SAFE AND SURE. In 1872 your Vegetine was recommended to me and yielding to the persuasion of a friend, I consented to try it. At the time I was suffering from general debility and nervous prostration, superin duced by over work and irregular habits. Its wonderful strengthening and curative properties seemed to affect my debilitated system from the first dose; and under its persistent use I rapidly recovered, gaining more than usual health am good feeling. Since then I have not hesitated to give Vegetine my most unqualified indorsement, as being a safe, sure, and powerful agent in promoting health and restoring the wasted system to new life and energy, Vegetine is the only medicine I use; and as long as I live I never expect to the I use; and as long as I live I never expect to find a better. I can cheerfully recommend it to any one in need of such a medicine.

The past season has been favorable, in respect to the quantity of rain, just enough having fallen in most parts of the state to satisfy even the farmers and cause them to pause for a while in the exercise o what is conceded to be their privilege, the world over, I suppose. Strawberries are familiar feature in the many fruit stalls and have been so for some time. Fruit is not offered here in great variety but what is lacking in that particular is made up in abundance and cheapness.
