have to accept."

When he met the king he will undoubtedly be invited to take luncheon with the royal family at Buckingham Palace. The veteran humorist received a doz-

Public Square Filled With Bodies of Dead and Wounded-- Mob of Civilians Fought Troops for Hours--Spirit of Revolt is Widespread.

NEW YORK, June 22--A Paris dispatch to the Times today says that despatches received there last night from Lisbon by way of Madrid report that popular hatred of the system of government by decree instituted by Premier Franco after the dismissal of parliament in the beginning of May has had its outcome--barricade fighting between the troops and the people and much bloodshed.

The premier made a journey from the capital to Oporto in the hope of obtaining a popular endorsement of his policy but at every station between Lisbon and Oporto crowds hissed and booed the train as it passed.

Oporto received the premier with crepe banners in place of flags, and yells and insults instead of the hoped for cheers.

When the dictator returned to Lisbon there was a furious riot outside the railway station. Cavalry charged the mob and industry fired into it. The officers' commands were drowned by cries of "Death to the dictator." Revolvers were freely used by the crowd and a young officer was mortally wounded.

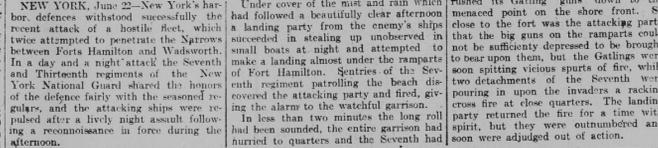

A neighboring square was filled with killed and wounded left out in rags. The principal fighting occurred under the windows of the Hotel D'Angleterre. Several English visitors witnessed the struggle. It is said that the people fought for hours with sticks and stones against the soldiers who fired volleys.

Women with their aprons filled with stones supplied missiles to the men and urged them on. Republican leaders harangued the people to revolt. Barricades were built and cafes invaded, the mob breaking up furniture for their extemporized fortifications. The chief Lisbon cafe was completely destroyed. The mob fought with great fury undismayed by the volleys of the troops.

Thursday was a day of mourning for the dead. All the newspapers appeared with deep black borders and on business offices and private houses flags were flying at half-mast and windows were draped with crepe. Last night the troops were again firing on the people in the public squares. Most serious events are expected. The spirit of revolt is widespread. The censorship is strict.

Thunder of Battle Echoes Across Narrows at New York as Harbor is Held Against Enemy.

DOING PICKET DUTY ON JHOSE ROAD, FORT HAMILTON

SEVENTH REGIMENT, WAITING FOR LANDING PARTY AT FORT HAMILTON

NEW YORK, June 22--New York's harbor defenses without successfully the recent attack of a hostile fleet, which twice attempted to penetrate the Narrows between Forts Hamilton and Wadsworth. In a day and a night attack the Seventh and Thirtieth regiments of the New York National Guard shared the honors of the defense fairly with the seasoned regulars, and the attacking ships were repulsed after a lively night assault following a reconnaissance in force during the afternoon.

Under cover of the mist and rain which followed a beautifully clear afternoon a landing party from the enemy's ships succeeded in stealing up unobserved in small boats at night and attempted to make a landing almost under the ramparts of Fort Hamilton. Sentries of the Seventh regiment patrolling the beach discovered the attacking party and fired, giving the alarm to the watchful garrison.

In less than two minutes the long roll had been sounded, the entire garrison had hurried to quarters and the Seventh had

mashed its Gatling guns down to the moored point on the shore front. So close to the fort was the attacking party that the big guns on the ramparts could not be sufficiently depressed to be brought to bear upon them, but the Gatlings were soon spitting vicious spurts of fire, while two detachments of the Seventh were pouring in upon the invaders a racking cross fire at close quarters. The landing party returned the fire for a time with spirit, but they were outnumbered and soon were adjudged out of action.

Major Massey who is at the head of the company will join them at Sussex. The corps looks after the work of the camp, erecting the baking ovens, slaughtering cattle, etc.

Other St. John men will go up on Tuesday with the 8th Hussars and the Army Medical Corps.

There will be a sacred concert in the Every Day Club hall as usual tomorrow evening.

HOW WOULD YOU LIKE TO HOLD A BLOCK OF THIS BANK STOCK

NEW YORK, June 22--Directors of the Fifth Avenue Bank, of No. 339 Fifth Ave. have "cut a melon" for their stockholders per cent, calling for the distribution of \$150,000. The extra dividend will be paid on July 1, when the regular quarterly dividend of twenty-five per cent is due. In all a dividend of 75 per cent will be paid to the stockholders on the first and next month. The bank was formerly known as a Russell Sage bank, although the stock-

holders are pretty well scattered. It has a capital stock of \$100,000, a surplus of a similar amount and undivided profits of more than \$1,000,000. It has frequently paid handsome extra dividends in addition to its regular dividends of 100 per cent a year. In 1905 for example, it paid an extra dividend of 100 per cent, 120 per cent in 1904 and 100 per cent extra in 1906. The present extra dividend of 150 per cent A. S. Friesell, the president, says, will come out of the earnings of last year.

and the replied that it was from her husband. "You're a liar," said he, after hearing the answer. He went up stairs and called the complainant up. "There is a pack of cards, I am going to tell your fortune and I will tell you whether or not you got that letter from your husband," said Hamilton. Mrs. Jones said that he could not tell fortunes and that ended it.

On Thursday Hamilton asked for the loan of the complainant's umbrella, which was handed to him. Yesterday he asked for the watch and chain, and she refused to give it to him. He walked into the room, however, and removed it from beneath the pillow. She had a pocketbook containing \$1 and Mrs. Jones alleges that he also took that and went out with money and watch. He returned the watch, but denied taking the money. In cross-examination Mrs. Jones admitted that Hamilton had borrowed the watch Tuesday last. The prisoner was remanded.

DIFFERING VIEWS ON JAP QUESTION

Tokio Says Japanese Feeling Against United States is Dying---Manila and New York Report Alleged Jap Plot to Capture Philippines.

TOKIO, June 22--There is every indication of an early collapse of the anti-American agitation. The efforts of the progressives to utilize the movement to further their political ends has been met by a formal declaration on the part of the conservatives, who are strongly supporting the government. A similar statement has been made on behalf of the unionists.

While this latter utterance is somewhat critical in its remarks on Viscount Hasegawa, the party's leaders express the conviction that a proper settlement can be obtained through diplomatic channels. Their failure to get the co-operation of these parties has precipitated a division among the progressives, a strong faction refusing to endorse the policy of Count Okuma and his party.

A committee on financial interests is working actively to suppress the agitation. The financial situation is bad. Most stocks are at bottom prices and several smaller banks have failed. Runs on others have occurred, and there are also signs that Japan's financial agents abroad have given warnings against the consequences of continuing agitation.

The latest phase of the situation is a movement to induce the chambers of commerce to organize for the diversion of exports and imports from San Francisco to Seattle.

MANILA, June 22--Existence of a scheme to create pro-Japanese sentiment among the natives, especially in the northern sections, has become evident, and the government is watching the actions of certain Japanese who have married Filipino women and are living here.

Arrests are possible if the developments expected take place. Throughout the island provinces there prevails the belief that if Japan seizes the Philippines she will give them independence under her protectorate. This tends to make Japan popular among the native population.

NEW YORK, June 22--Captain Stephen L.H. Slocum, U. S. A., Thirtieth Cavalry, of the general staff in the Philippines, was "passing" on the Koenig Albert, of the North German Lloyd line, from Genoa and Naples, and although he would not talk of the situation in the Far East, as he is on his way to Washington to report, Mrs. Slocum, who was with him, had something to say in regard to the Japanese.

"It may not be generally known," said Mrs. Slocum, "but in the East it is believed that Japan is behind the movement in India among the natives to revolt against British rule. Great Britain knows this and it is discussed among the officers stationed in India."

When Mrs. Slocum was told of the war talk in this country in reference to Japan, she said: "There may be more in that than you think. In the Philippines it is said that the Japanese stand ready to buy 60,000 soldiers into the islands at a moment's notice and they are only awaiting the chance."

That the American soldiers are having a hard time of it in fighting the hostiles was stated by Mrs. Slocum, and she told of the terrible deaths of a party of twelve soldiers who were captured by the natives, buried to their necks in the sand and had their heads eaten off by white ants.

TOKIO, June 22--A joint meeting of five chambers of commerce was called for today to consider and pass resolutions on the American question, but owing to the inability of representatives from Kioto, Kobe to arrive in time, the formal meeting was postponed. The absence was, however, expected early next week. The chambers of commerce to be represented are those of Tokio, Osaka, Kobe, and Yokohama. It is apprehended that the subject of commercial retaliation though it might come up for discussion, will not assume any definite form. Most careful deliberation is expected before any resolution is given final form.

JOHN D. ROCKEFELLER'S NAME DIDN'T SAVE HIM

Arrested for Speeding His Auto His Chauffeur is Fined.

TARRYTOWN, N. Y., June 22--John D. Rockefeller was arrested for speeding yesterday just after he had given orders to close the gates on his Pocantico Hills estate because of the reckless driving of chauffeurs.

While coming up from the city Mr. Rockefeller was driving a spin along the State road at Elmston at a rate of thirty miles an hour when he was held up by Constable Bunsmeier, who brought the car to a stop by stretching a rope across the road.

As Mr. Rockefeller poked his head out of the car door Bunsmeier said: "You are arrested for exceeding the speed limit."

"Newspaper row" Canterbury street, presented an animated appearance this morning and the arrival of a large body of men in khaki uniforms at the armory of the Canadian Army Service Corps No. 7 drew an interested crowd of onlookers to the scene. The company which is in charge of Captain Harley Grass and Lieutenants Fred McKeon and Herbert H. Smith, comprised about sixty men and they left on the noon train for Sussex where they will make preparations for the annual camp which opens on Tuesday next.

Major Massey who is at the head of the company will join them at Sussex. The corps looks after the work of the camp, erecting the baking ovens, slaughtering cattle, etc.

Other St. John men will go up on Tuesday with the 8th Hussars and the Army Medical Corps.

There will be a sacred concert in the Every Day Club hall as usual tomorrow evening.

undoing of the gang of burglars, which for six months has terrorized the wealthy colonies of Nassau and Suffolk counties. Schang named his pals and said that they had secured loot valued at between \$50,000 and \$80,000. About \$20,000 worth of the plunder was recently recovered.

In describing the methods employed he said that when he and his two accomplices entered a house they would invariably squirt ether through the keyholes of the bedrooms in which persons were sleeping, so that the occupants might be affected by the fumes, and the robbers could conduct their operations without being disturbed.

THE TIMES NEW REPORTER

TERRIFIC SPEED. The speed with which the new wet side wharves are being built gives color to the expectation that they will be ready for business inside of two years. This gives great satisfaction to everybody. It was feared that it would take three months after the site of one of them was dredged before it would be finished, but there is a danger of any such delay. It can easily be completed in less than two years, and the other one also. Indeed the board of works may take steps to delay the work a little, but the speed should value friction and burn up the contractors.
