

THE WALK, NOT THE WORK

More than half the drudgery of ironing day is caused by the incessant travelling back and forth between ironing board and stove in the work of changing irons. An electric iron abolishes this. Simply attach the cord to the lighting socket, turn the button, and in a moment your iron is all heated ready for use. The iron heats itself and the point is always hot just where you want it. No changing of irons. A day's ironing can be done in about half the time at an average cost of five cents. Price \$5.00.

Call in and have iron demonstrated, or 'phone the Comfort Number, Adelaide 404, and we'll send one to your home on 30 days' trial, without obligation.
