BRETON INDUSTRIES.

If the speeches of Sir Wilfrid Laur- less be of some interest to St. John ier and Mr. Fielding seem to be hostile people. The official said : to the proposal to increase the iron All this talk about Montreal and St. John All this talk about Montreal and St. John and steel duties it does not follow that the government will refuse the in-crease. The chances are altogether the other way. Behind the iron and steel interests are political influences which have great weight with several minis-ters, and local influences which have great weight with Mr. Fielding. If the industries are really in difficulty and danger the case is one that calls for prompt action, if action is taken at all. The collapse of these works or even the partial suspension of opera-tions would have a serious effect on the financial situation. These considersa-tions are embarrassing the govern-ment. On the other hand, an increase in the protection on industries using these products as raw material. It is difficult and steel duties it does not follow that being able to handle the Grand Trunk ter
