CLOTHING THAT FITS

A collar that sets in the rear shoulder that draws or "puckers" around the sleeve, a coat-front that wrinkles badly after a few weeks' wear—these defects are as noticeable as conspicuous misfit of coat or trousers.

With Century Suits are fitted with as much care as though each wearer stood in the factory watching the work. They are not fitted to YOU, of course, but they ARE fitted to a man of your size, weight and physical make-up. Fitted to a MAN, mind you, not merely to a "dummy."

And in addition to perfect fit the smoothness and faultless "set" of every part is insured by the most painstaking tailoring.

Superb suits await your selection here. \$18 to \$27. Others made especially for us, \$19 to \$29.

Fall Overcoats, as well as the suits, \$12 to \$27.

HOLIDAY MAKERS HOPING FOR CLEARING WEATHER

The Last September Holiday—Ball Games the Chief Attraction and They Depend on the Weather Man.

Several leading business houses are today observing the last half-holiday of the season. A number of the merchants extended the holiday period at the first of the season. There are a number of attractions on the programme.

Fine weather only is needed to make the baseball matches on the Victoria grounds between the Worcester and Marathons teams a big drawing card. A double header will be played and there should be a large turn-out of the fans. Both teams will present strong line-ups and the Marathons intend to make the New England champions work hard for victory.

The Robinson Opera Company will be heard both afternoon and evening in Fra Diavolo. The moving picture houses will be in full swing. The Victoria Roller Rink will also draw a large patronage owing to the weather conditions.

OLD BILL NEARING END OF HIS CAREER

Best Fire Horse St. John Ever Owned

Even Now, Broken Down and Weakened, He Pluckily Responds to Every Alarm.

It is only a matter of a short time when the fire department will lose one of the best animals they have ever responded to an alarm. To say one of the best horses that was ever in the department is big talk, but all who are acquainted with old "Bill," the gallant little bay on Salvage Corps No. 1, know that the city never owned a namer or faster running piece of horse flesh.

During the past year or more Bill has become somewhat tender forward and a few months ago it was decided that he should be superannuated as it were, and given a nice quiet time on a farm for the rest of his existence.

A new horse was purchased to take the place of Bill, on the Salvage Corps wagon, and although he has been trained to the ways of a fire horse, he is not fit for real duty as he has been ill for a couple of months and is being nursed in the hospital in No. 2 Station.

In the meantime Old Bill seems to be taking in the situation, and although it hurts, he may be seen, responding to an alarm just as game as ever. He seems to know that nearly every alarm that he responds to may be his last and he is just showing the good stuff that he is made of.

Besides being one of the best horses in the department, Bill is the cheapest. He was a five year old when purchased on Prince Edward Island about twelve years ago. The Island is the breeding spot of many a good piece of horse flesh and there was no mistake in Bill's breeding. The city became the owner of Bill for the sum of one hundred and twenty-five dollars, he was given to No. 1 Salvage Corps, where he has been since he left his island home. The little fellow weighs about 1200 pounds and the grumpy and fast way in which he runs to a fire has been on many occasions remarked especially when it is shown that the wagon and contents which he hauls weigh about 2400 pounds. A ton weight is quite enough for any horse like a good one. He is a clever and to out-run other horses in the department, is a feat worthy of only a few such horses as Bill.

The constant care that has been taken of Old Bill has had a lot to do with his success. He has never been neglected, never abused and has always been the pet of the men. The new Bill is a young horse looking like a good one. He is a clever and a strong runner, and cost twice as much as the old fellow, but of all the horses that will be purchased and that have been in the department, to the driver and members of the No. 1 Company there will be nothing to equal "Old Bill."

125 ENTRIES FOR THE DOG SHOW NEXT WEEK

Opens in Queens Park on Thursday—Entirely Fewer But of Better Class—Puppies a Feature.

Over one hundred and twenty-five dogs have been entered for the dog show which opens in the Queens Park on Thursday under the auspices of the New Brunswick Kennel Club. While not so many as in former years held here the dogs are of a much better class. Many who exhibited at the show and got no prize have not entered for Thursday. The show will continue for three days, ending September 28th.

Spratt's, Limited, of London, Eng., through their Canadian agents, will look after the feeding of the animals and with the new style of kennels this canine family should be well cared for. The kennels are a great improvement over those previously used. They are built in sections which can be taken apart and stored for future use. They are well made and sanitary.

Many puppies will be exhibited giving dog fanciers an opportunity to well chase some unusually good stock. This feature will also prove interesting to the children.

A superintendent will be in charge of the show whose special duty will be the care of the animals.

Those on the show committee include Col. Blain, L. B. Wilson, McCollough, H. Bailey, J. H. Sheehan and H. D. Patterson.

As yet the committee are undecided about who shall do the judging, having been in communication with two competent men, but they expect to hear this afternoon or Monday. Both men have had considerable experience in judging and are large breeders.

CLOTHES AND THE MAN

According to a medical specialist there is no such tonic for worn nerves as a new suit of clothes. The more fact of being smartly dressed, he says, is a strong mental stimulant, and the man who is shabby and knows it, is often less capable than his well dressed mental inferior. To the average man shabby or ill-fitting clothes are a source of constant worry, which frets away his energy and takes the keen edge off his wits.

The general impression is, I think a rare one, that the man in a disgraceful hat, baggy-kneed trousers, and a shocking coat, who can appear self-poisoned among a number of smartly dressed people is either a millionaire or a man of extraordinary brain power. Few men can get along successfully in life without the moral support of smart clothing. C. B. Pidgeon, corner Main and Bridge streets has the clothing that will keep you feeling right.
