Ladies, Attention!

READ THIS AND SAVE MONEY ON YOUR SHOES

This is an opportunity that may not occur in Glencoe again in some time. A chance to get shoes for yourself and the children at away below the actual cost. We purchased a full manufacturer's line at greatly reduced cost.

He needed the money. We had it so we got the Shoes to sell to you as bargains and you may rest assured they are bargains.

One line of Ladies' Oxfords. They always sell at from \$3.50 to \$4, but to close them out you can have a pair for \$1.98. These are made of the best leathers by expert workmen and make a dressy shoe. Why, at this price they would be cheap for wearing around the house.

Then we have a lot of White Canvas Sandals for little girls. They will make ideal footwear for August and September. A pair of these will cost you only 74 cents.

Every Other Shoe in the store to be sold at 15 per cent. off.

PERSONAL MENTION

High Constable Peter from Aurora, Illinois. He faces a charge of stealing a horse and buggy from a Bothwell liveryman five years ago.

The death is recorded at Detroit of Andrew Carmichael, whose wife was formerly Miss Mary McAlpine, of Glencoe, daughter of the late Malcolm McAlpine.

For about the twentieth time in the recollection of the Transcript the Glencoe brass band has been resuscitated. We hope this time it will stay resuscitated.

Farmers with wild berry patches on their premises complain that they are being indiscriminately robbed by trespassers who seemingly have no regard for the rights of the owners.

The second edition of Bulletin No. 17 of the Federal live stock branch, entitled Swine Husbandry in Canada, has been issued, and may be had on application to the Publications Branch of the Department of Agriculture at Ottawa.

Rev. N. D. Keith left for his home in Red Deer, Alberta, on Monday after spending a couple of months with his brother and sister here, and in other parts of Ontario in the interests of the ladies' college at Red Deer, of which he is principal.

Thomas Oaks, for past twelve years a porter in the Roche House at Watford, and also a porter for R. R. McKellar, at the McKellar House, for a number of years, has failed in health and is now an inmate of the house of refuge at Sarnia.

A traveller from Toronto says the lot of unmarried men in that and several other Ontario cities is getting pretty hard these days. They are being thrown out of employment and for many of them, it will be a case of starve or go to war.

Old and spare razors are now being collected for the use of the troops in Europe. Thousands of these useful instruments are being turned out, and it should not be difficult to supply the soldiers with large quantities. If you have one to spare leave it at the Transcript office.

The marriage took place at the residence of the bride's parents in Regina recently of Edward Porter, son of the late Seymour Porter, of Toronto, and Miss Grace Cameron Ferguson, youngest daughter of Mr. and Mrs. D. A. Ferguson, formerly of Glencoe. The bride is a niece of Mr. Alexander Cameron, of Mosca.

Canadian buyers of Ford cars from August 1st, 1914, to August 1st, 1915, are not to get any rebate in the price, as has been promised previously. In an announcement published on Saturday the company claim that only 18,774 cars had been disposed of in the specified time. There is not much consolation for them, either, in the fact that the prices were reduced on August 1st to \$180 for runabouts and \$330 for touring cars.

Some complaint is heard that the wheat is beginning to sprout in the shocks. Never in the history of this section has there been such an abundant wheat crop, and the farmers are becoming very anxious at the possibility of continued wet weather. While the wheat crop is plentiful so also are other crops. Potatoes are exceptionally so. A local man dug 21 fair sized potatoes at random from one hill. Farmers of long experience say they never saw so many potatoes to the hill as there are this year.

Rather an exciting runaway, which fortunately was unattended by serious results, happened on Main street south Monday afternoon. Miss Violet Gould, of the Longwoods Road, was driving her aunt, Mrs. Churchill, and her cousin, Miss Irene Morrison, to Glencoe where they were to take the train for London. When about a half-mile from town the horse took fright and ran at breakneck pace until it reached the Presbyterian church sheds where it turned into the stall it usually occupies on Sundays. Most fortunately the buggy did not strike any object and the worst that happened was a great scare and lots of excitement for a few minutes. Mrs. Churchill and Miss Morrison postponed their trip to London till next day.

Shronk stopped his motor car at a desolate crossroads and yelled to a farmer who lay on a cart of fertilizer. "Hey, Cornsilk, is this the way to Croydon?" The farmer raised himself from the fertilizer in astonishment. "By heck, stranger, how did you know my name was Cornsilk?" he asked. "I guessed it," said the motorist. "Then, by heck," said the farmer, as he drove off, "guess your way to Croydon."

Worms derange the whole system. Mother Graves' Worm Exterminator deranges worms and gives rest to the sufferer. It only costs 25 cents to try it and be convinced.

"Whiskey, my friend, has killed more men than bullets."
 "That may be, sir; but, bejehers, I'd rather be full of whiskey than bullets."

CONQUEST OF THE EARTH.

Man's Battle For Fruitful Fields Against Nature's Barriers.

Nature has set up four kinds of barriers to man's conquest of the earth—mountains, forests, deserts, rivers. The first he cannot remove; so he borrows holes through them for his railways.

The second he has, most unwisely, largely cleared away altogether. The third he is beginning to treat like the forests. The fourth he is shifting to suit his purposes and to regulate their flow at will.

Man flies now over all boundaries. He cuts through isthmuses to remove the barriers between the seas.

Into the deserts man sends railroads, telegraph lines, irrigation engineers. The Great American desert marked upon the atlases of our fathers has ceased to exist. The vast desert of northwestern Canada has become a prairie of waving wheat.

The Landes of Gascony are now much more than half covered with pine trees. Over 22,000 square miles of the Algerian desert has been made fruitful by artesian wells. The Australian desert is rapidly being irrigated and turned into grazing land. Almost 70,000 square miles of desert in India have been reclaimed. Operations are now in progress for reclaiming 19,000 square miles of the delta of the Tigris and Euphrates, and more than 4,000 square miles of the Gendreh plain between the Blue and the White Nile are being transformed into cotton plantations.

There is man by obliterating natural barriers improving upon nature.—St. Louis Post-Dispatch.
