The Maxwell

puts pep and profit

into hauling work

It costs four times as much to haul with horses as with a Maxwell Truck. It takes three teams to cover the same ground and haul the same load.

And the Maxwell gets there faster and in more business-like style. Gives the rock-bottom cost for hauling.

That's the reason why of the Maxwell's big success in Canada.

Farm produce or furniture, food or feathers, lumber or scrap iron, milk or machinery—the Maxwell is the most economical investment in the Dominion for any freight-carrying problem.

It costs from 100 to 400 per cent less than heavier trucks which may do only ten to twenty per cent more work. It costs only a little more than lighter trucks and (apart from being completely equipped) does much more work—in less time. It costs several hundred dollars less than any other truck of similar capacity.

The Maxwell is made in Canada. It embodies the full fruits of the Maxwell manufacturing facilities and record. A scientific engineering job—not a mere assembled mechanism.

Low cost for upkeep means that the Maxwell will earn extra profits for you. And there's real service available on this speedy ton-and-a-half truck anywhere in Canada.

Take the specification data of any other truck—higher or lower in price. Discuss them in front of the Maxwell chassis.

Then write your check as facts dictate.

TALKING IT OVER

With Lorna Moon

WHY IS IT?
Why is it that women who have a great deal of money are such frightful bores? A man seems to be able to withstand the devastating influence of money, but women seem to go under and become rapid machines that gibber of clothes and jewelry and furs. I'm not speaking of the women who belong to families that have had money for generations; though goodness knows this country isn't overcrowded with that sort. I am speaking of the women who in their girlhood knew what it was to be pinched for money. I have met many of them lately, many dozens, wives of newly made millionaires, and I have yet to meet one who would not smother me with “twelve thousand dollar diamonds” and “thousand dollar fur coats”, every thing, tabulated and price marked, as they reeled it off. I never met one yet who was not JUST having her jewelry reset in platinum, “because it is 80 scarce and 50 expensive, and do you know it costs—” and so on, I have never met one yet who had an intelligent thought on any subject beyond cars, clothes and jewels. What is it that happens to them? They seem to be cut from the world of art, self made exiles, books mean nothing to them. They have no time to read poor things, they are too busy spending, and spending; and selling, and telling, about it. I would rather spend, an hour with the little sculptress who is trying to get a buyer for her fountain of the teacher who is moulding the mind of a future statesman, or the housewife who is trying a new cake recipe; than be paid to listen to the thousand dollar conversation of the gold plated human adding machines.

TODAY'S EVENTS

The United Confederate Veterans' Association is 30 years old today, having been organized in New Orleans, June 10, 1888. William and Mary College, the second oldest college in the U. S. States, will hold its 225th annual commencement today. Commencement day at the University of Oklahoma today will be featured with an address by Dr. Frank L. McVey, president of the University of Kentucky. British and Canadian societies have arranged an exhibition of a large collection of war pictures to be opened in New York today by the Duke of Devonshire. Timely trade problems affecting business both at home and abroad are to be discussed by some of the most distinguished speakers in the country at the annual convention of the National Association of Credit Men, which is to meet in Detroit today. The Red Morgen David of America, an organization of 30,000 Jewish men and women in the United States, will today launch a national campaign for a \$100,000 emergency fund for the Jewish Legionnaires in Palestine. Julius Barnes, U.S. Wheat Director has invited grain exchanges, grain dealers, flour jobbers, bakers, and producers' organizations throughout the United States to confer in New York City today on problems relating to the wheat crop of this year.

SPORTS

Racing: Meeting of Westchester Racing Association at Belmont Park, N.Y.
Meeting of Latonia Jockey Club, at Latonia, Ky.
GOLF: Oregon State championship tournament opens at Portland.
TENNIS: Texas State championship tournament opens at Austin.

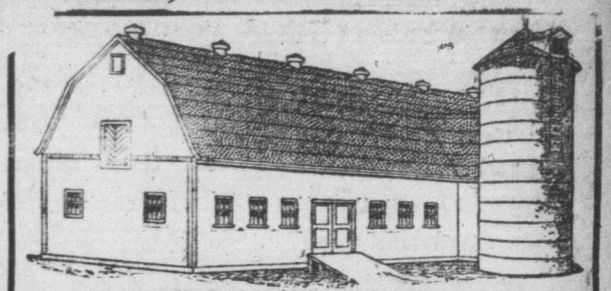

PLEBISCITE IN SILESIA
PARIS, June 7.—Expectations in British circles, shared by the French, is that the conference to joiner to the German counter-proposals will be presented toward the end of next week and that the Germans will be allowed several days in which to deliberate on their final answer. Although unanimity has not yet been reached by the big four as to the full reply, developments in the Silesian problem coincide with the predictions that a plebiscite will be permitted in Northern Silesia and in the section of East Prussia handed over by the treaty to Poland; and that in Silesia the German right to economic consideration in respect to the product of the mines will be recognized although Germany will have no share in exploiting the mines. These changes in the treaty are urged as in harmony with the general principle of acknowledgment of ethnic and historical rights.

Say Crisis is Over.
It is said in French circles that the crisis that has been threatened in the conference had been avoided and that complete unity exists on all matters of importance. The French view is that consideration of the German counter-proposals should be guided not by what Germany may think, but of such concession as will induce her to sign, but by the undoubted right of the conference to impose conditions it considers just and necessary. There is a report that Count Von Brockdorff-Rantzau has been sounded as to whether certain modifications would induce him to sign. The French position undoubtedly is opposed to any such procedure, on the ground that it would play into the hands of the Germans and weaken the position of the conference. Mr. Paderewski was heard by the big four respecting the modifications affecting Silesia and East Prussia, to which the Poles strenuously object.

BUT 70,000 CANADIAN TROOPS OVERSEAS
LONDON, June 7.—The Olympic sailed to-day with 5,511 Canadians including the final units of the 4th Division.
The Royal George also carried 1,550 which leaves only about 70,000 for repatriation or discharge here.
Nearly 55,000 troops were repatriated during May.

AN IDEAL SUMMER OUTING
Algonquin Park, 200 miles north of Toronto and 170 miles west of Ottawa, is known to thousands who have enjoyed the attractions that are offered in this wonderful Government Reserve. At an altitude of 2000 feet above sea level the air is pure and bracing. Speckled trout, salmon trout and black bass abound in the lakes and streams of this Park. The Grand Trunk operate hotels and log cabin camps in the Park. The Highland Inn on Canoe Lake, Algonquin Park Station, with accommodation for 150 people, opens for the reception of guests this year on June 14th, and Nominigan Camp on Smoke Lake, with accommodation for 75 people

For a few cents you can get a small bottle of the magic drug frezone recently discovered by a Cincinnati man. Just ask at any drug store for a small bottle of frezone. Apply a few drops upon, a tender, itching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with the fingers. Just think! Not one bit of pain before applying frezone or afterwards. It doesn't even irritate the surrounding skin. Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet, slivered up and fall off without hurting a particle. It is almost magical. Ladies! Keep a tiny bottle on the dresser and never let a corn or callus ache twice.

Barn and Silo Roofed with Brantford Asphalt Roofing.

Resists Fire, Sheds Water, Wears Long

Flying sparks and embers from a burning building often cause roofs near by to catch fire, especially in a dry, hot season. Under like conditions, roofs covered with

Brantford Asphalt Roofing

are in no danger from flying embers, because any that fall on Brantford Asphalt Roofing die out harmlessly. Build a bonfire on a roof of Brantford Asphalt Roofing and the fire will not spread and the boards underneath the roofing will be protected in a surprising manner.

If a fire starts in the interior of a building, Brantford Asphalt Roofing acts as a retardant and keeps the fire from spreading. Fire chiefs and insurance companies endorse its use in the most congested cities.

Brantford Asphalt Roofing does not absorb water, but sheds the heaviest rain with ease. Acid proof and small proof. Reliable, durable, economical. Three weights—40 lb., 50 lb., 60 lb. per square.

Brantford Rubber Roofing
is the same quality as Brantford Asphalt, but has a smooth, rubbery surface instead of the sand. It is particularly suitable for verandahs, decks and floor coverings. Three weights—40 lb., 50 lb., and 60 lb. per square.

Leatheroid Roofing
Slightly lower quality than Brantford Rubber Roofing. Used for same purposes. Has a leathery surface. Exceptionally good roofing at a low price. 55 lb., 45 lb., and 65 lb. weights.

Standard Mohawk Roofing
is made of the same materials as Brantford Asphalt Roofing, but is lighter in weight. A thoroughly reliable roofing at a low price. Tested for years and has given entire satisfaction. Sanded on one side. One weight—40 lbs. per square.

Climax Sheathing Paper
A tough kraft paper coated with high-grade asphalt. For making buildings damp-proof and wind-proof. Also for roofing temporary bank houses, lumber camps, etc.

Samples of any of these roofings and prices will be furnished on request.
