

FORMER LEADER DECLARES N.B. HAS PROFITED

(Continued from page 9.)
The former Premier said that there had been many difficulties in the way of the hydro development and he declared that certain monied interests had refused to develop the water powers and had also worked diligently to prevent the Government from going ahead with the work. The interests had at one time even penetrated into the executive council chamber to thwart the government in its efforts.

WILL QUIT LEGISLATURE

Hon. Dr. Foster in opening his address said he would not again seek a seat in the Legislature, but while he was discussing the hydro policy he modified that initial statement considerably.

"I will not be a candidate unless the Opposition propose to carry on their campaign of criticism of the Musquash development," said Hon. Dr. Foster. "If I see an effort is to be made to abolish and take away from the people what I have fought for in the matter of cheaper power then I will be a candidate and will be prepared to go on the hustings defending the hydro record of my own government and the government now led by Hon. Mr. Veniot. I can never sit idle and allow a policy which has meant so much to Saint John and to the people along the Kennebecus valley, and saved so much money to the citizens of Saint John, to be attacked and thrown aside."

LEADER GIVEN DARE

In this connection Hon. Dr. Foster invited the leader of the opposition to go to Saint John and there meet him on the public platform making the same criticism of Musquash in that city as Mr. Richards had uttered in the House. Hon. Dr. Foster also declared that one of the opposition candidates in the forthcoming general elections would be Mayor P. L. Potts, of Saint John, and the former premier quoted from addresses of Mayor Potts to show that he was a great advocate of success of the Musquash development and would therefore be out of step with his leader on the hydro policy.

PAPERS PRAISED

Great praise was due The Telegraph-Journal and Times-Star newspapers, Dr. Foster said, for their campaign in placing the aims of the Maritime Provinces before the people of Canada. Dr. Foster claimed that a saving of \$294,328 had been made for the people of Saint John by the Musquash development while there were 11,000 satisfied customers today.

DORCHESTER HANGINGS

The Legislature, during the afternoon, adopted a resolution introduced by Hon. L. G. Hand urging that in the future all executions in the Maritime Provinces be carried out at Dorchester. This motion brought the first division of the House when the motion was carried 30 to 14. The opposition to the resolution was led by F. L. Estabrooks, M. L. A., for Westmorland, who made a strong plea for the regulations concerning the death penalty remain as at present. Many of

WORN OUT MEN AND WOMEN SOON REGAIN STRENGTH

The nervous system is the vital force of your body. The force that gives energy to every organ and every muscle. So great is the power of the nerves that a tremendous shock, such as fear, may cause death.

A lesser nerve shock will pale the cheeks, make the knees tremble, cause the heart to beat wildly or almost paralyze breathing.

To keep our vitality and strength we must nourish the nervous system. When we restore lost nerve power we quickly regain lost strength!

Nervous, exhausted men and women can soon regain their nerve force and

as they rebuild their nerves they see the signs of returning vigor. Wincarnis gives to the nerves the very elements they must have to be nourished back to energy. For fifty years this nerve restorative has reinvigorated those who were weak, thin, pale and so discouraged that life seemed to hold no real happiness.

If you need more nerve power go to your druggist today and obtain a bottle of Wincarnis. Wincarnis is so effective that only three tablespoonsful a day need be taken.

Try Wincarnis and see the difference just a few days will bring.

Letters to The Editor

THE W. C. T. U. FOUNTAIN.

To the Editor of The Times-Star: Sir,—In reference to the proposed site for the Soldiers' Memorial at the head of King street: I would like to draw the attention of the citizens to the fact that the present memorial fountain at this spot was the second erected by the Saint John Women's Christian Temperance Union, through the generosity of the late Mrs. W. W. Turnbull, their president, who was also president of the Provincial Women's Christian Temperance Union.

Therefore the permission to remove the fountain comes from the local branch of the W. C. T. U. This permission was given when the drive for the Soldiers' Memorial was first started. Any further permission regarding this matter can readily be had from the Saint John branch of the Women's Christian Temperance Union.

MRS. HOPE THOMSON,
President, W. C. T. U.
Saint John, April 3, 1925.

Piping crows, natives of Australia, can whistle and talk, and are bold enough to attack men and dogs.

KNOX SERIES ENDS

Chain Tea Held by Ladies' Society Draws Large Attendance.

The last of the series of chain teas of the Ladies' Society of Knox Church, was held yesterday afternoon in the

church hall and was largely attended. The teas have been held in connection with a drive for members and have been very successful.

Mrs. McLaughlin, general convener for the series, was point convener with Mrs. Frank MacNeill in taking charge of yesterday's affair. Decorations of spring flowers made the room look especially attractive.

Mrs. R. Moorhead Legate and Mrs. Alexander Jardine presided over the tea table and young people assisted in the serving. Mrs. E. Bissett and Miss F.

Dunham delighted the gathering with vocal solos.

Potato Inspection Likely In Force This Fall

FREDERICTON, April 2.—Inauguration of a system of shipping point inspection for potatoes in New Brunswick will likely be undertaken this fall, according to word received here

tonight from Hon. W. R. Motherwell, Minister of Agriculture in the Federal Government.

BLACKHEADS

Get two ounces of peroxide powder from your druggist. Sprinkle on a lot of wet cloth and rub the face briskly. Every blackhead will be dissolved. The one safe, sure and simple way to remove blackheads.

NO "SALES" and only one price!

—A Policy that built up the largest made-to-measure, one-price tailoring organizations in the world.

After all, is there really any good, sound economic reason for a "Sale?"

Suppose a suit of clothes is actually worth \$24. Is there any reason why you should have to pay \$35 for it if you buy it in September or wait till January and—(after being told with a great blare of trumpets that it means a "tremendous saving" to you)—get it for \$22.95?

Wouldn't you rather pay \$24 for a \$24 suit when you want it—and be able to get it at that price—ANY TIME IN THE YEAR—in season or out of season?

Tip Top Tailors think that the average man would. That was the policy on which their business was founded fourteen years ago in a very small way. And that is the policy that has made it, within that comparatively short time, THE LARGEST ONE-PRICE TAILORING ORGANIZATION IN THE WORLD!

We are making the very best quality of men's made-to-measure clothes our vast tailoring organization can possibly produce to sell at \$24—and we believe it's the very best clothing value any man can obtain anywhere in Canada.

Tip Top Made-to-Measure Clothes are not "cheap" clothes. The price is extraordinarily low for their fine quality because of the vast business we do and because of our policy of specializing on one price and one price only, and having just that one price throughout the entire year.

If they were, is it likely that more than one million men would have worn and be wearing them—men in all walks of life, who appreciate good value and who know what they are getting for the money they spend?

If they were, is it likely that men would come back to Tip Top Tailors year after year? For by far the greatest percentage of Tip Top sales are "repeaters," men who have bought Tip Top Clothes once and will continue to buy them always because they have been thoroughly satisfied and have saved money.

If they were, is it likely that we would have built up, within fourteen years, the largest one-price tailoring organization in the world?

All great business leaders have. But the men who know value, who insist on it, won't be misled. When they want a Suit, Topcoat, Overcoat, Tuxedo or Evening Dress Suit made to their measure at a fair price they know where to go.

They know they can choose from well over 800 materials, made up in any style they want, to fit them perfectly, if they come to Tip Top Tailors. They know that at Tip Top Tailors they can get REAL VALUE and REAL SATISFACTION or their money back.

We were right then.
We think we are right now.

Tip Top Clothes are not "Cheap" clothes.

Of course we have a host of imitators.

A Hard-Service Varnish for a Hundred Uses

A varnish that can be used for almost any purpose—from brightening up the piano to rejuvenating a threshold—is something unusual. When, in addition, it stains and affords durability to an unusual degree, and gives a brilliantly smooth, lustrous surface besides—then you have something of an accomplishment in varnish making.

That is Murphy Da-cote Universal. It is made in six wood colors and is so durable that a dent in the wood

won't break it. Hot water, alkali—even strong ammonia—And it makes all surfaces smile with renewed youth. It's simple to apply too. A varnish and stain in one, it can be applied by anyone, quickly, without difficulty, and with absolutely satisfactory results. It dries overnight. There are surfaces in every home that need Universal—floors, linoleum, trim, furniture—it makes them all look like new.
