SLAIN BY LIFELONG FRIEND FOR LAUGH

Young Man is Shot and Killed for Chaffing Companion Over a Billiard Game

PRISONER'S MOTHER FAINTS

Falls in Swoon Beside Son as He Drops Unconscious When Told of Victim's Death.

New York, Nov. 15.—Charles Ward, twenty-one years old, of 151 Prospect street, Brooklyn, was shot and instantly killed by his lifelong friend, Daniel Mulvaney, twenty years old, of 57 Fulton street, in a billiard room at 130 Fulton street at 8 o'clock last night.

One hour after the shooting Mulvaney was arrested by Detectives Ward and Cunningham, of Brooklyn, in a saloon at 12 Chatham square.

Ward's laugh cost him his life. "Three days ago he and I were playing billiards, and I was laughing at him as he was laughing at me," Mulvaney said.

Playfully Ward uttered a loud "Ha ha!" when Mulvaney pulled a revolver from his pocket and shot him through the brain. Ward died instantly.

Still brandishing the revolver, Mulvaney backed out of the room and ran.

His home address the Fulton police station was given by the detective who knew him and his name in Manhattan. When they arrested him in Chatham square he admitted that he had made a statement in the court of law.

As he was taken in the Fulton street station his mother was standing outside, having been attracted by the crowd. She did not know who the prisoner was, although she had heard that a murder had been committed. Up to the moment Mulvaney was taken to the station she remained in the room, but when she saw the man taken away she fainted.

Mr. Mulvaney, who has been spending some weeks with his parents, has now left for his home in Brooklyn. He is a member of the crew of the ship "The Royal Mail," which is now in the harbor.

MR. WHITE TELLS OF BIG PLANS HE HAS FOR ROCKWOOD

Buckboard Line To and Fro--Boating, Band Concerts Beach Resort Attractions and Other Features--Wint Sports, Too, to be Encouraged There.

Provided only that a reasonable amount of public support is accorded to him, Mr. White will make Rockwood Park the centre of attraction it was intended to be. He has outlined a comprehensive scheme of amusements which includes band and gramophone concerts, boating and fishing in Lily Lake in the summer and accommodations for skating and snow-shoeing in the winter.

"The chutes" is also a feature of the scheme. Besides these Mr. White will provide such performances as are to be found at the fashionable beaches of New England and upper Canada.

In conversation with a Telegraph reporter Friday Mr. White outlined his plans. He said that he presumed the street railway people would take advantage of the offer of the Horticultural Association to enter the park with their lines. "I'll do so," he continued, "arrangements will be made for a line of buckboards to leave King square to take passengers to and from Rockwood for five cents each way. Work will be started as soon as the snow goes off in the spring.

The Horticultural Association has deemed it advisable not to allow any fishing in the lake next summer but the privilege will go into effect in 1908. It will be necessary for some member of the association to permit from some member of the association and Mr. White will keep rods, fishing tackle and boats for hire at a reasonable price. There are quite a large number of fish in the lake but the size of the string each man can secure will be limited. In this connection Mr. White thinks

great credit is due G. S. Fisher for the interest he has taken in Rockwood Park. That gentleman, he says, has devoted a large portion of his time for years to planning improvements in this great natural playground. It was largely on his initiative that the chain of artificial lakes has been made and the system by which the waters of Lily Lake in the summer and also one of his projects. Mr. Fisher has taken great pains with the fish in Lily Lake. He has protected their spawning grounds against the incursions of the water fowl and now, Mr. White says, there are many trout there weighing three pounds. Every effort will be made to have the park and rustic architecture in time to open on May 21. Mr. White says it may be necessary to use the tea house for a time, although not a permanent scheme, to furnish lunches and ice cream during the day. Later in the season attractions will be brought from the factories in the States and upper Canada, the programme for these being changed every week. The location of the "shoot the chutes" has not yet been decided definitely.

Mr. White's agreement with the Horticultural Association runs for ten years from May 1 with the privilege of a renewal for ten years if everything is satisfactory. All his plans must be approved by the directors who shall also decide upon their own estates will be supplied with water for the children, such as are common in the artificial lakes in the parks of Montreal, New York and other large cities of America.
