Supplies to laborers are kept in a systematic form always ready to be deducted from the wages account. There can be no "leakholes." The Threshers' Account Book contains—

## Endurance Counts Most

WHEN your sheds are full of machines and one or two are crowded out into the open, which is it that invariably stands outside, with the sun and the wind beating on it every day, drying and warping the wood, or with rain rusting the iron? It's the wagon. Other machines are stored away, but the wagon works the year around, is always under the strain of heavy burdens, always getting rough treatment. It can't stand the strain of such a life for many years unless, like I H C wagons—

## Petrolia Chatham Hamilton Old Dominion

it has built into it the utmost of endurance, toughness, and sturdiness. I H C wagons are built of wood of very best quality, every bit as good as they look. Examine them closely; you find no cross-grained, knotty, split, or faulty timber. Every stick, oak and hickory for the wheels, yellow or bay poplar for box sides and long leaf yellow pine for bottoms, is selected from first grade lumber and carefully inspected. Every stick is toughened and seasoned by two or three years of air-drying. No brittle kiln-dried lumber is used.

All steel and iron parts are chosen with the same end in view—greatest durability and longest life. Experts test and verify every part. Before the wagon is ready for you it must pass many thorough inspections. The timber, metal, shaping and fitting, painting, every detail down to every brace and bolt, must be just right.

Buy one now, watch its steady service on your farm, and mark this—your future reliance will be on the I H C wagon. That future order is our ultimate aim. Ask the I H C local agent to show you the I H C wagon best suited to your needs. Get catalogues from him, or, write the nearest branch house.
