FIRES-On Thursday evening a fire broke out in the millinery establishment of the Misses Cummings, Market Square, but was extinguished with little damage. Some hours later another fire occured in the

Saw mill owned by Gass Stewart & Co near the Marsh Bridge, Notwithstanding the exertions of the fremen the building was totally consum-ed. The fire is supposed to have been the work of an incendiary. A reward of \$2000 is offered for his apprehension. New BUILDINGS --- Messrs, Ennis and Gardner

signation of all the members of the Government except Hon. Charles Fisher, in consequence of BREACH OF PROMISE CASE .- This interesting Fisher's having obtained Crown Lands in case, Smi h vs. Clementson, which occupied the court for six days, was concluded by a verdict violation of the regulations of the C. L. Depart-ment. Mr. Fisher, it is understood, defor the plaintiff. Damages assessed at \$4000 and costs :-- amount claimed, \$20,000. Much interest was manifested by the public generally clined to resign his office in the government as requested by his Colleagues preferring to run the chance of being called upon to form another in the result of this trial. Wat-ters, Brown, Steeves, Steedman, Mitchell, Smith and Wa k, were not accepted by the Gov-error and it seems to be understood that Fisher will be dismissed by His Excellency the same as any other public official. Of course, the Gov-ernor must act in this matter with the consent of his Council and no doubt the announcement years our c tizens have been devoting more atof his Council and no doubt the announcement that will be made in the House this afternoor manufacture of wollen and cotton goods, at will show that he has done so and that Mr. Mis, eck are meeting with great success. Before long, in all probability, our importations of the coarser descriptions of wollen and cotton prove that Mr. Tilley of to day, contradicts Mr. Till y of 1858 with regard to his Crown ands. FIRE AT BUCTOUCHE.-- A fire occurred at that thriving village last week, attended with a large turving vinage isst week, attended with a large amount of loss. The large three story building occupied by Mr. Atkinson, with all its contents, was totally destroyed, and there is no insu ano. Several other buildings were also much injured. held in Coverdale Parish, and a Company formed held in Coverdale Parish, and a Company formed for the purpose of writing this Bridge. A sub-scription list is to be opened for subscribers, and a petition for aid sont to the Legi-lature.

A RARE DISCOVEY .- The Head Quarters contains the following. During the latter part of last week, Messrs. Shaw and Segee, while engaged in lumbering operations in the New Maryland Settlement, were attracted to a large hollow pine by a hum ning noise. Struck by the strangeness of the circumstance, they at once felled the tree, and discovered a nest of tame bees about 50 feet from the butt, from which they extracted 84lbs. of pure hon -y. That portion of the tree containing the bees is safely secured in which a large quanity of honey still remains undisturbed

NEW TELEGRAPH CABLE .-- The Telegraphic communication with the Continent having ceased since the destruction of the Cable, the Islanders are anxious to have a new one laid. Ross's Weeklypremarks :--- "The probability is that unless

our Legislators do something in the matter, the in habitants of P. E. Island will hereafter be deprived of the benefit of telegraphic communica tion with the mainland." STEAM TO CASCUMPEC .--- The people of Cas-

President Lincoln has taken up his resident in the White House. From Arkan sas we hear that delegates have been elected for a Convention. The ruling sentiment of these the Little Rock Gazette says will be as follows

" Believing that the institution of slavery ca be better protected, better perpetuated, and have more expansion under the broad folds of the national flag, they will go for remaining in the Union if the rights and honor of the South can he there maintained ; if not, they are for cooper-ative action with the States of Kentucky, Tennessee, and Missouri.

Of Missouri there is no doubt. At the State Convention the following is said to have occur med : ---

Mr. Glean made a speech, stating the clauses that had induced Georgia to seeche, and urging Missouri to follow her example. His remarks were greeted with hisses and hooting from the lobby.

Menday Afternoon. GOVERNMENT MATTERS. This afternoon about 4 o'clock, Hon. Mr. Fisher, and Hon. Mr. Tilley made explanations about the position of the Government; from watch it appears that Mr. Fisher was first requested by his colleagues to resign but refused. The other members of the Government then tendered their resignation to the Governor stating at the same time, that had Mr. Fisher re signed the other eight could have carried on the business of the country. The G vernor and Mr Fisher had some correspondence, Mr. Fisher re-questing that the Governor would allow him as Head of the Government, to reconstruct the administration, which his Excellency respectfully declined to do. The Governor meanwhile declined to accept the resignation of the eight members, and called upon Mr. Tilley to take the necessary steps for going on with business. The Executive Council than requested the Governor to dispense with the services of Mr. Fisher as Executive Councillor, and Mr. F. was notified to that effect. The Government stands in the same position it did before, with the loss of Mr. Fisher and without an Attorney General, whether the vacancy will be filled up during the present Session is uncertain, though the chances are against it.

against it. A mass of correspondence between the Gov-ernor, Mr. Fisher and the other members of the Governments was laid before the house, em-bracing the above facts. Mr. Fisher and Mr. Tilley made some important remarks. Good feeling seems to exist between all parties. The opposition seems considerably taken back by the able management of the Government.

MR. 'TILLEY'S POSITION .- The St. Andrews Standard, a Conservetive paper, contains the following:--" The investigaton" completely ex-onerates him (Mr. Tilley,) and is certainly a thorough vindication of his character. The ef-forts of those who seek to damage him in the public estimation, have failed-miserably failed. An honest man can stand any amount of misrepresentation and come out unscathed."

THE CENSUS .- The Census of New Brunswick TER.] TER.] forning Freeman" 14th mat., certsin weidence, given mittee on " Land wholy unwarrent-the trouble to con-wing as I do that will be taken very short'y. The Schedules has been published in the Royal Gazette but in no other paper. This is not as it should be. In Nova Scotia every newspaper is publishing the necessry information on the subject.

Grave charges have been brought against him, which have been investigated by the Governor, as V isitor, and the Senate of the Unversity. It is said that the greater portion of the students have refused to remian if the Presid nt is retained in his position.

SHUBENACADIE CANAL .-- It is said that Mr lackie, late of the firm of Johnston & Blackie, contractors, has taken the contract for costruct ing the additional locks &c. required at Dartmouth, for the completion of the long talked of Shubenacedie caval. Mr. Blackie is well known in New Brunewick.

POST OFFICE AT MALIFAX .- The Clerks in this Department have petitioned the Government for an increase of salary. Their memorial is strongly recommended by the Postmaster General and has been placed before the Post Office com-mittee. It will probably be favourably considered.

FREDERICTON.-In addition to the startling levelopements of doings in the Crown Land erous for free trade; the latter wishes protection. Even in individual States disunion exists to an alarming extent. Many of the counties in Georgia and Alabama bordering on Kentucky and Tenessee are in favour of the Union whi

Meanwhile they have not been able to obtain the recognition of any foreign power, and none will do this until the Government of the United States sets the example. But Lincoln expressly states that it is not his intention to acknowledge the Government at Montgomery in any way. He

must therefore be compelled to do so !---and now with clashing interests, jealous of each other, disunited, entirely dependent upon the North for almost everything they consume, finding that England will not be so great a slave to cotton as they imagined, unable to find sympathy in any portion of the civilized word, with the terrible incubus of slavery in their m'dst,

they talk of war ! They spend days and nights in inventing some new symbol to take the place of the "immortal fowl,"-they devote much wise consultation with regard to flags, embleme motions and coats of arms-'hey talk of conquer ing (after they have put down Lincoln) Mexico
