MARKET REVIEW AND FORECAST

Toronto, Monday, April 8.—Winter is
holding on all too well, and the con-
tinued cold weather is making business
men anxious. Retail trade is not as good
as it would be were the weather warmer.
Whole-sale dealers, however, report a brisk
trade, and with the continual string of
immigrants to our shores we take an opti-
mistic view of the trade outlook.
The wheat situation in the west is caus-
ing all those who have the best interests
of the whole country at heart considerable
anxiety. There is still a great
deal of wheat exposed to the weather,
and much of it is mixed with light snow.
Milder weather is setting in, and unless
opportunities for shipment vastly improve
the loss will be great. The biggest loss
will be in undergrade feed wheat that,
had reciprocity carried, could have been
readily marketed in the United States.
Continued cold weather has had a ten-
dency to push up the prices of feed
stuffs and consequently prices of dairy
produce and calves as well. There have,
however, been few very noticeable changes.

WHEAT
There is a fair business going in both
fall and spring wheat, and the demand
in the Old Country is stronger than it has
been for a long time. Trade would be
stronger were transportation facilities
available. The outlook is No. 1 Northern is
quoted at \$1.14 1/2; No. 2, \$1.10 1/2; No. 3,
\$1.06 1/2; Manitoba feed wheat, for com-
parative wheat is quoted at 95c to 96c out-
side.

COARSE GRAINS
Oats and corn, the principal feeding
stuffs offered on the market, have had a
further increase in price this week. Other
lines are firm at last week's quotations.
