Sixty New Associations Organized Since the Convention

Total Membership in Saskatchewan is now over Six Thousand in addition to 442 Life Members. Number of Associations according to Crop districts. Statement of Fees received from Feb. 1 to Mar. 31. A List of the Hummers.

What is going on at the Grain Growers' Association? What progress are you making in organization? We have been asked something like this several times recently.

Well, since the convention we had some sixty new associations organized, the total in good standing on April 1st being 319. The total membership paid for 1910 is 6,338. This with 442 life members makes a total of 6,780. This is more than we had all told for 1909. We want to make this at least 12,000 by the end of the year. So move up, boys, make things hum. Here is where our associations are located. We have, as you will see, only just commenced organizing.

Location of our Associations by the Electoral Districts

Arm River, 10; Battleford, 21; Cannington, 12; Duck Lake, 2; Estevan, 9; Francis, 11; Hanley, 16; Humboldt, 4; Kinistino, 18; Last Mountain, 23; Lloydminster, 7; Maple Creek, 1; Milestone, 6; Moose Jaw, 22; Moose Mountain, 11; Moonbeam, 13; North Battleford, 3; North Qu'Appelle, 6; Pelly, 7; Pheasant Hills, 10; Pipestone, 11; Prince Albert, 7; Redberry, 12; Regina, 12; Saltcoats, 6; Saskatoon, 19; Souris, 7; South Qu'Appelle, 3; Swift Current, 3; Touchwood, 5; Vonda, 4; Wadena, 6; Weyburn, 5; Yorkton, 2. MANY DISCUSSIONS AT DUNDURN

The meeting held in Dundurn on Monday last at the Royal Assembly Hall in spite of the spring-like weather prevailing was not largely attended.

Mr. W. T. Richardson, the president, occupied the chair and Mr. Paul Schwager acted as secretary.

A long discussion took place regarding the placing of orders for and getting prices on twine, and the following motion was made and carried:

That we give the secretary-treasurer our individual orders for the quantity and grade of twine required to be delivered July 1st next, and that he get prices on same from dealers.

The secretary-treasurer read a letter from the Prince Albert Board of Trade regarding the building of a railroad from Prince Albert to Fort Churchill, and urging the endorsement by the association

Power Plowing Multiplies Profits

LET the next plowing season find you in the first rank of progressive, business life, money-making farmers. Prepare to cut down the expense of plowing and thus increase your profits with an International Gasoline Tractor.

It has been proved beyond question by competitive tests in this country, Canada and Europe that plowing can be done with greater speed, efficiency and economy with an International Tractor than with any other power.

Yet these facts are only official acknowledgment of a fact that hundreds of practical farmers have proved for themselves.

With an International Gasoline Tractor

—You can plow 5 or 6 furrows in the same time it takes to plow 2 or 3 with a horse drawn plow.

—One man does the work of several men and many horses.

There is no expense for feed.

—You avoid the drudgery of walking thousands of miles for every square mile plowed.

—You avoid the expense of replacing broken down horses.

—You are independent of hired help.

—You have an economical, dependable power always ready for drawing heavy loads, road making, running threshers, shellers, shredders and other machines and hauling them from place to place.

International Gasoline Tractors

have none of the disadvantages of the steam tractors—no smoke, steam, sparks or soot—no expense of men and teams for hauling water and coal—no loss of time to raise steam—no danger of boiler explosion.

The consumption of gasoline is less per acre than that of any other gasoline tractors. They can be turned around in less space than any others. They can be used where other outfits can not because of their excessive weight. You will find the machine for your requirements in the I H C line. See the local dealer, or, if you prefer, write the International Harvester Company of America at nearest branch house for catalogue and full information.

of copies of resolutions already passed in favor of the railway being built between these points.

It was resolved that the president and secretary-treasurer sign the resolutions enclosed and that they be transmitted to the minister of railways and G. E. McCraney, M.P., with a letter urging them to support same.

A letter was read from Mr. F. W. Green, secretary of the Saskatchewan Grain Growers' Association, enclosing copies of correspondence which had passed between himself and the Hon. Walter Scott, which correspondence was withheld from publication at the recent convention at Prince Albert and giving his reasons therefor.

The same was laid on the table for the information of the members.

The chairman brought up the subject of the grist mill and stated that he hoped the board of trade would meet them to discuss this matter.

The following resolution was passed: "That the association endeavor to meet the Board of Trade with the idea of discussing the matter of the provision of a grist mill here."

The next meeting of the association will be held on Monday, April 25th, at 7.30 p.m.

LIFE GERMS FROM IOWA

Vinton, Iowa, U. S. A., April 3, 1910. F. W. Green, Esq., Moose Jaw, Sask.

Dear Sir:—I enclose my check for \$12.00, for which kindly send me life membership certificate in the G. G. Association. I am awake to the benefits you are conferring on us by your discreet efforts, and bid you God speed in your noble work. I have a section eight miles west of Estevan, and have a complete gasoline outfit now at work on same. Thanking you for your noble efforts in the cause of justice, I am, yours respectfully,

F. C. HAYWARD.

PERDUE'S ANNUAL SOCIAL

The first annual feast and social gathering held by the Perdue Grain Growers' Association last Saturday was a success.

After justice had been done to the abundant supply of eatables, the chairman, Mr. Batute, arose and proposed the time honored toast of "The King."

Mr. Kimber, of Kinley, and Messrs. Stephenson, Rain, and Batute rendered songs in a very enjoyable manner and were each an entertainment in themselves, many encores being demanded by the hearers.

The next toast to the "Central Association" was left off the list as Dr. Hill, who was to respond, was hurriedly called away by wire. Mr. Batute proposed a toast the "Town and trade of Perdue" and in a very able manner told how the farmers of the surrounding country linked their interests with those of the town. This toast was replied to by Messrs. Rideout, Sheck and Todd.

H. B. Kirby proposed a toast to the "Perdue Association" and it was answered by the officials of the association, Messrs. President E. Fischer, Vice-President Saunders and Secretary Batute. Mr. Saunders said that the interests of the town and those of the farmer were identical and in his opinion both parties should work together. He continued, "The prosperity of the farmer spells prosperity to the business men and therefore the two should join together 'to live and let live.' All that the farmer wanted," he said, "was a fair price for everything. These associations were not for the purpose of making the farmers a power to crush anything or anybody, but wholly for the purpose of getting equal rights."

Mr. Batute said that there seemed to exist a feeling between the business men and farmers, that one was trying to beat the other. He said that one of the chief aims of the association was to use their fast growing power in the right direction
