UNIQUE FEATURE
OF MEETING OF
PYTHIAN LADIES

A unique feature of last night's meeting in Pythian Castle when more than one hundred women decided upon instituting another Temple of the Pythian Sisterhood in the main section of the city, was a long-distance telephone conversation with the supreme chief, Mrs. Elizabeth J. Hutchinson, of Portland, Me. The meeting desired some firsthand information which only a prominent official could furnish, so the telephone was resorted to. "Central" made a hurried search through the State of Maine for the prominent Pythian lady, whose exact address was not known as she lived in a suburb of Portland, and before the meeting adjourned a verbatim report of her message was read to the St. John women. This intimate impromptu touch with the supreme body of the Pythian Sisterhood lent a special enthusiasm to the gathering.

Mrs. Hutchinson expressed her pleasure at the growth of the Pythian Sisterhood in St. John and remarked that she claimed to be the "mother" of the order in this section of Canada, having instituted the first temple some years ago when supreme senior and she hopes to be able to visit here again in the near future. She is to institute a new temple in Lee, Me., tonight. There are now 200,000 Sisters in the supreme domain of the United States and Canada.

At last night's meeting thirty-three non-members were enrolled as constituent members of the proposed new temple and seventy signified their desire to join by transfer cards in order that they be enabled to enter more actively into the work because of nearer meeting quarters. At present there is only one temple in the city, Loyalist Temple No. 19 of North End, which will celebrate its first anniversary next month. It has 323 members.

Mrs. Guy G. Watters was the provisional chair officer and Mrs. E. E. Thomas, secretary pro tem. Committees were appointed to attend to duties leading up to the formal organization of the temple upon a date not yet fixed.

MARKED SUCCESS
OF OPENING DAY

Many Examined at the Clinics This Morning.

More Than 35 Present Themselves at One Place—Reference to the Results—Will Carry On After Time Set, if Necessary.

To judge by this morning's results, the case-finding campaign of the St. John Association for the Prevention of Tuberculosis, which opened today, will be an unqualified success. Long before the doors were opened at the four health centres in various parts of the city, a queue of people were waiting for the examination. The waiting rooms at the Prince William street and Main street centres were filled to overflowing, and many had to be sent away with a request to return at another time. More than thirty-five prospective cases reported at the Prince William street clinic, but the examination of only about a dozen was completed.

Dr. H. A. Farris, superintendent of the St. John County Hospital, who is co-operating with the visiting specialists, Doctors Craig, Miller, Carnichael and Schinawitz, said at noon today that altogether some fifty or sixty cases were examined. About ten of these only were found to be suffering from tuberculosis, none of them, however, in an advanced stage, with possibly one exception, and that was of a woman who was more than sixty years of age. Ten or fifteen other suspected cases were sent to the county hospital for X-ray, the result of which is not yet known. In addition to the tubercular cases, several cases of adenoids and tonsillitis were discovered and in a few instances the only maladies from which the patients suffered were over-eating and lack of exercise.

Dr. Farris said that some who presented themselves for examination were confident that they were not afflicted with tuberculosis. He said that these people should not come to the clinics, as the time taken in their examinations might better be spent examining those who were suspected of having tuberculosis.

Miss C. M. Inglis, nurse expert, who is supervising the campaign, said this morning that the doctors and nurses were kept busier than they anticipated. She looked forward to a successful campaign.

Asked regarding what plans the association had made for subsequent action after the campaign had closed, Dr. Farris said that the cases discovered would first be referred to the family physicians, to get them interested in the campaign. The local dispensary would keep track of all cases and offer assistance and treatment where required. All the milder and curable cases could be treated at home, he said, and arrangements would be made for hospital treatment of those who required it.

In the event of the inability of the four centres to handle all the cases in the three days for which the campaign was planned, arrangements will be made to carry on after that time. Some of the specialists who came here for the first two days only, have agreed to remain over for a day or two if it is found necessary. The original plans were to have the clinics open today, tomorrow and on Thursday from nine to twelve in the morning, and from 2:30 to 5:30 in the afternoon. The centres are located at 108 Prince William street, 387 City road, Carleton Curling Rink, Rodney street, west, and 538 Main street.

The following was the address read by Mr. Davis:—

Brother J. J. McGillivray, The pleasant duty has been assigned me by my work mates of presenting you this token as an evidence of our lasting esteem, friendship and love. When in future days you look upon this memento, let it be a pleasant token of deepest love and affection of all our hearts. Wishing you the greatest of pleasure for years to come and the best of luck for all times.
