

While here we are blessed with a good harvest... The man may have felt who is willing to toil... And then were his search for a happier home... While feelings so numerous as to fill his soul...

Strange indeed would it be, if a land like our own... Where our roses, though latest, are sweetest when blown... Though our winters are long, and sometimes severe, But lead us to summers delightfully clear...

But prosperous as Canada always hath been, This year is the best that she ever hath seen, And now she is wreathing a laurel to wear, That nations may one day be anxious to share.

Her prosperous condition will appear very plain Where her farmers get a dollar and a quarter for grain. While all their productions so readily sell, At prices which now pay them equally well.

To many, it doubtless may seem very queer, Why Dry Goods are cheap and Provisions so dear, Is true, notwithstanding, which our patrons may see, By calling on Young Street "One Hundred and Three."

While many must know, an advance very great, Has been made in the value of woollens of late, Yet our flannels and blankets will quickly appear, Quite as low as the prices we offered last year.

Our Bonnets and Cloaks have been tastefully made, With a prospect of greatly increasing our trade, And our Shawls and our Furs will at once please the eye, And induce even the most fastidious to buy.

Our manner of business is extensively known, The lowest price asked, with the article shown, And such, we determine, shall continue to be, The unceasing practice at ONE HUNDRED AND THREE.

Protection from Lightning. BY SPRATT'S PATENT. LIGHTNING RODS manufactured by E. V. Wilson and H. Piper & Brother 50 Yonge Street. The Subscribers are the only authorized agents for the sale of these valuable rods in the Canada. Manufactured and for sale, wholesale and retail, at No. 50, Yonge Street, Toronto. CAUTION—Allow no man to protect your buildings without first examining the points of his rods, and if they have not the Platinum Wire in the point, they are not genuine. The coating of them is of a composition metal that never rusts, retaining its brightness for years. The metal is soft and easily cut with a knife, yet sufficiently hard to resist the influence of electric fluids. Look out for rods manufactured at St. George, C. W., they purport to be Spratt's points and rods but are not. The points are made of steel, highly polished, but will become coated with rust after the first night's exposure to the atmosphere, consequently rendering them useless. Always ask for the Agent's Certificate of right to sell, and be sure to notice the stamp—SPRATT'S IMPROVED POINT—this is on the points near the base. Notice.—No Policy of Insurance covers losses by Lightning unless burned down or set on fire. E. V. WILSON and H. PIPER & BROTHER, Agents wanted. Toronto, March 16th, 1854.
