FORT GARRY, Manitoba, July 21. Grasshoppers appear in myriads in this Province. They have destroyed the early crops in New Palestine and White Wind Settlements from their western limits. At last accounts they were drifting in the direction of Lake Manitoba; they have got fifteen miles this side of Pembina, and are entering the Province from all directions. Their advent has already created great depression. Unless the Dominion Government comes to the aid of the settlers great destitution will result. Lieut. Governor Morris telegraphed to the Dominion Government to procure provisions and distribute them along the Dawson route.

The ex-Attorney General of Manitoba was mobbed for his official action in the Gordon-Gordon affair, at St. Paul, last night, and it is feared that he has received fatal injuries. None of his assailants have yet been arrested.

The Grand Masters report that by compliments St. John lodges, Pioneer being called the "Banner Lodge."

Officers will be elected to-morrow. The proceedings are very interesting, and harmony prevails. The reception by Orient Lodge, of Halifax, is very flattering to the delegates. At 9 p. m. the representatives were entertained by Orient Lodge at a grand banquet in Heeslein's Hotel. One hundred plates were set, M. G. B. Howell presiding. The spread was magnificent, and was enjoyed for four hours. Speeches were made by a number of brothers in response to sentiments, and the company separated, the strangers expressing themselves delighted with Orient's reception. Mr. Fellwell's Lectures. A lecture by Rev. Mr. Fellwell, Rector of St. Paul's Reformed Episcopal Church, Moncton, will be delivered at the Mechanics' Institute this evening, subject: "The Present State of the Protestant Episcopal Church in Great Britain and America, and the Necessity for Reform." No charge will be made for admission. Chair taken at eight o'clock. Mr. Fellwell has made a very favorable impression in Moncton and other places by his preaching and addresses, and, as great interest is at present manifested in the movement of which he is the pioneer in this Province, no doubt a large and intelligent audience will greet him this evening.

The Y. M. C. A. Building—Its Safety Guaranteed. One of the gentlemen connected with the Y. M. C. A. called to-day and thanked us for the opportunity, given by a paragraph in yesterday's Tribune, for dispelling the doubts about the safety of the building. The committee in charge have had the structure and its foundations examined by Mr. Stead, Mr. Cornick, Mr. Brass, Mr. Smith and Mr. Flood of St. John, and by Mr. Blair, of Boston, all well qualified to form a correct judgment, and all were unanimous in pronouncing the building perfectly safe as it is at present. The front of the building is seven inches over of plumb, the most of which is in the lower story, caused by the leaning over of the pillars that support the front wall of the rest of the wall being nearly straight. The walls are well bound together with iron, and the front wall might fall without carrying away the flooring or the main building, we are told. Since the foundation was thoroughly drained, and one corner of the foundation strengthened by additional masonry, the building has not settled any, as is shown by the fact that the clock has not required readjustment since last summer. Inducements were offered the proprietor of the adjoining lot to build, the Association engaging to pay for the support that would thus be afforded the building, but the offers were not accepted. It is the intention of the Association, as soon as the plate glass fronts that have been ordered from

England arrives, to have the columns of the lower story straightened; it is believed that the structure will then be secure from the danger that apparently threatens it.
