LONDON FENCE MACHINE COMPANY, LTD., London, Ontario.

Noroton Beauty.

The Best All-Round Potato

NEW NOROTON BEAUTY.—It is a lineal descendant of the famous Peach-Blow, being a seedling from a seedling of that variety. We may summarize its merits as follows: It is the earliest potato ever grown. It is by far the most productive extra early, yielding as heavily as any of the medium early sorts. It is handsomer in appearance and more uniform in size and shape than any other variety. Its table quality is superb, and it keeps longer than any other sort, early or late. It is the best all round potato in existence. We have grown this variety for two seasons, and highly recommend it. Price: 1 lb., 20c.; 5 lbs., \$1.00; postpaid to Canadian points; peck, 75c.; 1/2 bush., \$1.90; bush., \$2.10; bag, \$3.00, here. Shipment as soon as safe in spring. Order early.

NOW READY, our handsomely-illustrated 96-page catalogue of Seeds, Plants, Bulbs, Poultry Supplies, Garden Implements, etc., free.

No. 9 Hard Steel Wire

from top to bottom. Does it look strong? Do you know what No. 9 hard steel wire means? It means double the strength and durability of light wire fences. Means the toughest thing known to fence builders. Means the biggest and heaviest wire used for fencing in Canada.

Mr. Fence Builder, just stop one moment and think. You don't want to do the job over again year after next. Take a lesson from some of the two-year old fences you know. They are usually made, or partly made, of light, soft wires that break easily—of poorly galvanized wires that rust soon and up—of poorly fastened wires that slip. Your experience tells you these are the things to look out for. Keep them in mind and take a good look at

Ideal Fence

Look at one that's been up two, three, four or five years. If you'll examine carefully, we'll be satisfied with your judgment. Don't forget to look at the lock. It grips the wire on FIVE bearing points. We show it good and large below so you'll be sure to see it. No. 9 wires, No. 9 stays, locked as Ideal locks them at every crossing, there's not going to be any slips or breaks or holes in your fence and there's not going to be any sagging.

The railroads know how to fence for permanency. They are buying more Ideal than any other make. Farmers are following suit, fencing their farms to stay.

We'd like to talk Ideal fence personally to you for a few minutes. Write in and give us the chance. We'll send you a little book with the particulars to start with.
