OAK HALL MID-SUMMER SALE

The Sale Hundreds of St. John Men and Boys Have Been Waiting for Starts Thursday Morning

This will be the best Mid-Summer Sale we've ever had. It will be best because our vastly increased business this season meant much larger stocks and we consequently have more goods to close out. It will also be best because our values this season were, considering the advanced cost of material and labor, by far the best we've ever been able to give, and consequently in buying at this sale you will get more for your money than you ever got before.

There are sizes to fit all men, young or old—short or tall, stout or slim—and all boys as well.

WHY COMMANDER PEARY'S ENTHUSIASM DOES NOT FLAG

(Continued from Page 1)

DO NOT HUNT FOR SPORT.

Mr. Peary said he did not look on the hunting they did as sport or a pastime. "I never take the life of an animal unless we need it for food," he said. "While I have killed twenty-five musk-ox in one day—with twenty-five cartridges—it was because our leader needed replenishing. Other days I have passed whole herds of musk-ox without shooting one."

When asked whether his attitude on this subject extended to big game shooting, such as moose-hunting, for sport, he said: "Well, I used to be very fond of it but I imagine that after some of my experiences in the north I would find it rather uninteresting now."

THE ESQUIMAUX DOGS.

On his last expedition Mr. Peary brought south with him a number of Esquimaux dogs. These have been kept at his summer home at Etah Island and the number of dogs has been increased by breeding. Some of the dogs are going back to the Roosevelt but some still remain behind.

In explanation of this Mr. Peary said: "You know the Esquimaux dogs are used in the north for hunting Polar bears. Some of my friends have got the idea that with training they might be used for hunting the grizzly and cinnamon bears in the United States and I am going to give them the chance to make the experiment. The dogs are in reality white wolves and a fight between a pack of them and a big grizzly bear should give as exciting sport as could be desired. There are four males in the pack weighing a hundred and ten pounds each and every ounce of that weight is bone and muscle."

LOTS OF APPLICANTS.

There are many people who want to accompany Mr. Peary on his adventurous trip to the Arctic regions. "Every mail I get," he said, "contains letters of application from people of every age, class and condition. Ninety-nine out of every hundred show on the face of them the unsuitability of the writer."

The selection of the crew is left to the skipper who usually chooses them from among the Newfoundlanders as they are particularly adapted by their training for Arctic work. The other members of the expedition are chosen by Mr. Peary himself with special attention to the requirements of each post.

QUALIFICATIONS NEEDED.

"The first requirement for work of this kind," he explained, "is that a man should be absolutely sound physically and mentally. The next quality necessary is that a man should have sand and endurance. He must have an even temper and a sanguine temperament. He must be able to get along without kicking and growling. He must be willing to take things but not forego and keep his face clean. I always try to choose men who do not drink or smoke. I do not do either myself, not from principle but because in Arctic

work a man is better off if he is not dependent for his comfort upon such things."

SYDNEY, N. S., July 14—The Arctic steamer Roosevelt was sighted coming into Sydney this morning at 11:45. The Roosevelt is commanded by Capt. Bartlett, and will remain here for several days to be fitted up for her trip to the north. The steamer Eric has loaded coal and is still awaiting the sailing of the Roosevelt.

LONDON KNEELS AT

MAUD ALLAN'S TOES

Graceful Canadian Dancer Has Captured Theatregoers—May Marry Wealthy Englishman

LONDON, July 14—The furore over Miss Maud Allan's dancing is still at its height. The "Johnnies" and some others are at the Canadian dancer's twinkling feet. All the chairs at the theatre where she is dancing are soon three weeks in advance of each performance.

Miss Allan was asked to Premier Asquith's party at his official residence in honor of the King's birthday. Always at these crushes the royals, diplomats and high officials seclude themselves from "hot spots" in a room apart. But on this occasion Miss Allan had a little court of her own; duchesses, countesses and other fashionable women and numbers of her devoted male admirers were presented to her and she did not put on any frills. Latest rumour has it that Miss Allan is engaged to marry young Rawlinson, a wealthy member of one of the oldest Catholic families in England, who was supposed to be a suitor for the hand of the Marquis of Ely's sister.

It lends an Oriental glamour to Miss Allan's dancing to repeat another report—that the Maharajah of Nepal, who has seen some dancing, is "madly infatuated" with her. Undelivered for Miss Allan, Nepal has a Maharajah, and she would be only one of his dancing girls.

CHICAGO, July 14—A despatch to the Tribune from Berton Harbor says that after having shot and fatally wounded James Kirk, August Gross yesterday barricaded his home and now is standing off an armed posse which seeks to capture him. Gross is said to have firearms.

BIG DAY FOR THE SCHOOL CHILDREN TOMORROW

FLANNAGAN WINS HAMMER

THROW, MAKES A RECORD

(Continued from page one.)

FLANNAGAN WINS HAMMER

THROW, ESTABLISHING RECORD

Walsh, of Canada, won in the first section of the hammer throw with a throw of 159 feet, 1 1/2 inches. Talbot, American, second, 157 feet, 14 inches. Lemming, Sweden, third, 141 feet, 3 inches.

Only the men who make the three best throws in all sections will compete in the final.

In the second section of the hammer throw, Nicholson, England, made 157 feet, 9 1/4 inches. Horr, American, 154 feet, 1 1/2 inches. Pyke, England, 152 feet, 6 1/2 inches.

In the third section of the hammer throw, McGrath, American, threw 167 feet 11 inches, breaking the British record. Flanagan, American, threw 165 feet, 2 1/2 inches, and Gillis, American, 149 feet, 6 1/2 inches.

Walsh, Canada, McGrath and Flanagan, United States, qualified for the final.

In the final, Flanagan finished first, with a throw of 170 feet, 4 1/2 inches, beating the Olympic record. McGrath was second with a throw of 167 feet 11 inches, and Walsh, Canada, third, 159 feet 1 1/2 inches.

When the result of the hammer throwing was announced, it being the first final of the fourth Olympiad, the stars and stripes were run up on the arena flagstaff to announce that the United States had gathered in the first event to be decided. There was a great burst of cheering from the American sections of the stand as the flag broke out. Canada joined in, for Walsh won the bronze medal.

THE 3000 METRE WALK.

G. E. Lerner, of the United Kingdom team, easily won the first heat of the 3,000 metre walk in 15 minutes, 32 seconds. H. E. Kerr, Australia, was second and W. J. Palmer, England, third. In this event the first three in each heat qualified for the final.

E. J. Webb, England, won the second heat in 15 minutes, 17 1/2 seconds. In this heat Quinn, England, finished second and Rotham, Sweden, third.

Goulding, Canada, won the third heat in 15 minutes, 33 seconds. Harrison, England, was second and Rowland, New Zealand, third.

THE 20 KIL CYCLE RACE.

The first heat of the twenty kilometre cycle race was won by Meredith, England, in 33 minutes, 21 seconds. C. Kingsbury, England, won the second heat, in 32 minutes, 33 1/2 seconds. The third heat was won by Weints, United States, time 32 minutes, 39 seconds. Heavy showers which followed the fine weather of the beginning interfered with the last events of the morning meeting, including the third heat of the twenty kilometre bicycle race. In the first heat of this contest, Weints, United States, and Young, Canada, alternately held the first two positions. Weints won, time 33 minutes and 39 seconds. The fourth heat was won by Jones, England, time 32 mins., 39 secs. Cameron, United States, was second.

SHEPPARD WINS THE FLAT RACE

The final of the 1500 metre flat race was won by Sheppard, American. The second heat was won by England, and Hallows, England, was third. Sheppard's time was 4 mins., 25 1/2 seconds. He equalled the best time made in the preliminaries yesterday. This was done by Hallows, who, by making the distance in 4 mins., 25 1/2 seconds, set a full 2 seconds off the record made at St. Louis in 1904.

The fifth heat of the 20 Kilometre cycling race was won by Hansen, Sweden, time 24 mins., 53 1/2 seconds. In the draw for the three mile time race the United Kingdom, Italy, Holland and Germany were down for the first heat. This insures a victory for the United Kingdom.

In the second heat are Canada, United States, France and Sweden. The first two men in each heat qualify for the final.

The weather continues good. The attendance at the stadium is not large.

The final of the 800 metre walk was won by Lerner, England; Webb, England, was second; and Kerr, Australia, was third. Time of the winner was 14 mins., 45 seconds.

JAPANS NEW CABINET TO

BE ANNOUNCED TODAY

TOKIO, July 14—The announcement of the formal appointment of the new cabinet is expected this evening. A reshuffling of the department of finance and considerable retrenchment in armaments will be two principles of the policy of the new cabinet. The premier and others opposed to the constitutionalists will support the new government, and it is believed that a considerable number will secede from the constitutional party and give their allegiance to the government, though no party will easily secure a majority in the lower house.
