## AGRICULTURAL LIME

The farmers of England have limed their meadows and pasture lands in the fall for hundreds of years. Why?

You lime yours and the question will be answered; also lime your plowed clay land this fall. You will find it more tillable and earlier to get on to. That means earlier seeding, and be sure to seed clover where you put lime. Write us for prices, if we have no agent in your locality.

## The Handy-height Oven makes a world of difference

Here is a big step in Kitchen reform. Ranges with bend-over ovens made tired backs. Just try to count the many, many times dishes have to be lifted in and out of an oven. Count the times one had to stoop to see how things were baking. Modern woman has voted that stooping out of existence. The range of to-day must have a Handy-height oven.

For, a Lighter Day has dawned in the kitchen.

This new coal range has an oven that meets you at standing height. There is no bending over. Once things are placed in the oven they stay there until they are done. You don't bend down from time to time to see how they are doing. You simply watch them through the Clearview Door. Stooping is done away with absolutely. The thermometer, too, is up in plain sight.

And that Clearview Oven Door! Cakes have a far better chance when there is no jarring of the door. Isn't it a fine idea to save the constant disturbing of light cookery?

The Lighter Day Coal Range burns either coal or wood. It has six pot-holes, two of which are fully enclosed. Cooking odors can be kept from floating through the house.

This Lighter Day range is now in thousands of Canadian homes. Over 700 stores carry them in stock.

If you have not yet seen one, you can hardly realize the world of difference a Lighter Day would make in your work. Let us show you as well as we can in our Booklet, "A Lighter Day in the Kitchen."

This is a booklet of photos showing a housewife using the many new labor-saving ideas of this wonderful range.

## NEPONSET Paroid ROOFING

You cannot afford to experiment with cheap roofings, when Paroid, though it may cost a little more, is the least expensive roofing in the world.

### WRITE FOR BOOKLET

Paroid Roofing is made of the best felt, thoroughly saturated through and through with nature's own Waterproofing—Asphalt, and is finished in Grey, Red, or Green. Burning embers dropped on it, die out—Paroid is a positive fire-resistant, and is easy to lay. Look for the Paroid Roll—there are 2,000 Neponset dealers throughout Canada.
