#### METHODISTS WON THIS TIME.

"What a beautiful little baby he is!" exclaimed the neighbor who had called.

"He isn't six months old yet, either," said the proud young mother, "and he weighs over twenty pounds."

"What have you named him?"

"Well," hesitated the mother, "Henry and I differed a little about that. He wanted to give him one name, and I wanted to give him another, but we finally compromised, and agreed to call him John Wesley."

"I see, you named him after the great founder of Meth—"

"No, indeed," quickly interrupted the mother. "That name, as I said, is a compromise."

"But how?"

"The 'John' is for John Calvin, and the 'Wesley' is for John Wesley."

"Oh, I see."

#### GOSSIP.

The famous Thoroughbred stallion, St. Blaise, died recently at August Belmont's nursery, near Lexington, Ky. His death followed closely that of Ben Strome, another famous horse, which died Oct. 14th. St. Blaise was a chestnut horse, by Fusee, and was foaled in 1880. He won the English Derby as a three-year-old, and many other big foreign events. It is said his get have won more than a million dollars in the United States.

L. V. Harkness, owner of Moko, sire of the record-breaking two-year-old trotter, Native Belle, 2,074, has placed Moko's fee at \$1,000 for the coming season, desiring to make him practically a private stud, but seven mares were booked to him in one day during the Lexington meeting. Yellow Belle, the dam of Native Belle, trotted a mile below 2.20 as a four-year-old, and for several seasons took part in the matinee and speedway racing in New York, being able to trot a quarter right close to 30 seconds whenever in form for fast work. From her three-year-old form until she was bred, seven years later, she was constantly used for matinee and speedway racing, and more than once beat 2.20.

J. Watt & Son, Salem, Ont., write: The five Shorthorn bulls we are offering in our advertisement at present are a very choice lot. One two-year-old is a richly-bred Bellona, sired by a son of Imp. Derby, and out of a daughter of the \$6,000 Brave Archer. The yearling is a representative of the Merry Maids, he is out of an imported cow, and sired by Heatherman; (he was from imported sire and dam). This is the makings of a very heavy bull, weighing, as a yearling, 1,800 pounds. The three calves are all good ones, and all sired by Imp. Pride of Scotland. One of these bulls is from an imported cow, which is also the dam of Duchess 44th, the first-prize three-year-old cow in milk at Toronto this year. These three bulls have been in the stable all summer, and are in extra-good fit, while the other two bull calves we are offering were out on grass till a month ago, are not in as good fit, but are bred right, and are good enough to head any herd. These bulls will be priced low so as to make room.

#### HORSE AND MACHINE.

The sale of Mr. Reynal's hunters, at the auction rooms of Van Tassel & Kearney, New York, last month, resulted in prices which demonstrated beyond doubt that the horse is high in favor, despite the invasion of the automobile. One might ask why we mention, from time to time, the fact that the machine has affected the horse's popularity? The answer is, that many horsemen will not permit themselves to believe, even in the face of closed harness shops and carriage factories, that a change in the horse status has taken place, and we feel it to be our duty to note its progress. Such events as the Reynal sale are signs of a reaction. The machine's usurpation of all the horse's functions is gradually giving way, and it is certain as death and taxes, that before very long there will be a lot of junk piled up in back yards, and the stables filling up again with satin-coated beauties. There is no distinction nowadays in owning an automobile. As a means of useful conveyance it will be, perhaps, always employed; but as a sport and vehicle of real driving pleasure, it will never fill the bill, as does the pair to phaeton, the high stepper to rig, the tandem or four-in-hand. Saddle horses and hunters were threatened by the bicycle. Their position in society to-day is more assured than ever. We recall how Durand's Riding Academy was on the verge of being turned into a bicycle rink when, presto, the bottom fell out of the bicycle craze and rinks were a drug on the market. The automobile is a more important and attractive instrument than the bicycle, and, therefore, will take more time to settle down to its proper place in the economy of life.—Rider and Driver.
