RECIPROcity MATTERS

Tariff Agreement Now Launched on Stormy River of Public Debate in States—Roosevelt Favors It—Endorsement by Ontario Liberals

(Canadian Press)

Washington, Feb. 13.—The Canadian reciprocity bill has emerged from the quiet pool of the house committee on ways and means, and has started on the stormy river of public debate.

The only change in the McCall bill which was reported by the house ways and means committee on Saturday, was a clerical one in its constitution but important in its result. The paper and pulp clause is removed from the reciprocal list in the center and made a separate section, thus having the effect of being an endorsement of this country alone.

"Paperwood is made free," he said, "and any product of pulpwood up to four cents a pound is free from any part of Canada."

Whitby, Ont., Feb. 13.—South Ontario Liberals, after listening to addresses from H. E. Fowler, M. P., and other prominent liberals on Saturday night, expressed their approval of the reciprocity tariff agreement.

PRES. FOREST TO LEAVE DALHOUSIE

Dr. Magill Likely Successor—Strothard Denies Forgery and Will Fight for Rights

Our charter also embraces numerous provisions which are applicable to safe-guards, among these may be mentioned, the three most important, the referendum, the initiative and the recall. With this power of direct legislation, the people become the dominant factor, while the politician, the corrupt politician, the idle or indifferent public officer ceases to exercise the beneficent influence formerly exercised under the old plan.

You cannot legislate good sense into the electorate, but you can give to the public and the taxpayer a system which will enable them to express readily their sentiments and with this power of expression being given, you can stimulate the city citizen; spathy is succeeded by interest and initiative is supplemented by civic pride.

From a financial standpoint, the result has been almost amazing. Taxes are decreasing, but permanent public improvements have been fourfold greater. Efficiency in public service has redoubled. Merely a higher standard obtains, and among the business men a spirit of co-operation has developed which insures to Des Moines unprecedented commercial expansion.

AKA'CHISTS' PLOT TO KILL TWO KINGS HAS BEEN DISCOVERED

(Canadian Press) Rome, Feb. 13.—An anarchist plot, that had for its aim the assassination of King Victor Emmanuel of Italy and King Peter of Serbia, has been discovered by the Italian and Austrian police.

The police believe that the plot was hatched in London and New York. The first steps were taken in London, but the crusade resulting from the battle of Stepney so disturbed the plotters that, according to the Italian police, they fled to the city of Rome.

The conspiracy was to have been consummated in Rome when King Peter visited here. Lots had been drawn for the work of detail, the police believe, and Roussea, who is still at large, had been chosen to throw the bomb which was to kill the two kings. He was to be aided in his work by an Italian anarchist named Daniel, who is now being sought.
