CITY LEAGUE**  
Good Scores and Some High Averages at Black's  
Rambler Winners—McIntyre High Three String Man and High Average Winner—Gamblin High Single String.  
Statistics of the City Bowling League competition on Black's alleys during the winter months have been compiled. They show that some good scores were made and that on the whole the bowling was consistent. The Ramblers won first prize, the Sweeps second and the Thistles third. R. McIntyre won a cup for the highest average. Harry Sullivan won one for the second highest average. T. L. Wilson won a watch for the third highest average and W. Riley won a cup for the highest average on the winning team. The high average bowler on the five losing teams received a cash prize. A consolation prize for the lowest bowlers on the teams was won by Allan Beattie.  
The following figures show the standing of the teams, their total pinfall and average pinfall per game, as well as the number of strings bowled by individual players and their averages:

**IMPERIAL**  
Unquestionably the Most Profoundly Thrilling Tale  
of German U-Boats Yet Filmed  
THOMAS H. INCE presents  
**HOBART BOSWORTH**  
**"BEHIND THE DOOR"**  
A Paramount Artcraft Picture  
LADIES AND GENTLEMEN OF ST. JOHN—Here we have a pictorial drama of the most powerful character imaginable—the very topmost height of suspenseful thrill. It is the tale of a man named Krug, suspected of being of enemy sympathy, but in charge of an Allied transport. His boat is torpedoes and his bride kidnapped aboard the German U-boat. How he gained revenge for this crime upon his wife is the most remarkable triumph in filmed dramatics. Thomas H. Ince has ever produced. The wartime atmosphere, the belly sea, the submarines awash and exciting thrills to safety and the never-to-be-forgotten scene in the captain's cabin, will create a veritable sensation. Blaise picture people themselves accord this film the thrill-palm of the year.  
**NERVOUS AND HIGH-STRUNG PEOPLE, STAY AT HOME!**

**A CHALMERS**  
with a New Beauty of Body  
It is new, will no doubt be widely copied in another year, and expresses the finality of beauty. It is "cut" high in the front at the radiator line, and low from the windshield back. You sit close to the ground; the side line is considerably lower than in any previous Chalmers.  
Underneath the body is the same unchanged Chalmers chassis that is well nigh faultless. Hot Spot and Ram's-Horn continue in their original and masterly way to get out all the power that nature put into gas, though the complaints against the present grade of gas increase daily. There's a limit to the supply of the new Chalmers, but there seems to be no limit to the number of those who insist on one. As a word of warning—see this new Chalmers immediately.  
Seats are lower, tilt more; you sink into the seat cushion, and you have abundance of foot room, front and rear. In detail this new body possesses a completeness, a finality that seems impossible to improve upon.
