LARGE CROWD TO GREET HON. ARTHUR MEIGHEN

Conservative Leader to
Address Business Men's
Club on Tuesday.

Rt. Hon. Arthur Meighen is coming to Toronto on Tuesday next to address the Liberal-Conservative Business Men's Club at luncheon at the King Edward Hotel. In its circular letter to members the club states, "Mr. Meighen has always been warmly received in this city and on this visit he will meet with a cordial reception."

"In the last session of the House of Commons, as in preceding sessions of the present Parliament, he towered above all others, and impressed himself upon the country as the truly National Leader. He has an unequalled grasp of the country's affairs, and it is to the country's affairs that he devotes his great talents. The burning question of the time for Canadians is the preservation and upbuilding of the home market for home industries. This question of paramount national importance will bring a large gathering of Conservatives to hear the Conservative leader."

Mr. R. C. Matthews, the president, reports a large inquiry for tickets.
