

THE TROUBLES IN TORONTO JAIL

WITNESSES GIVE EVIDENCE BEFORE COMMISSION

It is Hinted That Religious Prejudice is Real Root of Dispute Among Guards.

Toronto, Dec. 19.—Testimony relating to disputes and quarrels amongst fifteen guards of the Toronto jail was heard from witnesses after witness at the investigation into the conduct of Governor Van Zant before Commissioner Judd today.

Further evidence was given to effect that prisoners were given tobacco in violation of the rules, while the regulations regarding visitors had not been enforced on many occasions.

Regarding the evidence against Van Zant, it was stated by Mrs. Jennie Ingram, ex-assistant matron of the jail, that the governor had attempted to embrace her, but she had resented his approaches.

Commissioner Judd adjourned further hearing of evidence until January 15th, but will make personal inspection of the jail premises to-morrow.

LABOR COUNCIL MEETS. Rumor of Importation of Machinery From England to Be Investigated—Anti-Tuberculosis Fund.

Last evening the Victoria Trades and Labor Council held a meeting in Labor Hall. Delegate Watters occupying the chair in the absence of President Gray.

The executive reported that it recommended a five years' release of Labor hall by virtue of the opinion now held by the trustees.

Another report was received from a special committee which had been appointed to investigate the rumor that the B. C. Marine Railway Company intended to import the machinery for the new government hydrographic steamer from England instead of having it made in the home works, as had been understood when the company obtained the contract.

The Trades Congress appealed for funds to carry the case of the Toronto Metal Workers' Union appeal against the judgment given in their lawsuit with the Metal Workers' Company in the Ontario Supreme court to England.

NEW SHIPPING COMPANY. Formed in Japan With Capital of One Million Dollars.

New York, Dec. 20.—A dispatch from Tokyo to the Times says: "A new shipping company has been formed in Japan. It already possesses a fleet of 150,000 tons. Its capital is \$1,000,000, of which half represents the value of the existing fleet. The remainder is to be devoted to building new ships. The company intends to establish services to Formosa, Hokkaido, Java, West Coast of China, Hongkong, Manila, Hawaii, America and the South Seas and India."

GOLD RESERVES. British Government Will Probably Take Some Action When the House Reassembles.

London, Dec. 20.—Sir Felix Schuster, member of the council of India and governor of the Union of London and Smith's Bank, Ltd., in an exhaustive paper on British finance and gold reserves, read last night before the Institute of Bankers, emphasized the inadequacy of the gold reserve held in England by comparison with the much larger reserves held in other countries of Europe and the United States.

AIRSHIP WILL SOON BE COMMON

AND FRANCE PREPARES TO SOLVE NEW PROBLEMS

Commissioners Have Been Appointed to Elaborate Plans to Meet Changed Conditions.

Paris, Dec. 20.—So confident is the French government that the day is only a short distance off when aerial locomotion will be practical that several commissions are at work elaborating plans for meeting the various branches of the public service the solution of new problems which the evolution will entail.

Capt. Ferber, of the French army, who is devoting all his time to aerostatics, and who conducted the negotiations on behalf of his government with the Wright Bros., agrees with Santos Dumont that flying machines in a few years will be as common as automobiles to-day.

"Human mastery of the air," said he to the Associated Press, "is virtually achieved. None of the startling achievements of the past, neither steam, electricity nor the telephone, can compare with what the future holds in store for us. Not only will the life of individuals be revolutionized, but governments will be compelled to devise in almost every department new methods to meet the changed conditions. This change will come with amazing suddenness, and France is taking precautions to meet it. In the customs service, present methods of watching the frontiers will be obsolete. Aerial patrols will be necessary to prevent smuggling across the border."

The police of all countries will have to be provided with flying machines in order to protect the people from the new opportunities of crime which aerial locomotion will place in the power of criminals. It would seem that flying machines would enable anarchists to achieve any end by threats against not only rulers but whole cities. With the police sailing about in the air it will be no more difficult to frustrate their plots than it is now on solid ground. In war time the intelligence service claim to be already equipped with the principal of flight, that is area of aeroplane surface and speed. He contends that the dominion of the air at present enjoyed by birds will be only obtained as a result of a slow process of evolution comparable in a way to the slow perfection of the present means of flight.

PATHETIC CONDITION OF MR. CHAMBERLAIN. New York, Dec. 20.—A dispatch from London, says: "The long retirement of Joseph Chamberlain, owing to gout and other ailments, has led to constant assertions and contradictions regarding the gravity of his condition. The Chronicle states that he greatly overtaxed himself at the celebration in honor of his 70th birthday in Birmingham with the result that he lost his memory completely, the past became a blank to him, and he could not remember what had taken place even a few hours before, and although his other faculties were and are unimpaired, his memory is gone."

BANK LOOTED. Two Robbers Made Their Escape With Four Thousand Dollars.

Texarkana, Ark, Dec. 20.—The Bank of Horatio, Ark., was looted by two robbers yesterday afternoon of \$4,000. Several shots were fired at the fleeing robbers, who escaped.

Everybody Agrees

that COD LIVER OIL and IRON are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the OIL) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed this is not to be wondered at. Physicians everywhere have fully endorsed FERROL and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and

REALTY MARKET STILL VERY BRISK

PROSPECTIVE CHANGE IN CITY'S APPEARANCE. Active Business Reported on All Hands, and Unprecedented January Influx of Investors Expected.

(From Thursday's Daily.) Although no deals of exceptional interest are recorded in this morning's market, still there is no falling off in either the inquiry or the demand. The snow storms in the interior of the Dominion have delayed the arrival of many intending investors, but it is thought among local agents that the New Year will see an unprecedented influx of the seekers after land.

The progressive outcome of the present activity is already making itself felt in a marked manner. On all sides lots are being cleared, buildings are rapidly being run up, and the Victorian of years to come will have considerable difficulty remembering his city as it used to be in the days gone by.

W. Ridgeway Wilson has in hand the remodeling of the business of North-western block. A new arrival in the city has leased the saloon, while two other stores have also been rented. In a month's time the business of North-western block will be completely changed.

Building and improvement work will shortly be undertaken on the Behnsen farm in North Saanich. This has been purchased by S. P. Johnson, a local man, who gave for it a sum of \$3,000. Several acres of the Reay estate, now situated in North Saanich, have been sold to local investors.

James Love & Co., although they can only date a ten days' existence as real estate agents in Victoria, have already put through a considerable amount of valuable property in the course of a few days this firm intends opening a branch office in Vancouver. This is being done in order to handle the business of North-western investors, who arrive in Vancouver before reaching this city.

Yesterday this firm negotiated the sale of six lots on King's road. These passed to local investors, and altogether reached a sum of \$2,000. This morning four more lots in the same neighborhood were sold for \$200. These also were bought up by local men.

A feature of the market at present is the demand among the Chinese for acreage within the city limits. Many of these who are capitalists are snapping up land on all sides, and they are regarded among the local agents as very shrewd investors.

DIVIDEND SEEKERS BUSY. Green-Worlock Estate Pays Twenty Per Cent. On Ontario Chees. Awaits Protestant Orphanage.

Throughout the day a continuous stream of dividend seekers passed to and from St. Tronca avenue. The occasion was the payment of a dividend on the Green-Worlock estate.

In 1904 the bank of Green-Worlock & Co. suspended payment. Shortly afterwards a dividend of 5 per cent. was declared, and again at the beginning of this year one of 25 per cent. The present dividend is one of 20 per cent, making in all 50 per cent.

By 1 o'clock to-day a sum of \$12,000 had been paid out by the trustee, B. S. Heisterman, in the case, yet, however, numerous cheques awaiting the quondam customers of Green-Worlock & Co., and the trustee expresses the hope that these will be called for before Christmas. Some of the funds of the Protestant Orphanage have been invested in the now defunct bank, and there is at present a cheque in the neighborhood of \$250 awaiting this institution at Tronca avenue.

PREPARATIONS FOR THE ELECTIONS

CONSERVATIVES ARE SELECTING CANDIDATES

News of the Political Campaign in Province Which is Now Becoming Interesting.

Apparently in anticipation of an early announcement of the dissolution of the local legislature the Conservative party is putting its candidates in the field. The latest one to be nominated was D. M. Eberts, K. C., for Saanich riding. At a meeting held at the Royal Oak school house last evening he was formally named as the representative of the Conservative party for the contest in that constituency.

Mr. Eberts, who has been cultivating the riding in anticipation of this for several months past, called upon the rank and file to sink all difference and come to the support of himself and Premier McBride.

This appeal, it is said, was absolutely necessary, as there is a strong feeling against Mr. Eberts among the Conservatives in the riding, and the soft words of a few months' time will not efface the previous record.

The present last evening at the meeting Hon. R. F. Green, to assist in arousing the enthusiasm of the party and to show that the government heartily endorsed the nomination of Mr. Eberts.

The Esquimalt riding of the work of preparing the way for the nomination of Hon. C. E. Pooley next week is being carried out. Mr. Pooley is anxious to run, although many of the Conservatives in the constituency feel that he cannot carry the riding.

Premier McBride spoke at a meeting held at Methosin last evening in the interests of Mr. Pooley. H. Dallas Helmeck, K. C., was also present, and spoke in support of the Conservative policy.

J. H. Hawthornthwaite, who is in the city, announces that there will be Socialist candidates in nearly every constituency. He says that W. J. Ledingham, of this city, will likely be the candidate in the Islands. There will be eight or nine Socialists in the contests on Vancouver Island, while on the Mainland as many as 15 will enter the fight. Some time ago Mr. Hawthornthwaite prophesied that there would be eight or eight Socialists at least in the House. Fernie he counts as a sure thing for his party, and there will be other gains he feels confident on the Mainland.

A dispatch from Vancouver says that J. W. Weart, law partner of Joseph Martin, was nominated to-day to oppose F. Carter-Cotton for the next provincial election.

BACK FROM VANCOUVER. Dr. Milne Returns After Consulting With Mr. Robinson, Sent From Ottawa.

Dr. G. L. Milne, Dominion immigration officer, returned from Vancouver last night where he went by request to confer with Mr. Robinson, who had been sent out from Ottawa to inquire into the conditions of the Hindus at Vancouver, over which there had been considerable fuss made. Dr. Milne says that he did not find a great many of the Hindus in the Terminal City, the major number of those who had come on the steamers some weeks ago having been pretty well distributed over the province in the interval.

At Vancouver the doctor met his wife, who came through from the East yesterday. She has been six weeks away from Victoria, during which time she has been visiting in Philadelphia, Toronto and Woodstock. On her trip West the only delay encountered was that of a day at White Fish, where a bridge had been burned. There were no snow blockades, but through the Territories the weather was very cold, and in some places there were three engines attached to the train on which she travelled. For the purpose of keeping up the required amount of steam necessary for the making of time.

CARNEGIE'S PARTNER DEAD. Henry McCrory Passed Away at Wilkesburg—A Noted Inventor.

Pittsburg, Pa., Dec. 20.—Henry McCrory, brother-in-law of President W. E. C. Corry, of the United States Steel Corporation, and one of the junior partners of Andrew Carnegie, died at Wilkesburg last night.

Mr. McCrory was master roller of the Homestead mills at the time of the strike in 1892, later being connected with the first mill in the country to make armor plate. He there was associated with Mr. Corry and Charles M. Schwab, all figuring in the congressional investigation of the furnishing of armor plate to the government in 1894. He also made several important inventions.

FATAL FIRE. Four Persons Perished in Apartment House at Buffalo.

Buffalo, N. Y., Dec. 19.—Four lives were lost and one person was fatally burned in a small fire in the Zenobia apartment house on Prospect avenue at the corner of West Huron street to-night. Other occupants of the house being narrowly escapes, half a dozen being rescued by the firemen. The dead are F. M. Lombrecht, 45 years old; Mrs. Lombrecht, his wife, 40 years old; Ruth Cromlish, 3-year-old daughter of Mrs. C. Cromlish; Mrs. J. J. Fisher, of New York; Charles Beum, salesman for Wood & Co., of Buffalo, was fatally injured. The blaze was small and was quickly brought under control by the firemen. The financial loss is estimated at less than \$5,000.

BLOOD POISON. On account of its terrible effects, blood disease is called the king of all diseases. It may be either hereditary or contracted; so while it may not be a crime to have the disease, it is a crime to permit it to remain in the system. It may manifest itself in the form of Scrofula, Eczema, rheumatic pains, stiff or swollen joints, thickening of the skin, eruptions or blotches, sores in the mouth or on the tongue, sore throat, falling out of hair, diseased stomach, and a general depression of the system. If you have any of these symptoms don't neglect yourself. You have no time to lose. Beware of "old cures" treatment—beware of mineral poisons—beware of Quacks and Fake. DR. Death Camouflaged. SAD ENDING TO A YOUNG TRIP FROM ENGLAND WITH TRIALS OF NATURE.

(From Tues. A singularly sad, folded by the inquest. Mrs. Jones was 40 years of age, and had been married to her husband for four years. She was a native of England, and had come to this city as a nurse in an auctioneer's office. She was a very kind and gentle woman, and was very popular among her friends. She was found dead in her room on Thursday last. The cause of death was asphyxiation by gas from a gas stove. The body was found in a room which had been closed for some time. The gas had accumulated to a dangerous level, and had caused her death. The inquest was held on Friday last, and the jury returned a verdict of death by asphyxiation from gas.
